## DID YOU KNOW...

All the machines that we sell, large or small, are built and tested before they leave the building. This means that you can start your work as soon as you get it home.

## YOUR GARDENING CALENDAR

✿ The pruning period has begun (August-September). Make sure your pruning equipment is in good condition. We can sharpen your blades and service any machinery.

✿ Start with fruit tree water shoots and the branches growing inward.

✿ Thinning fruit trees also produces bigger and better fruit.

✿ A battery-powered pole saw is a good tool for reaching high into the branches of a tree and is easy to handle. Call in to discuss your needs.

✿ Thin and rejuvenate hedges and bushes that have finished blooming.

✿ If you have a deciduous hedge, such as a spiraea, hawthorn or snowberry, it's time to trim it and a good time to trim topiary shrubs.
