YOUR GARDENING CALENDAR

- ⊗ Fertilise your lawns between now and November using autumn fertiliser a few weeks before the first frost. This helps protect your grass from the cold and will give more growing power in the spring.
- ⊗ Harvest fruit trees and remove windfalls from the lawn. The best time to prune fruit trees is when you have finished harvesting.
- ⊗ September is a good time to aerate your lawn.
- ⊗ If you are considering a new lawn, now is a good time for this.
