

To Management  
FD121 (BVI) Limited  
Ritter House, Wickhams Cay II,  
PO Box 3170,  
Road Town, Tortola VG1110,  
British Virgin Islands

Dear sirs,

## **Attestation Report on Reserves Accounts Report of FD121 (BVI) Limited (“the Company”)**

### **Scope**

We have been requested by the Company to report on the Reserves Accounts Report, prepared by management of the Company, covering the Company’s total supply of First Digital USD (“FDUSD”) tokens and the Company’s total reserve accounts, which are held and managed by a related party, being a public trust company registered in Hong Kong and a custodian for the Company (the “Custodian”, and the account being the “Custody Account”) (the “Subject Matter Information”), as of 31 January 2026, recorded at 9:00pm Eastern Time (“ET”) (1 February 2026 at 10:00am Hong Kong Time, (“HKT”), being the “Report Date and Time”).

### **Criteria**

The applicable criteria against which the Subject Matter Information has been evaluated are the criteria set out in the Reserves Accounts Report, including management’s policies that (i) the total reserve assets are at least equal to the total supply of FDUSD in circulation as of the Report Date and Time, and (ii) reserve assets are measured and presented in accordance with the accounting policies described therein (the “Applicable Criteria”). Management is responsible for determining that the Applicable Criteria are suitable for the preparation of the Subject Matter Information.

### **Management’s Responsibilities**

In relation to this report, management of the Company are responsible for:

- Preparing the Reserves Accounts Report in accordance with the Applicable Criteria described above; and
- Establishing and maintaining appropriate internal controls and keeping adequate records that are relevant to the preparation of the Reserves Accounts Report, such that it is free from material misstatement, whether due to fraud or error.

### **Our Responsibility**

In accordance with the agreed terms with the Company, we conducted our limited assurance engagement in accordance with International Standard on Assurance Engagements 3000 (Revised), “*Assurance Engagements Other Than Audits or Reviews of Historical Financial Information*” issued by the International Auditing and Assurance Standards Board (the “IAASB”).

## **Our Responsibility (continued)**

Our responsibility is to express an independent limited assurance conclusion on whether anything has come to our attention that causes us to believe that the Subject Matter Information, as at the Report Date and Time, is not prepared, in all material respects, in accordance with the Applicable Criteria.

We planned and performed our engagement to obtain the information and evidence which we considered sufficient and appropriate to provide a basis for our limited assurance conclusions. The procedures selected depend on our professional judgment, including the assessment of the risks of material misstatement of the Subject Matter Information, whether due to fraud or error.

## **Our Independence and Quality Management**

We have complied with the independence and other ethical requirements of the “*Code of Ethics for Professional Accountants*” issued by the International Ethics Standards Board for Accountants, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behavior.

Our firm applies International Standard on Quality Management (“ISQM”) 1, “*Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements*”, which requires the firm to design, implement and operate a system of quality management including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

## **Our procedures**

Procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed. Our procedures were designed to obtain a limited level of assurance on which to base our conclusion and do not provide all the evidence that would be required to provide a reasonable level of assurance.

Although we considered the effectiveness of the Company’s internal controls when determining the nature and extent of our procedures, our assurance engagement was not designed to provide assurance on internal controls. Our procedures did not include testing controls or performing procedures relating to checking aggregation or calculation of data within IT systems.

A limited assurance engagement consists of making enquiries, primarily of persons responsible for the Subject Matter Information, Reserves Report Account and related information by appropriate procedures.

Our engagement includes performing enquiries and inspecting documents on a sample basis. Our procedures performed included, but not limited to:

- Obtain policies, procedures and internal controls established by the Company in relation to the operation of the FDUSD;
- Obtain and inspect publicly available blockchain transaction data from specialised providers and compare the total supply of FDUSD as of Report Date and Time by inspecting the transaction reports published publicly from certain specialised providers in order to confirm the existence of FDUSD disclosed in the Reserves Account Report
- Compare the balances and amounts between the current Reserves Accounts Report and the ones of the previous periods and discussion of possible significant differences;
- Obtain and inspect the account activity reports, account statements and other relevant documents, and verify the reconciliations performed by management of the Company between the amounts in the accounting ledgers and the account statements to confirm the existence of the assets disclosed in the Reserves Accounts Report;
- Assess whether the valuation methodology applied by management of the assets disclosed in Reserves Accounts Report in accordance with the key accounting policies of the Company; and
- Verify the correctness of the disclosures included in the Reserves Accounts Report

## Conclusion

Based on our procedure and the evidence obtained, nothing has come to our attention that would lead us to believe that the Reserves Accounts Report, as prepared by management of the Company as of Report Date and Time, is not prepared, in all material respects, in accordance with the Applicable Criteria.

## Other Matters

We draw attention to the following in the accompanying Reserves Accounts Report:

- The Report Date and Time is limited to a point in time as of 31 January 2026. We did not perform procedures or provide any assurance at any other date or time in this report.
- Management's accounting policies provide that assets comprises of Reserve Accounts are valued in accordance with the accounting policies adopted by the Company.
- The management of the Company has applied a going concern basis of accounting to value the Company's assets. The going concern assessment requires significant management judgement with regard to the Company's liquidity, market and credit risks. We do not provide any assurance in respect of such assessment.
- The valuation of the assets of the Company is based on normal trading conditions and does not reflect unexpected and extraordinary market conditions, of the case of key custodians or counterparties experiencing substantial illiquidity, which may result in delayed realisable values. No provision for expected credit losses was identified by the management of the Company as of the Report Date and Time.
- The digital tokens issued by the Company allow holders to transact and settle transactions in a rapid manner, which may be pseudonymous, and may be verified by the sender and the recipient. The digital asset industry is nascent and innovating rapidly. Accordingly, any users of digital assets, including those tokens issued by the Company, should first inform themselves of the general risks and uncertainties of the industry, including as to evolving legal and regulatory requirements. Users of FDUSD should familiarise themselves with the risk disclosures, as they may be changed and updated from time to time.

Our conclusion is not modified in respect of these matters.

## Scope limitations

Our conclusion is limited solely to the Reserves Accounts Report as of 31 January 2026. Activity prior to and after this time and date was not considered when testing the balances and information described above. In addition, we have not performed any procedures or provided any level of assurance on the financial or non-financial activity on dates or times other than that noted within this report.

Our work is substantially less in scope than an audit conducted in accordance with "*International Standards on Auditing*" issued by the IAASB. Accordingly, we do not express an audit opinion or provide any assurance on it.

## Use of report

Our responsibility in performing our procedures and reporting thereon is limited to the Company only and in accordance with terms of reference for this engagement as agreed with the Company, for the issuance of this Reserves Accounts Report. This report may not be suitable for another purpose. We do not accept or assume any responsibility for any other purpose or to any other person or organisation using our work or the contents of this attestation report. Any reliance placed by any such third party on the Company's Reserves Accounts Report is entirely at its own risk.

Fixed Deposit	4-Feb-26	2,502,395.84
Fixed Deposit	9-Feb-26	5,002,395.83
	(B) Sub-total:	<u>27,509,597.23</u>

1: The carrying values of fixed deposits approximate their fair values.

(C) US\$ held in custody accounts: 138,417,412.82

(A) + (B) + (C) Total assets held in Reserve Accounts: US\$457,884,345.60

**FD121 (BVI) Limited  
Reserves Accounts Report**

As of 31 January 2026 at 9:00pm Eastern Time (“ET”) (1 February 2026 at 10:00am Hong Kong Time, (“HKT”), hereafter “Report Date and Time”)

Notes:

1. The total supply of FDUSD tokens (which also represents the total circulating supply) as denoted under:
  - (i) contract 0xc5f0f7b66764F6ec8C8Dff7BA683102295E16409 at 18 decimals, recorded at the Report Date and Time is 343,576,678.29 FDUSD (being 39,350,910.78 in BSC and 304,225,767.51 in Ethereum) as reported by BscScan and Etherscan;
  - (ii) contract 0xf16e6b723f242ec745dfd7634ad072c42d5c1d9ac9d62a39c381303eaa57693a at 6 decimals, recorded at the Report Date and Time is 63,582,786.71 FDUSD in SUI, as reported by Suiscan; and
  - (iii) contract 9zNQRsGLjNKwCUU5Gq5LR8beUCPzQMVMqKai3SSZh54u at 6 decimals, recorded at the Report Date and Time is 48,933,266.41 FDUSD in SOL, as reported by Solscan.
  - (iv) contract 0x93C9932E4afa59201F0B5E63f7d816516F1669fE at 18 decimals, recorded at the Report Date and Time is 50,000.00 FDUSD in Arbitrum, as reported by Arbiscan.
  - (v) contract EQD0Evpk4timFOHmy4Sv3l\_KEUXIM-dN1\_KhroTCfB2wkO89 at 6 decimals, recorded at the Report Date and Time is 1,087.65 FDUSD in TON, as reported by Tonviewer.
2. This Reserves Account Report refers to the accounts held and managed by a related party, being a public trust company registered in Hong Kong and a custodian for the Company (the “Custodian”, and the account being the “Custody Account”). The USD balance is custodied in the Custody Account for the benefit of the Company. In addition to the Custody Account, the Custodian has opened distinct accounts with separate institutions held under the Custodian’s name for the benefit of the Company, including Hong Kong financial institutions, an affiliated Hong Kong trust company, Singapore financial institutions, Australian financial institutions, a Canadian financial institution, a Luxembourg financial institution, a Malta financial institution, United States of America financial institutions, United Kingdom financial institutions, a Bahrain financial institution, a Liechtenstein financial institution and a Georgian financial institution, which are segregated from the Custody Account and where cash is held, along with fixed term deposits or debt instruments that are expressly guaranteed by the full faith and credit of the U.S. Government (such accounts in aggregate, being the “Reserve Accounts”). The U.S. dollar balance in the Reserve Accounts is at least equal to or greater than US\$456,143,819.06, respectively, at the Report Date and Time. This contemplates the impact of outstanding wires, deposits in transit or other reconciling items.
3. Each financial institution bearing the Reserve Accounts and rated by Standard and Poor Global Ratings have earned a rating of not lower than an “A-2” grade for its short-term local issuer credit ratings.
4. This Reserve Accounts refers to the Company’s Reserve Accounts holdings as of the Report Date and Time, which includes the disclosure of the total fair value, calculated using the publicly available pricing as of the Report Date and Time, of the Company’s asset holdings by asset type as reported above.
5. The total FDUSD supply, for which each FDUSD is assigned a redemption value of US\$1.00 by the Company, does not exceed the balance of the Reserve Accounts reported above.
