

 **BAILEY**
MOVING YOU FORWARD™

Industry Solutions

Strategic Warehouse & Shipping Locations

For over 45 years, Bailey International has provided reliable hydraulic components and electronic controls, supporting dealers and distributors with innovative solutions. Our locations include:

- Knoxville, Tennessee, USA
 - Grand Rapids, Michigan, USA
 - Kansas City, Missouri, USA
- Reno, Nevada, USA
 - Montreal, Québec, Canada
 - Victoria, British Columbia, Canada

Buy with Bailey

We stock thousands of mobile hydraulics components in our warehouse facilities including our own brands, Bailey, Chief, Maxim, Hydro Custom and Sure Grip Controls, as well as popular industry names:

Built with Bailey

Bailey International, LLC delivers comprehensive hydraulic and electronic solutions. As an ISO 9001:2015 certified manufacturer, we serve diverse industries with innovation and precision. Through our sub-brands we provide tailored hydraulic components, advanced control systems, and high-performance solutions.

Seasons of Agriculture

Whether you are seeding, fertilizing, or harvesting, **Bailey hydraulic and electronic products are here to assist you in any season.**

Seeding/Planting

Fertilizing

Harvesting

The images above showcase product capabilities in machinery specific to this industry. However, Bailey offers a wide range of solutions for diverse machines across various industries.

The Bailey Product Edge

Enhancing Seeding Efficiency

Boost your planting precision and speed with Bailey hydraulics. Our systems provide **precise control and quick adjustments, ensuring efficient seed drilling and planter operations.** Manage multiple functions at once, reducing time spent during the critical planting season while adapting seamlessly to changing soil and weather conditions.

Optimal Fertilization Control

Maximize fertilization efficiency with Bailey hydraulics. Our systems **precisely control flow and pressure for effective fertilization** across various terrains and crops which assists in maintaining consistent distribution, essential for optimal growth.

Increasing Harvesting Productivity

Improve your harvest effectiveness with Bailey products, **designed for faster, more precise cutting and threshing to reduce harvest times.** Bailey systems ensure controlled crop handling and loading, minimizing losses, while withstanding heavy loads and tough terrains for reliable performance throughout the season.

Fingertip to Tooltip

Bailey products can transform operations in the **Agriculture Industry**, ensuring efficiency and productivity throughout the seasonality of farming.

Give us a call to discuss how we can best serve you **1-800-800-1810** or **explore our products** for your agricultural need.

The Bailey Experience

Continuous Support

Dedicated **customer experience team** on standby to help you minimize downtime and maximize efficiency when you need solutions.

Certified Compliance

Our expert team **ensures our products and your equipment meets the latest government standards and safety regulations**, guaranteeing safety, compliance, and peace of mind.

Peak Performance Engineering

Our seasoned engineers partner with agriculture experts to design solutions tailored for demanding field conditions, **ensuring peak shortliner performance while driving down operational costs.**

Hydraulic & Electronic Solutions for Construction Equipment

Bailey offers an extensive range of hydraulic and electronic products expertly designed to **boost the performance, reliability, and precision of construction equipment**. From augers to trenchers, mulchers, grapples and beyond, our product solutions give the power needed to excel in demanding job conditions. With a commitment to continuous innovation, we deliver tailored change to durable products that evolve with our customers’ needs, driving productivity and ensuring top-tier performance across the construction industry.

The images above showcase product capabilities in machinery specific to this industry. However, Bailey offers a wide range of solutions for diverse machines across various industries.

The Bailey Product Edge

Innovative Hydraulic Systems

Bailey hydraulics deliver best-in-class hydraulic systems engineered to boost efficiency and reliability for construction equipment attachments. Built for peak performance, our solutions ensure machinery **operates smoothly, maximizing uptime and productivity on every project**.

Advanced Electronic Controls

Bailey’s brand, Sure Grip Controls, delivers advanced electronic systems designed to **enhance precision and operator comfort**. With intuitive, user-friendly interfaces, our controls empower operators to achieve greater accuracy and safety on-site, maximizing performance and confidence in every task.

Customizable Solutions

Bailey products recognize that **every project and piece of equipment has unique demands**. That’s why we provide customizable solutions designed to meet specific customer needs, delivering tailored systems that enhance durability, productivity, and performance on every job site.

The Bailey Experience

On-Hand Inventory

Bailey proudly maintains an extensive inventory on hand to meet the diverse needs of the construction industry. We deliver vital solutions right when needed, avoiding disruptions and keeping your operations running smoothly.

On-Demand Expertise

Our dedicated engineers provide expertise and technical support. Count on their commitment and skill to deliver quick solutions, so your projects stay on track with minimal downtime.

Informed Purchasing and Support

Whether you need expert advice on selecting the right components or require specialized knowledge for complex projects, our sales and customer experience teams are well-equipped to guide you every step of the way.

Driving Success Together

Our approach **minimizes downtime, reduces overhead costs, optimizes inventory, and enables next-day delivery**—demonstrating our unwavering commitment to operational efficiency and customer satisfaction. To further support our dealers and distributors, we provide customized marketing resources, comprehensive technical support, and a high-quality product inventory, empowering your success and driving long-term growth. Bailey proudly owns industry-leading brands Chief, Maxim, Hydro Custom, and Sure Grip Controls. Our strong partnerships with both domestic and international suppliers ensure a seamless product distribution network.

Bailey Brands

The Bailey Product Edge

Comprehensive Inventory

Large stock of ready-to-ship products, minimizing downtime and ensuring quick fulfillment for you.

Rigorous Quality Control

Industry-leading field reliability through on-site testing, quality audits, supplier training, and incoming product inspections.

Short Lead Times

Fast production for custom cylinders (6-10 weeks) and hydraulic power units (2-6 weeks), with options for shorter timelines.

International and Domestic Networks

Reliable and high-quality products with competitive pricing, supported by global manufacturing and distribution.

Distributed Brands

Strategic Warehouse & Shipping Locations

Forestry Processes

Bailey’s products are engineered to meet the rigorous demands of forestry operations, ensuring machines like skidders, harvesters, forwarders, feller bunchers, stump grinders, delimbers, and portable sawmills at peak efficiency. **Our systems provide precise control for critical functions such as steering, lifting, cutting, loading, and processing, enhancing productivity, safety, and reliability in the toughest environments.**

The images above showcase product capabilities in machinery specific to this industry. However, Bailey offers a wide range of solutions for diverse machines across various industries.

The Bailey Product Edge

Hydraulics

Advanced Hydraulic Systems

Our solutions are built for performance and durability, ensuring efficiency and reliability. Boost productivity and minimize downtime with systems designed to meet the industry’s challenges.

Durability and Longevity

Our hydraulic products are crafted from premium materials to stand strong against wear and tear, extending equipment lifespan and enabling sustained productivity.

Customized Solutions and Support

Our products are engineered to address your forestry challenges. With dedicated support at every step, we ensure your equipment runs smoothly, reducing downtime and driving success.

Electronics

Precision and Control

Our electronic controls deliver the precision needed to manage complex forestry machinery and offer advanced features for safer operations.

Robust Design for Weather Sealed

Our controls are IP69K sealed to withstand dust, moisture and extreme temperature to deliver consistent, reliable performance in even the most demanding environments.

Intuitive User Experience

Designed for ease and safety, our ergonomic solutions streamline operation, reduce errors, and empower operators with greater confidence and control in demanding environments.

The Bailey Experience

Safety

Bailey’s hydraulic and electronic systems are built with advanced safety features to protect operators and equipment, ensuring safer operation in the toughest forestry conditions.

Engineering Expertise

Our expert engineers work closely with customers to create innovative, tailored solutions that tackle forestry’s most difficult challenges, delivering exceptional performance and lasting satisfaction.

Customer Experience Team

Bailey’s dedicated support team offers on-call field assistance, providing expert guidance and remote serviceability on safety protocols and practical solutions to streamline operations and maximize productivity in forestry.

Powering Performance and Safety in Aviation GSE

Bailey delivers innovative hydraulic and electronic systems for the aviation industry’s Ground Support Equipment (GSE). Our top-quality products enhance performance, reliability, operator comfort and safety for aviation ground support professionals. With a proven track record of tailored solutions, **we’re the trusted partner for optimizing ground operations and meeting GSE’s unique demands.**

The images above showcase product capabilities in machinery specific to this industry. However, Bailey offers a wide range of solutions for diverse machines across various industries.

The Bailey Product Edge

Performance Efficiency

Engineered for demanding conditions, our solutions ensure **smooth GSE operations** with reduced power consumption and lower operational costs.

Reliability and Durability

Built for longevity and low maintenance, our solutions ensure consistent uptime, minimize operational delays, and deliver dependable performance.

Safety Features

Engineered with **safety as a priority**, our solutions safeguard operators and equipment, ensuring secure and efficient ground operations in all conditions.

Customization and Flexibility

Our tailored solutions adapt to diverse GSE configurations, delivering precision functionality to **meet specific operational requirements and optimize performance.**

Ease of Integration

Our user-friendly systems are designed for effortless compatibility with existing GSE, ensuring **quick installation and minimal downtime** for uninterrupted operations.

The Bailey Experience

Technical Support and Training

Comprehensive support and training programs empower operators to confidently operate and maintain Bailey systems, reducing downtime, enhancing efficiency, and extending equipment lifespan.

In-depth Knowledgebase

Over the years, we have developed a vast knowledgebase of GSE models, components, and troubleshooting techniques, enabling us to offer tailored support for your equipment.

Consultation for Custom Solutions

Our tailored consultation services deliver bespoke solutions designed to meet industry standards and tackle your unique operational challenges, optimizing performance and efficiency.

Your Customer Experience Team, One Call Away

Comprehensive Order Management

Our team is dedicated to supporting every aspect of your order, from pricing inquiries and bulk order discounts to real-time updates on product availability and order status. **We provide transparent, accurate information** to empower you to make informed, confident purchasing decisions.

Expert Product and Technical Support

Our knowledgeable team is ready to provide **tailored guidance, whether you need detailed product specifications, assistance with installation, troubleshooting, or repair.** We offer expert solutions to ensure your systems perform at their best.

Streamlined Returns and Warranty Assistance

For inquiries about our return policy, exchanges, or warranty terms, **our customer experience team provides clear, simplified support**, ensuring peace of mind and confidence in your purchases.

Seamless Ecommerce Experience at Your Fingertips

Bailey's eCommerce platform offers a seamless shopping experience with the following benefits that ensure fast, reliable and hassle-free purchasing:

User-Friendly Interface

Our intuitive platform **streamlines the shopping experience**, enabling effortless browsing and quick purchasing to save you time and simplify your workflow.

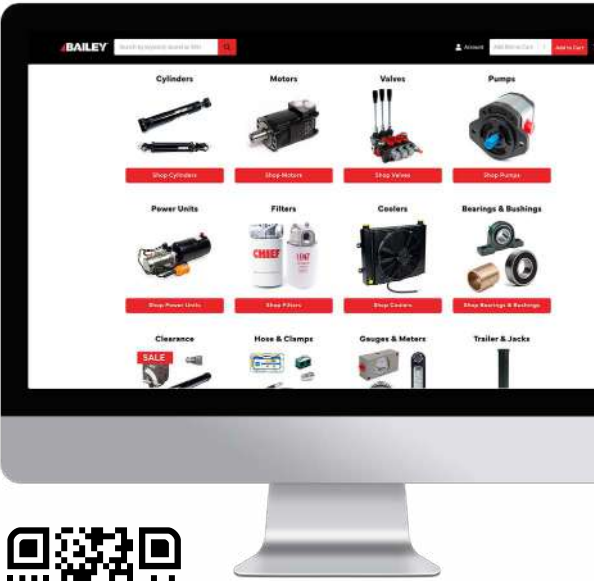

Lightning-Fast Shipping

Our efficient logistics system **guarantees rapid shipping**, ensuring your purchases arrive promptly so you can keep operations running smoothly without delay.

Effortless Checkout

Our streamlined checkout process **minimizes clicks and form fields**, ensuring fast and simple transactions that save you time and enhance your purchasing experience.

The Bailey Product Edge

Increased Efficiency in Daily Operations

Bailey products are **engineered to optimize efficiency by delivering powerful, precise movement.** Ideal for heavy lifting and construction tasks, our systems reduce manual effort, streamline operations, and accelerate task completion.

Enhanced Safety Features

Safety is at the forefront of our hydraulic components, **designed to minimize risk and ensure secure operations.** With force regulation mechanisms, our systems provide smooth, controlled movements, making them essential for workplaces where safety is paramount.

Versatility and Adaptability

Bailey offerings are designed for a wide range of applications, making them perfect for diverse industry needs. Our flexible solutions can be customized to meet specific requirements, **ensuring you have the right tools to tackle unique challenges and achieve operational goals.**

The Bailey Experience

Dedicated Customer Experience Team

Bailey's customer experience team is committed to understanding and addressing your unique needs, providing personalized support that fosters trust and builds lasting relationships.

Reliable Stocked Inventory

At Bailey, we keep a dependable, on-hand inventory of key products, ensuring you have access to the parts you need, when you need them. This reduces downtime and helps to keep your operations running smoothly.

Expert Engineering Support

Our experienced engineers provide on-demand expert advice, offer tailored solutions, and troubleshoot challenges to ensure our products consistently meet the highest standards of performance and reliability.

Precision Solutions for Presses and Tube Bending

Bailey’s **hydraulic products** deliver dependable performance for industrial presses and tube bending. With a selection of valves, pumps, cylinders, and actuators, we provide tailored solutions for heavy-duty demands and high-speed operations. Renowned for precision engineering and unmatched durability, **Bailey’s products are supported by expert craftsmanship, rapid inventory access, and exceptional service.**

The images above showcase product capabilities in machinery specific to this industry. However, Bailey offers a wide range of solutions for diverse machines across various industries.

Bailey: Your Partner in Every Success Story

Innovation and collaboration, enablers to our customers’ vision

For Coal Iron Works, it was essential to find a hydraulic manufacturer they could truly partner with to support their growth goals. Starting as a small shop, Bailey provided guidance and industry knowledge to help supply the parts they needed. For Nathan Brandt, CEO of Coal Iron Works, “It was a huge value to us to be able to get in, get our questions answered and be treated with importance. It was one of the foundational beginning points for our company to partner with Bailey.”

The Bailey Product Edge

Comprehensive Product Range

Bailey’s hydraulic products offer a versatile selection of components—from valves and pumps to cylinders and actuators—designed to meet the rigorous demands of industrial applications. Our solutions are tailored to **optimize system performance and support diverse operational needs.**

Quality and Reliability

Crafted with precision and durability, Bailey products are engineered to excel in the toughest industrial environments. Trusted for their consistent performance, they deliver unmatched reliability for both heavy-duty and high-speed operations.

Innovation-Driven Solutions

At Bailey, innovation powers our commitment to excellence. By investing in cutting-edge research and development, **we deliver advanced technologies that enhance operational efficiency** and address the evolving demands of modern manufacturing.

The Bailey Experience

Extensive On-Hand Inventory

Bailey offers a vast on-hand inventory, providing quick access to critical components and minimizing lead times, ensuring smooth and uninterrupted industrial operations.

Expert Engineering Services

Bailey’s skilled engineers deliver tailored design solutions and technical support, optimizing system performance and addressing unique operational challenges of each client.

Outstanding Customer Service

At Bailey, client satisfaction is our top priority. We offer responsive, personalized support with timely assistance and bespoke solutions, fostering trust and building long-term partnerships.

Marine Applications

Bailey products deliver cutting-edge solutions for the maritime industry, specializing in applications such as boat cranes for both land-based and on-board operations. Our systems are seamlessly integrated into yachts and other vessels, providing unmatched reliability and optimized performance in diverse marine environments.

The images above showcase product capabilities in machinery specific to this industry. However, Bailey offers a wide range of solutions for diverse machines across various industries.

The Bailey Product Edge

Enhanced Reliability

Bailey’s products are engineered for superior performance in the toughest environments. **Built to resist saltwater corrosion, UV exposure, and extreme temperatures**, our solutions deliver consistent, worry-free operation with minimal maintenance. For added durability, we also offer custom stainless steel hydraulic components.

Tailored Solutions

We specialize in delivering hydraulic and electronic systems precisely **tailored to the unique demands of various vessels**. Our customizable options promise seamless integration and increased dependability, giving you the edge in performance and adaptability.

Superior Safety Standards

Our products are engineered to exceed even the most rigorous industry safety standards. Equipped with advanced safety features, our solutions **minimize operational risks and ensure reliable**, secure functionality and peace of mind for operators.

The Bailey Experience

On-Time Delivery

At Bailey, we recognize that meeting deadlines is essential. With streamlined supply chain processes and efficient logistics, we guarantee timely delivery. This commitment ensures smooth operations, minimizes downtime, and keeps projects on track.

Engineering Expertise

Our expert engineers bring unmatched experience and innovation. Leveraging their deep knowledge, we design and implement solutions that deliver superior performance and reliability in the most demanding environments.

Customization Excellence

Bailey’s bespoke solutions are tailored to our client’s specifications. Precise customization optimizes functionality, enhances efficiency, and ensures seamless integration with existing systems to meet the unique demands of your operation.

Material Handling Applications

Bailey’s solutions empower the material handling industry with unmatched precision, reliability, and safety. Whether in telehandlers, dock levelers, forklifts, or hydraulic lifts, our systems are expertly designed for the demanding needs of material handling operations. **Our products optimize equipment performance, helping your business move faster and smarter.** Discover the following standout solutions:

The images above showcase product capabilities in machinery specific to this industry. However, Bailey offers a wide range of solutions for diverse machines across various industries.

The Bailey Product Edge

Robust Durability and Reliability

Our hydraulic and electronic products are built to deliver unmatched durability and reliability, even in the harshest environments. **Engineered with premium materials and precision craftsmanship,** they withstand extreme conditions while minimizing downtime and reducing maintenance costs.

Enhanced Safety Features

Bailey put safety at the forefront with advanced features like **overload prevention and precision control systems, ensuring secure, reliable operations in every application.** Our solutions are designed to exceed industry standards, creating a safer working environment to give you peace of mind without compromising performance.

Energy Efficiency

Our systems are optimized for exceptional performance with minimal energy consumption, **delivering efficiency that lowers operational costs and reduces your environmental footprint.** By optimizing energy use, our solutions support your sustainability goals—helping you achieve more while using less.

Innovative Technology Integration

Bailey leverages advanced technology in the production of our products to deliver real-time monitoring and control, empowering businesses with actionable insights, **enhancing efficiency, reducing downtime, and allowing you to stay competitive in a rapidly evolving market.**

The Bailey Experience

Inventory Management Solutions

Bailey offers a vast on-hand inventory, providing quick access to critical components and minimizing lead times, ensuring smooth and uninterrupted industrial operations.

Customized Solutions and Consulting

Bailey delivers fully customized hydraulic and electronic solutions enabled by in-depth expert consultation to align with your unique goals and needs.

Training and Educational Programs

Our training programs empower operators and technicians with the expertise to optimize system performance, enhancing safety, efficiency, and equipment longevity.

Reliable Mining Operations

Bailey revolutionizes the mining sector with advanced solutions designed for precision, safety, and efficiency. **From powering drilling machines to optimizing crushers and conveyor systems, our products deliver seamless performance in the most demanding environments.** With a commitment to quality and innovation, Bailey provides reliable, efficient, and sustainable solutions that drive productivity and support the evolving needs of modern mining operations.

The images above showcase product capabilities in machinery specific to this industry. However, Bailey offers a wide range of solutions for diverse machines across various industries.

The Bailey Product Edge

Enhanced Safety Protocols

Bailey ensures peace of mind with hydraulic and electronic systems designed with advanced safety features. **Our solutions reduce accidents and prevent malfunctions, setting the standard for reliable and secure mining operations.**

Unmatched Efficiency

Our solutions **optimize energy use, reduce downtime, and streamline processes**, boosting productivity while minimizing resource expenditure.

Precision Engineering

Bailey's products are engineered with **unmatched precision and attention to detail**, delivering reliable performance to meet the rigorous demands of modern mining projects.

Custom Program

Bailey's Custom Program provides **customizable motors, manifolds, valves and pumps, offering build-to-order options and reconfigurable stock for fast turnaround times.** Backed by a 17,000 sq. ft. facility and six strategically located warehouses, our expert team delivers superior support and industry-leading capabilities to meet your needs.

Driving Efficiency and Safety in MEWPs

Bailey’s advanced electronics and hydraulics redefine performance, safety, and reliability in Mobile Elevated Work Platforms (MEWPs). **From scissor lifts to boom lifts and cherry pickers, our state-of-the-art systems optimize operational efficiency and precision, delivering seamless functionality and superior user satisfaction.** Engineered to meet the rigorous demands of the MEWP industry, our products offer unparalleled durability, safety, and customization—empowering your operations to reach new heights.

The images above showcase product capabilities in machinery specific to this industry. However, Bailey offers a wide range of solutions for diverse machines across various industries.

The Bailey Product Edge

Enhanced Safety Features

Bailey components are built with advanced safety systems, including automatic shutdowns, overload sensors, and real-time performance monitoring. These features actively prevent accidents, protect operators, and ensure a secure working environment for rugged operations.

Increased Operational Efficiency

Designed for demanding industrial applications, our systems ensure seamless performance and minimized downtime, helping you achieve more in less time and making Bailey the trusted choice for efficiency-driven operations.

Customizable Solutions

Bailey offers fully customized systems designed to align with your specific requirements. Whether it’s adapting to unique applications or meeting the precise demands of the MEWP industry, we ensure you receive a solution as unique as your business.

The Bailey Experience

Cost-Effective Solutions

Bailey’s durable, energy-efficient products are engineered to minimize operational costs and extend service life. With fewer replacements and lower energy demands, our solutions deliver long-term savings and unmatched value for your investment.

Engineering expertise

Bailey provides specialized engineering expertise and support to empower operators with the knowledge and skills needed for safe, efficient MEWP operation, ensuring exceptional standards are upheld at every level.

Innovative Technology Integration

We lead the way in integrating cutting-edge hydraulics and electronics into MEWPs, delivering enhanced functionality, ease of use, and a competitive technological edge to elevate your operations.

The Bailey Product Edge

- Precision Engineering**
Our expert engineers use techniques to develop custom solutions that align with the intricate requirements of onshore and offshore operations. From precision design to rigorous testing, **we ensure every product optimizes extraction processes while delivering unmatched reliability and durability in extreme conditions.** At Bailey, engineering isn't just a process—it's a commitment to powering the oil and gas sector with innovation and expertise.
- Durability and Reliability**
Built to withstand the harshest conditions of the Oil and Gas industry, our solutions are rigorously tested to exceed industry standards, ensuring long-lasting performance and minimal maintenance. With Bailey, you can trust in equipment that significantly reduces downtime, enhances operational efficiency, and keeps your projects running smoothly, no matter the challenge.
- Innovation in Design**
Bailey pushes innovation boundaries to deliver products that set industry standards. **Our team works tirelessly to integrate advanced technologies and forward-thinking design improvements that meet today's demands and anticipate tomorrow's challenges.** This ensures our solutions enhance efficiency, performance, and adaptability for the oil and gas sector.

The Bailey Experience

Comprehensive Support and Consultation
Bailey offers expert consultation and personalized guidance, partnering with you to deliver tailored solutions for your project. Our team provides ongoing support and insights to drive success

Customized Engineering Solutions
Our engineering solutions use state-of-the-art technology to optimize performance and efficiency. We ensure each solution aligns with client goals, driving excellence and a competitive edge.

Timely Delivery
Bailey ensures on-time delivery of products and services that align with your project schedules. Our timely execution minimizes disruptions, helping you stay on track for success.

The Bailey Product Edge

Our solutions empower your equipment to perform safely and reliably, even in the most demanding conditions, while **maximizing productivity and reducing operational costs**. Discover a selection of our featured application capabilities, designed to meet your unique OEM needs.

Superior Quality Assurance

Bailey’s custom and standard products are engineered for superior quality and performance. With **rigorous quality control at every stage**, we deliver reliable solutions to keep your equipment operating at peak performance.

Tailored Solutions for Diverse Needs

Bailey offers a **versatile range of custom and standard products** designed to meet the unique demands of diverse industries and manufacturing environments.

Enhanced Longevity and Durability

Bailey’s innovative designs and durable materials ensure extended equipment lifespans, **minimizing downtime and maintenance costs**. The result: reliable performance and exceptional long-term value.

The Bailey Experience

Streamlined Inventory and Delivery

Bailey’s stocking programs, combined with no-fee drop shipping, streamline inventory management for faster order fulfillment and reliable, on-time delivery.

Reliable Warranty and Support

Bailey’s robust warranties and reliable after-sales support build trust and strengthen long-term partnerships with OEM clients.

Ready-to-Ship Inventory

Bailey’s extensive on-hand inventory of reliable, high-quality products allows for fast order processing, reducing downtime and boosting productivity for OEM clients.

Elevate Rail Maintenance with Bailey Solutions

In the railroad industry, efficiency and reliability are essential. **Bailey’s state-of-the-art hydraulic and electronic products optimize performance and reduce downtime**, ensuring operations run seamlessly. With advanced technology and customized solutions, Bailey empowers rail operations to achieve superior efficiency and reliability. Trust Bailey to elevate rail maintenance and keep your business on track for success.

The Bailey Product Edge

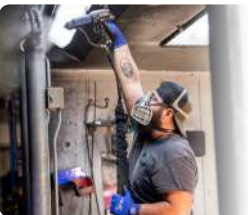

Innovative Rail Gear Trucks and Undercarriage Solutions

Bailey products set the standard for innovation in rail gear trucks and undercarriage solutions. Engineered to exceed rigorous industry requirements, **our solutions ensure exceptional reliability, efficiency, and longevity for rail applications.**

Comprehensive Rail Solutions Packages

Our tailored kitting simplifies rail maintenance, combining premium products to optimize operations and reduce downtime. **Designed for efficiency, they deliver the simplicity and confidence you need to keep things on track.**

Custom Products for Unique Challenges

Bailey crafts custom components tailored to the railroad industry's distinct needs. **Our expert team works closely with clients to design bespoke solutions** that boost productivity and align seamlessly with operational objectives.

The Bailey Experience

Customer and Technical Support

At Bailey, we provide technical support to keep your operations running smoothly. From troubleshooting to questions, our team delivers solutions. Committed to partnerships, we aim to be a trusted extension.

Customized Engineering Solutions

Our engineering solutions use cutting-edge technology to enhance performance and efficiency in the railroad industry. We tailor each solution to ensure reliability, safety, and a competitive advantage.

Safety Training and Compliance Programs

Safety is paramount, and our training programs equip your workforce to stay compliant. Designed to meet regulations, Bailey's sessions promote a culture of safety, accountability, and fewer accidents.

Precision from Fingertip to Tooltip

Bailey delivers cutting-edge solutions for engineering system integrators. **Our engineers craft standard and custom products, leveraging an extensive inventory for combining a spectrum of products—delivering precision from fingertip to tooltip.** With advanced manufacturing capabilities through the MVP Center, and the Sure Grip Controls brand, we ensure unmatched reliability, performance, and efficiency in every application.

Hydraulic Solutions (MVP Center): Build custom-engineered hydraulic components designed for durability and peak performance, backed by precision prototyping and expert engineering.

Electronic Controls (Sure Grip Controls brand): Ergonomic, high-performance configurable control solutions built for seamless operation in the most demanding environments.

The Bailey Experience

Hydraulic Expertise & Build Custom Engineering

Bailey’s build custom delivers precision-engineered hydraulic solutions. Our expert engineers collaborate closely with integrators to **develop customized hydraulic components** that enhance performance, improve durability, and minimize downtime in even the most complex systems.

Electronics Product Grouping & Advanced Controls

The Sure Grip Controls brand **delivers best-in-class electronic components** engineered for seamless system integration. Our electronics product grouping services simplify procurement by providing complete, ready-to-install solutions.

Hydraulic Solutions for Transportation

Bailey is a trusted partner in optimizing the performance of trailers, trucks, and haulers through advanced hydraulic solutions. **Our high-quality products are engineered to support the demanding requirements of transportation equipment**, ensuring reliable and efficient operation across a wide range of applications. With a commitment to innovation, Bailey provides standard and customizable systems designed to enhance operational efficiency, minimize downtime, and reduce maintenance costs for the transportation industry.

The Bailey Product Edge

Innovative Engineering

Bailey's solutions are engineered with leading edge technology, setting new standards in operational efficiency, durability, and innovation. **Our systems are designed to maximize the performance of transportation equipment**, delivering unmatched reliability, extended lifespan, and minimized maintenance needs.

Customizable Solutions

Recognizing that every client has unique requirements, **Bailey provides fully customizable hydraulic systems designed to adapt to specific applications**. This tailored approach ensures peak performance and reliability across a wide range of transportation scenarios.

Commitment to Quality

With a commitment to superior craftsmanship, Bailey's products are meticulously engineered and subjected to rigorous testing and quality assurance processes. This ensures **unmatched reliability, durability, and performance, even in the most demanding transportation environments**.

The Bailey Experience

In-Stock and Ready to Ship

We maintain a robust inventory of popular standard hydraulic solutions, ensuring they are ready to ship. Our reliable delivery helps clients maintain momentum and minimizes disruptions in the time-sensitive transportation industry.

Rapid Response Times

Understanding the fast-paced demands of the transportation industry, we prioritize rapid response times for product requests. Our team is committed to delivering timely solutions, reducing delays, and keeping your operations running efficiently.

Expert Technical Support

At Bailey, we are committed to offering comprehensive technical support tailored specifically for the transportation industry. Our team ensures your systems operate seamlessly and deliver maximum performance.

The Bailey Product Edge

Enhanced Operational Efficiency

Bailey’s products enhance system reliability, optimize energy use, and reduce maintenance needs, ensuring seamless, uninterrupted service delivery. With advanced technology and durable solutions, **Bailey products assist utilities, streamline operations and drive long-term efficiency.**

Cutting-edge Technology Integration

Bailey delivers cutting-edge technology designed to **seamlessly integrate with modern utility infrastructure, ensuring optimized performance and long-term adaptability.** Our innovative solutions enhance efficiency, reliability, and scalability, future-proofing operations as technology evolves.

Environmental Sustainability Commitment

As an ISO 14001:2015 certified company, our products help utility companies reduce their environmental impact without sacrificing performance. **Designed to meet rigorous environmental standards,** we help in supporting greener operations and long-term sustainability while ensuring optimal reliability and productivity.

The Bailey Experience

Uncompromising Safety Standards

Bailey prioritizes safety, delivering high-performance solutions that minimize risks and protect personnel. Engineered to meet strict safety standards, our products enhance security and reliability for seamless operations.

Exceptional Customer Service

At Bailey, exceptional customer service is at the core of everything we do. Our dedicated team delivers responsive, personalized support, ensuring your needs are met with speed and precision.

Ready-to-Ship In-Stock Inventory

Bailey keeps a robust, ready-to-ship inventory, ensuring fast access to essential parts and equipment. With minimized lead times and reliable stock, we help reduce downtime, maintain efficiency, and keep critical services uninterrupted.

Waste & Recycling Management

Efficient Solutions for Waste & Recycling Management

Bailey specializes in advanced hydraulic and electronic components designed for garbage trucks, grapple/dump truck, and snow plow trucks. **Our reliable and efficient products support waste collection, street cleaning, and snow removal operations, helping equipment perform at its best.** From front, rear, and side-load garbage trucks to snow removal trucks and street sweepers, Bailey provides high-quality parts that keep your fleet running smoothly and efficiently.

The images above showcase product capabilities in machinery specific to this industry. However, Bailey offers a wide range of solutions for diverse machines across various industries.

The Bailey Product Edge

- Unmatched Quality in Hydraulics and Components**
Bailey sets the standard for superior hydraulic systems in waste & recycling industry. **Engineered with precision and crafted from high-quality materials, our products deliver exceptional performance, reliability, and durability.** Built to withstand harsh environments, our components provide long-lasting solutions that minimize downtime, maximize efficiency, and deliver unmatched value.
- Maxim Single-Acting Snowplow Cylinders**
Trusted by snowplow owners and manufacturers, **Maxim Single Acting Snowplow Cylinders are renowned for their durability and performance in the toughest winter conditions.** With a focus on reliability, Bailey provides high-quality products that ensure your snowplow operations run smoothly and efficiently. Trust Bailey for dependable solutions.
- Durable Endurance Series Joystick and Custom Armrests**
The Endurance Series Joystick and custom armrests work seamlessly to provide a superior operator experience, with configurable control options to meet your specific needs. **The joystick ensures precise performance in tough conditions, while the armrests offer support.** This combination promotes ease of use, making long hours in demanding environments manageable and efficient. Together, they set a new standard for comfort and reliability.

The Bailey Experience

Unmatched Customer Support

Bailey delivers exceptional service at every stage, with a knowledgeable team ready to assist with product questions and service needs. We prioritize your satisfaction, ensuring a seamless and confident experience every time.

Tailored Solutions for Diverse Needs

Bailey understands the unique challenges of the management industry. That's why we offer customizable products and flexible solutions to meet your specific operational needs, boosting efficiency and productivity across all applications.

Commitment to Sustainability

Bailey is dedicated to sustainability, delivering innovative, eco-friendly products that reduce environmental impact. We help clients meet their green goals without compromising performance or reliability.
