Visiting Professor

The German Jordanian University is a Jordanian public university that is modelled on German universities of applied sciences and is currently particularly dedicated to research and the expansion of its research profile. It was opened in Amman in 2005. Approximately 6,000 students are currently enrolled at GJU. All GJU Bachelor students spend one year of their studies in Germany, for which they receive linguistic and cultural preparation in the first three years of study. The "German Dimension", thus, plays a central role in all degree programmes at GJU.

For the Federal Government and the Federal Ministry of Education and Research, GJU is one of their most important international higher education projects, funded by the German Academic Exchange Service within the framework of the programme "Transnational Education – Promotion of Binational Higher Education Institutions" (TNE). On the German side, Magdeburg-Stendal University of Applied Sciences is the project-leading university.

2027

GJU and the intertwined TNE Project at Magdeburg-Stendal University of Applied Sciences are going to offer **TNE-funded teaching and/or research stays of one or more semesters for professors (including junior professors and junior researchers/postdocs) from the German partner university network.**

Professors from all disciplines offered at the GJU are welcome to apply for the TNE-funded stays at GJU.

www.gju.edu.jo

Please note:

The geopolitical situation in the region may evolve until 2027. At present, there is no indication that the programme cannot be implemented as planned. Applicants are therefore warmly encouraged to submit their applications. At the same time, participants will be advised to regularly consult the travel and security information provided by the German Federal Foreign Office and to remain in close coordination with GJU and the Project Office throughout the planning and implementation phases.

Deutscher Akademischer Austauschdienst
German Academic Exchange Service

What is required

- Status as professor, junior professor, junior researcher or postdoc at a German partner university
- Completed university studies & PhD/doctorate
- Teaching experience in higher education
- Recent scientific publications following your PhD/doctorate (monographs, articles and/or other publications)
- Willingness for interdisciplinary cooperation
- Applicants must hold EU citizenship.

Where we invite you to get involved

(individual arrangements with GJU in each case)

Teaching and/or research stay at GJU

(for professors via special leave of absence (sabbatical) by the German university)

You will be involved in one or several of the following activities:

- Teaching in German and/or English.
- (Applied) research projects and, if applicable, establishment of a German Jordanian research cluster and/or knowledge and technology transfer.
- Further development of the subject/teaching area and internationalisation of the faculty/school.

Funding in 2027

Two seats are available.

A **monthly allowance** is paid via TNE project funds. (Note, that no local salary is paid. Thus, you might have to rely on salary of your home university, e.g., being on a sabbatical leave.)

Start

The teaching and research stays at GJU can start for the Second Semester 2026/27 (starting approx. 15. February 2027) or for the First Semester 2027/28 (starting approx. 15. September 2027)
