

Description

Anti-Ligature Unsprung Lever Set at 45 Degrees, 63mm Rose

Technical Features

Function & Operation	Lever handle designed to remove the ligature point provided by normal door hardware
Summary of Features	Anti-ligature lever, set at 45 degrees on a 63mm rose, that is designed so that when pressure is applied, or a ligature is attached, the lever drops down to 90 degrees, causing a ligature to slip off. Suitable for doors 44 to 54mm thick. Through fix rose into M4 back fix rose.
