

SETTING THE STANDARD

High-Performance Industrial and Decorative Coatings

SYSTEM

TRAFFIC-GUARD

SOLID COLORED MEDIUM DUTY URETHANE
TRAFFIC SYSTEM

system
523

TRAFFIC-GUARD 523 provides the same benefits as the 522 but includes additional thickness to handle heavier traffic usage and weight. It is a high solids urethane elastomeric parking system designed to protect concrete parking structures from damage caused from road salts, oil and moisture run off. Protecting the structural integrity of concrete is the most cost effective way of increasing the service life of the structure and reducing life-cycle costs.

● COMMON APPLICATIONS

523 is typically installed over clean prepared concrete where moderate vehicle traffic is expected and surface flexibility is required. Specific applications include, but are not limited to: Corporate Parking Structures, Mall and Shopping Center parking structures.

● COMPONENTS

F-01 / 1331 / SP-20 / SP-24

● LEED MATRIX [NC 2009]

	YES	NO
MRc1.1 Building Reuse	✓	
MRc2 Construction Waste Management	✓	
MRc4.1 Recycled Content		✓
MRc6 Rapidly Renewable Materials	✓	
IEQc4.2 Low Emitting Materials	✓	

● PHYSICAL PROPERTIES

Description	Standard	Results
Tensile Strength	ASTM C307	2,500 p.s.i.
Elongation	ASTM D412	400-600%
Shore A	ASTM D2240	88-92
Tear Resistance	ASTM D1004	400 pli
Impact Resistance	ASTM D2794	>160 inch pounds
Abrasion Resistance CS17 1000 g	ASTM D4060	Self-Extinguishing
Flammability When Adhered to Concrete	ASTM D635	0.020g Loss*
Adhesion to Concrete	ASTM D7234	>350 Substrate failure
Wet SCOF (Static Coefficient of Friction)	ASTM E303	Match Specifications
Accelerated Weathering Testing	ASTM G154	UV Stable

Physical properties can be improved by selecting different components. Should you require higher performance than our base system components, please speak to a Polymer Nation Coating Engineer.

* when higher abrasion resistance is required the addition of PN 1336 to the coating should be included.

● OPTIONS

Cove Bases: Available

Colors: see back panel

	A	B	C
Texture		✓	✓

Polymer Nation offers 3 categories of finish Textures. Texture A is our smoothest finish. Texture B is our mid-level slip resistant finish and Texture C is our highest level slip resistant finish. Custom textures can be engineered to meet specific design requirements. A mock up is recommended as the best way to ensure customer satisfaction.

Waterproofing Membrane: Included

Optional Striping:

U-20 G

No VOC, pigmented, waterborne Urespartic™, gloss, UV, graffiti and abrasion resistant coating used for line striping and logos.

Antimicrobial: Available

PN 1498 MICRO-GUARD

Proprietary Anti-Microbial Pathogen Additive

What is PN MICRO-GUARD?

- PN MICROGUARD is ionic silver, bound in an inorganic matrix which hinders microbial growth and kills the bacteria
- 99.9997 % reduction of bacteria, fungi and actinomycetes

Advantages of PN MICRO-GUARD!

- Safety: Low Toxicity, long history of use
- EPA & FDA Registered for products in USA
- Longevity, accelerated testing shows 3-7 years
- Compounded throughout the material
- Adequate reservoir of silver at the surface level that does not require abrading to activate
- Not affected by surface wear
