

The EIM IAC is available to respond to specific questions and assignments from EIM's Board and to reflect input to the Board from the EIM Member Risk Managers (you and your companies). The IAC meets quarterly.

The following is a summary of discussion items from the third quarter IAC meeting held on September 11, 2026:

Discussions centered around the following items:

- EIM remains financially strong, with loss development and investment performance generally meeting or exceeding expectations and capital positioned to absorb potential volatility.
- The Board preliminarily approved a \$25 million member distribution, subject to final consideration at its November meeting.
- EIM is refreshing its mission, vision, values and strategic foundation to reflect the energy industry's evolving risk environment while preserving its core strategy and member focus.
- Member survey results showed strong satisfaction with EIM's staff, service and engagement, with communication now frequently recognized as an organizational strength.
- EIM continues to evaluate sustainable opportunities to provide members with additional wildfire liability capacity and pricing benefits, building on the 10% premium credit announced last year.
- EIM is partnering with a third-party cyber risk analytics provider to assess portfolio exposure and develop a long-term cyber strategy addressing AI-driven threats, operational technology, third-party vendors and systemic events.
- The Committee examined how rapid data-center growth and distributed generation could affect grid reliability, capacity planning, regulatory requirements and costs for existing customers.
- Task Force Committee discussions highlighted the importance of strong governance, human oversight and continuous risk monitoring as AI, cyber, regulatory and wildfire exposures continue to evolve.

The next IAC meeting is December 8, 2026.

Please share any input you may have or want the IAC to evaluate for EIM Board and/or management consideration. It will be our pleasure to discuss and answer questions you may have regarding the activities of the IAC and EIM.

Thank you for your continued support of EIM.

IAC COMMITTEE MEMBERS (as of 09/2026)
