

High-Performance Industrial and Decorative Coatings

SYSTEM

WEAR-GUARD

SLURRY HYBRID TERRAZZO FLOOR SYSTEM

system
317

WEAR-GUARD 317 is an 1/8" to 1/4" terrazzo system using our 1441 proprietary aggregate. It provides an extremely durable floor surface at a fraction of the cost of traditional epoxy terrazzo. It can be used with or without divider strips and provides an exquisite appearance in a fraction of the time required by traditional terrazzo systems. Designers have a virtually limitless pallet to create just the right touch for their designs. With a wide range of finish coats this system can be configured to meet almost any performance requirements.

COMMON APPLICATIONS

This proprietary flooring system is typically applied over clean prepared concrete. Specific applications include, but are not limited to: airports, hotel and office building lobbies and corridors, high end retail spaces, schools, health care facilities and hospitals.

COMPONENTS

P-99 / F-11SL / 1441 / SP-91 with 1329 Filler and 1339 Color Packs / F-61 or F-71

LEED MATRIX [NC 2009]

PHYSICAL PROPERTIES

Description	Standard	Results
Tensile Strength	ASTM C307	3,370 p.s.i.
Compressive Strength	ASTM C579	15,200 p.s.i.
Modulus of Elasticity	ASTM C580	N/A
Flexural Strength	ASTM C580	5,000 p.s.i.
Impact Resistance	ASTM D2794	>160 inch pounds
Abrasion Resistance CS17 1000 g	ASTM D4060	0.022g Loss*
Flammability When Adhered to Concrete	ASTM D635	Self-Extinguishing
Adhesion to Concrete	ASTM D7234	>450 Substrate failure
Wet SCOF (Static Coefficient of Friction)	NFSI B101.1	0.67
Accelerated Weathering Testing	ASTM G154	UV Stable

Physical properties can be improved by selecting different components. Should you require higher performance than our base system components, please speak to a Polymer Nation Coating Engineer.

* when higher abrasion resistance is required the addition of PN 1336 to the coating should be included.

OPTIONS

Cove Bases: Available

Colors: see back panel

	A	B	C
Texture	✓		

Polymer Nation offers 3 categories of finish Textures. Texture A is our smoothest finish. Texture B is our mid-level slip resistant finish and Texture C is our highest level slip resistant finish. Custom textures can be engineered to meet specific design requirements. A mock up is recommended as the best way to ensure customer satisfaction.

Waterproofing Membrane: Available

Optional Finish Coats:

U-21 LL

No VOC, clear, waterborne Uraspartic, low luster, UV, graffiti and abrasion resistant coating.

Antimicrobial: Available

PN 1498 MICRO-GUARD

Proprietary Anti-Microbial Pathogen Additive

What is PN MICRO-GUARD?

- PN MICROGUARD is ionic silver, bound in an inorganic matrix which hinders microbial growth and kills the bacteria
- 99.9997 % reduction of bacteria, fungi and actinomycetes

Advantages of PN MICRO-GUARD!

- Safety: Low Toxicity, long history of use
- EPA & FDA Registered for products in USA
- Longevity, accelerated testing shows 3-7 years
- Compounded throughout the material
- Adequate reservoir of silver at the surface level that does not require abrading to activate
- Not affected by surface wear

With MICRO-GUARD

Without MICRO-GUARD
