Give our friendly parts department a call for all of your part requirements.

WE ARE EXPANDING! HUNTS APPOINTED DEALER FOR FULL AGRICULTURAL M-SERIES RANGE

Kubota (UK) Ltd is pleased to announce that from 1st January 2025, Hunts Engineering has been appointed as a dealer for the full range of M-series tractors, to cover areas of Warwickshire, Worcestershire, Gloucestershire and Oxfordshire.

Located on the Fosse Way at Halford near Shipston-on-Stour, the family-run business is no stranger to the Kubota brand, having been handling sales, service and aftercare for the Kubota groundcare and Ag lite range since 2017. Since then, the firm has been gradually expanding its portfolio to include R0 compact loaders and KTH telehandlers. And that offering will soon include all M-series tractors up to the 175hp flagship model, the M7-174 KVT Premium.

“As part of the groundcare range, we had been selling tractors up to and including the M6001 Utility series,” explains managing director Pete Hunt. “And with our background in agricultural engineering, plus on-going combine servicing and repairs for up to 20 harvesters/year, our business is ideally positioned in the agricultural marketplace to step into the full supply and servicing of the entire M-series product range.”

“Our business is all about giving good service,” says Pete.

“If you look after your customers, then those customers will look after you.”

Established in 2007, Hunts Engineering currently operates with around 20 staff, of which six are mobile, operating with fully-equipped vans. The business believes in investing in staff training, and is keen to ensure its team is kept up-to-date with all products from the manufacturers it represents.

Henry Bredin, general manager of Kubota (UK)'s agricultural and groundcare machinery division sees the firm's expansion into agriculture as a positive step forward. “The ability of Hunts Engineering to grow its business to meet the needs of the farming sector and support a wider customer base is a positive step forward for new and existing customers in Warwickshire.”

“Such a strategic expansion will see Hunts Engineering continue to develop its partnership with Kubota, and strengthen our commitment to customers and the markets in which our business operates,” said Henry Bredin.

SERVICING AND REPAIRS

We offer agricultural and garden machinery repairs and servicing for all equipment, large or small. Whether you need your push lawn mower repaired, or your combine serviced, and anything in between, we have the specialist skills to offer prompt, efficient servicing or repairs to meet all your requirements.

We run a large workshop, fully equipped with specialist equipment to ensure accurate diagnostics and speedy repair times, run by qualified technicians and trainee apprentices. Our technicians are trained to a very high level and their experience spans 150+ years within the agricultural, garden care and garden machinery industry. We can also offer prompt on site servicing.

HIRE

We offer a range of hire machinery on short or long term hire.

HUNTS JOIN KUBOTA TEAM AT UK'S PREMIER AGRICULTURAL SHOW

The LAMMA 2025 show kicked off with a bang, breaking attendance records on its first day as thousands of visitors flocked to the NEC in Birmingham from all over the UK. As the premier event for agricultural machinery, technology, and equipment in the country, LAMMA once again proved its status as the go to showcase for the farming community.

With over 600 exhibitors, the event offered a unique opportunity for professionals in the agricultural industry to get a close-up look at the latest innovations and solutions shaping the future of farming. Whether it was cutting-edge machinery, advanced farming technology, or equipment designed to improve productivity and sustainability, LAMMA 2025 had something for everyone.

KUBOTA: COMMITMENT TO INNOVATION IN AGRICULTURE AND GROUNDCARE

Hunts joined the Kubota team, taking the opportunity to build connections and engage with the attendees visiting the stand. Kubota's stand showcased a variety of equipment and visitors had the chance to explore an impressive lineup of agricultural machinery, including some exciting new releases.

Thank you to all of you that visited us on Kubota's stand and for those that missed out, we'll be at the Kenilworth Show on Saturday 31st May with a range of our Agricultural and Groundcare Machinery... be sure to come and see us.

STRIMMER LINE HACK

Do you find that your trimmer line doesn't last and gets brittle over time?

HUNTS HAVE A TIP FOR YOU

Trimmer line does over time get brittle and breaks easily which is not what you want after winter storage. There is no need to worry anymore, this clever hack will rejuvenate your trimmer line.

Drop your reel of line in to a bucket of water for 24 - 48 hours before use. This should bring your line back to life.

Trimmer line is hydrophilic which means that it will absorb water and this will restore its flexibility and last longer.

We offer professional **SERVICING, MAINTENANCE** and **REPAIRS** for a wide range of agricultural machinery and commercial/residential lawn mowers.

Service & Repair • Oil Change and Lube • Tyre Services • Maintenance

Our maintenance services are extremely popular and booking in advance is highly recommended. For more information, please call us on 01608 638407 or email info@huntsengineering.co.uk

*Offer applies to groundcare machinery only
