Effluent Solutions

GREENBack

Built on the trusted foundation of the **Williams Spider Travelling Irrigators**- the proven market leader, designed and built to be a farmer's best friend, the **Greenback** delivers unrivaled performance and reliability. Maximize pasture growth by making the most of your farm's natural resources. The Greenback's efficient design and easy to use, five-speed travel system allows for precise control of effluent application depths (as low as 5mm), ensuring optimal nutrient use for healthier, more productive pastures. Each Greenback comes equipped with our durable 5mm Spider Web synthetic rope, available in 250m, 300m, and 400m lengths, providing an option to suit your farm's paddock length requirements. Can be easily upgraded to the Magnum in future.

- Boom length 9 meters
- 5mm minimum application depth
- 5 travel speeds
- Even spread with new arm design
- Distribution uniformity of less than 1.25mm
- Drags up to 75 OD PE pipe
- Wire layer fitted to 400m cable length
- Stainless steel and galvanised cables available on request
- Folding boom option to make for safer moving between paddocks
- **NZ designed and manufactured**
- **Simple, built to last**
- **12 month manufacturer guarantee**

Williams

Effluent Solutions

"With over 15 years of reliable performance on our own eight dairy farms in the Manawatu, we know firsthand that Greenback travelling irrigators deliver. Their simple operation ensures our staff can easily understand and operate them, while the five adjustable travel speeds allow us to precisely control application depths to match varying soil moisture levels."

-Gareth Rosvall Hopkins Group Manawatu
