

Hydraulic & Electronic Solutions for Construction Equipment

Bailey offers an extensive range of hydraulic and electronic products expertly designed to **boost the performance, reliability, and precision of construction equipment**. From augers to trenchers, mulchers, grapples and beyond, our product solutions give the power needed to excel in demanding job conditions. With a commitment to continuous innovation, we deliver tailored change to durable products that evolve with our customers’ needs, driving productivity and ensuring top-tier performance across the construction industry.

The images above showcase product capabilities in machinery specific to this industry. However, Bailey offers a wide range of solutions for diverse machines across various industries.

The Bailey Product Edge

Innovative Hydraulic Systems

Bailey Hydraulics deliver best-in-class hydraulic systems engineered to boost efficiency and reliability for construction equipment attachments. Built for peak performance, our solutions ensure machinery **operates smoothly, maximizing uptime and productivity on every project**.

Advanced Electronic Controls

Bailey’s brand, Sure Grip Controls, delivers advanced electronic systems designed to **enhance precision and operator comfort**. With intuitive, user-friendly interfaces, our controls empower operators to achieve greater accuracy and safety on-site, maximizing performance and confidence in every task.

Customizable Solutions

Bailey Hydraulics and Electronics recognize that **every project and piece of equipment has unique demands**. That’s why we provide customizable solutions designed to meet specific customer needs, delivering tailored systems that enhance durability, productivity, and performance on every job site.
