

Williams
Effluent Solutions

 **Deluxe**

The Williams Spider Deluxe is the Toyota Hilux of traveling irrigators-trusted, durable, and built to perform. For over 30 years, the Deluxe has embodied our motto: 'Our reputation is spreading.' Designed to operate with a 2800 rpm, 7.5hp to 15hp effluent pump, it's the ideal choice for most average-sized farms. With over 1,500 units in operation worldwide, the Deluxe is a proven solution. Each unit comes standard with 4mm Spider Web synthetic rope, available in either 250m or 300m lengths.

- Boom length 6 meters
- 6mm minimum application depth
- 4 travel speeds
- Even spread with new arm design
- Distribution uniformity of less than 1.25
- Drags up to 63 OD PE pipe
- Stainless steel and galvanised cables available on request
- 13mm rubber power nozzles with quick release fittings
- **NZ designed and manufactured**
- **Simple, built to last**
- **12 month manufacturer guarantee**

Williams

Effluent Solutions

We've had our original Williams Deluxe for around 30 years, and it's been absolutely bulletproof- it's still going strong as our backup unit. I've always admired how simple and easy it is to repair, but honestly, it just keeps pulling its pipe up the paddock without a fuss. With rising pressure demands and the need for lower application depths, we upgraded to the new version with four travel speeds, and it's been magic!"

-Kelvin Barker, Maramarua
