How to Clean Holter Devices
Quick Guide

Sanitise after each use, paying particular attention to the 4 gold dots on the back to ensure they are completely clean (Figure 1). Allow it to completely dry before using again.

Figure 1

May use any alcohol-free cleaning wipes

Approved alcohol-based cleaning product with 70% ethanol, 30% water

ⓘ Note: Do not use harsh chemicals, as they may damage the device.
