Picking daisies on sundays

"In Picking Daisies on Sundays, Liana Cincotti weaves a poignant tapestry of love, longing, and heartbreak. The author's words dance with the delicate petals of daisies, symbolizing the fragile beauty of relationships. "I tried to stop loving you," she confesses, "but along the way, you found your way into the sound of my laugh, the style of my writing, and the threads of my clothes." These lines capture the essence of how love can seep into every aspect of one's life.The quotes also reveal a deep-seated desire for connection and acceptance. The speaker yearns to be noticed in a crowded room, to be wanted and desired without feeling self-conscious. They confess that "I want to laugh and to sing and to dance with someone and not feel self-conscious over it because I love them and I'm confident that they love me."In another passage, Cincotti describes her lover as the "archer," capable of receiving love from anyone he aims his heart at. However, she also acknowledges that her own heart has been broken repeatedly by the same hand, yet she would let it happen again if it meant being with the one she loves.The collection is replete with vivid imagery and metaphors, such as "She lives in between the pinks and yellows of the world," where a beautiful color remains unknown to others. The speaker's emotions are raw and unbridled, often expressed through comparisons to nature: "My heart has been broken a million times by the same hand... my heart sagging like the stems of uncut, unkempt flowers."Throughout the quotes, Cincotti's passion for her loved one shines bright, tempered only by the pain of their separation. In one poignant line, she asks if she is a ghost in her lover's story, adding a sense of longing and uncertainty to the collection.Ultimately, Picking Daisies on Sundays is a testament to the enduring power of love and its ability to seep into every aspect of our lives, even when it's not reciprocated.When hearts weren't meant to love then why did mine feel so empty / If eyes were meant to see the beauty of what's left / why does it always seem like everything is missing a piece She lives in between the pinks and yellows of the world where beautiful moments are unknown to others I become lost in conversations with her as if I'm entwined in a field of daisies / The way she speaks makes me want to be noticed in every crowded room You knock against my chest at the sight of you / I've never heard anything more terrifying / yet you provide air and suffocate me at the same time I want to be planted again when flowers pass / comforted in the chaos of life's storms I believe that everyone is meant to find love once they realize it was right in front of them Everywhere people are infatuated with the way you exist / Looking at you and yearning to talk to you makes my heart skip a beat Scrapbooking didn't work; watching romance films didn't work; and writing down reasons why I shouldn't pursue him didn't work because he had none I want his voice in French on lazy Sundays while sewing flowers together like a scene from a classic black and white filmI never saw him kiss anyone before / but it felt wrong and intrusive at the same time This one painting in front of us says "Love Letters" by Jean Honor Fragonard / It breathes of sunlight with warm yellow hues that touch my soul I want to be noticed, truly wanted, desired. I want laughter and music and dance with someone who loves me and makes me feel confident I want to be touched, kissed, held without feeling self-conscious or forgetting what love feels likeLiana Cincotti's "Picking Daisies on Sundays" - A Book That Will Leave You Feeling Like You're Walking On SunshineThe story follows Daisy, a fashion student, and Levi, a lit major, as they navigate their early twenties in NYC.
