The Snowmass blends the eye-catching appeal of the traditional Adirondack style home with the upscale features of the contemporary. The ever-popular open-concept great room with attractive stone fireplace and exposed timbered ceiling leads into the kitchen and dining areas. The centrally-located gourmet kitchen is designed with a food prep and serving island and a convenient built-in range. A door leading into the kitchen from the garage makes delivering groceries easy. Even the laundry closet is only steps away. The generous-size master bedroom includes its own private office space, spacious master bath with room for a garden tub, and walk-in closet. Upstairs, your children or guests will love the spacious bedrooms, the practical subdivided bath, and the open loft with a spacious closet and dramatic view of the great room and fireplace below.
