imports.

# Welcome

Europe Imports founder Paula (AKA 'Queen of the pools'), started the family business back in 2004 with a handful of ezarri mosaic folders, hand crafted mosaic boards and samples. With tenacity like no other, Paula started to introduce ezarri mosaics to the pool industry in Sydney and soon enough had landed a number of clients who are still with us to this very day! It was the humble beginning of the most successful swimming pool mosaic business in Australia today.

Joining the business in 2006, her son Carl brought a technical and design aspect to the business which over time brought the business from Sydney's new favourite mosaic brand to a leading supplier of mosaic, stone and tiles.

During many years of successful design, development and supply of tile materials to the industry, EI became one of Australia's most trusted suppliers receiving many accolades along the way. Years of hard work didn't go unrecognised by ezarri either who decided to stop selling to all other importers throughout Australia and form an exclusive partnership with EI.

Today we are very proud to be a successful multi award winning family owned business working with many wonderful companies bringing dreams to life!

# Why Fully Tile a Pool with ezarri

## 1. Unparalleled Aesthetics & Customization

A fully tiled pool transforms any outdoor space into a stunning, high-end oasis with a seamless, refined finish. With over 300+ designs, colours, and finishes, including gloss, matte, terrazzo, pearl, metallic, and even 24K gold, tiling allows for true design freedom.

- **Vibrant, Long-Lasting Colours** – Unlike rendered or painted finishes that fade over time, glass mosaics retain their brilliance for decades.
- **Custom Designs & Patterns** – Choose from gradient blends, murals, bespoke artwork, and even glow-in-the-dark effects.
- **Luxurious Texture & Shine** – The natural reflection and movement of light on glass tiles create a mesmerizing, resort-like ambiance.
- **Seamless Integration** – Fully tiled pools blend perfectly with modern architecture and landscaping trends, enhancing the overall property aesthetic.

## 2. Superior Durability & Longevity

Unlike traditional pool finishes that degrade, crack, or require resurfacing, glass mosaic tiles last a lifetime

- **100% Impervious to Water & Chemicals** – Unlike porous finishes that absorb water and deteriorate, glass tiles remain completely waterproof and chemical-resistant.
- **No Cracking or Surface Erosion** – Cement-based finishes like pebblecrete or quartz erode, stain, and degrade over time. Tiling eliminates this issue, providing a permanent, low-maintenance solution.
- **Fade-Resistant Colours** – Engineered to withstand UV exposure, saltwater, and chlorine, Ezarri mosaics retain their original colour and finish for decades.
- **Minimal Maintenance** – A fully tiled surface is smooth and non-porous, preventing dirt, algae, and calcium buildup, reducing the need for harsh chemicals and scrubbing.

## 3. Comfort & Safety – The Smart Choice for Families

A fully tiled pool is designed for comfort, safety, and usability.

- **Soft, Rounded Edges** – Unlike pebblecrete, which can be rough and abrasive, Ezarri glass mosaics have smooth, rounded edges, making them gentle on skin—perfect for kids and families.
- **Slip-Resistant Options** – Special non-slip mosaics are available for steps, ledges, and pool surrounds, ensuring safety without sacrificing style.
- **Comfortable Underfoot** – Unlike other surfaces that can feel coarse or scratchy, glass tiles provide a luxuriously smooth texture.

## 4. Hygiene & Easy Maintenance

Maintaining a fully tiled pool is significantly easier, cleaner, and more cost-effective over time.

- **Non-Porous & Algae-Resistant** – Unlike rough, porous surfaces that harbor algae and bacteria, glass tiles create a smooth, non-porous barrier that prevents staining and algae growth.
- **Easier Cleaning** – Glass tiles don't absorb dirt or chemicals, meaning less scrubbing, fewer chemicals, and lower long-term maintenance costs.
- **Calcium & Chemical Resistance** – Unlike other surfaces that can leach chemicals, fade, or stain, glass tiles maintain their original beauty with minimal effort.

## 5. Increased Property Value & ROI

A fully tiled pool is an investment in luxury, aesthetics, and longevity—adding significant value to your home.

- **Higher Resale Value** – Fully tiled pools are a premium upgrade, making homes more attractive to buyers and increasing overall property value.
- **Timeless Appeal** – Unlike other pool finishes that deteriorate and need resurfacing, glass mosaics last indefinitely, ensuring your pool remains a key selling point for decades.
- **Luxury & Exclusivity** – Seen in 5-star resorts, designer homes, and celebrity properties, a fully tiled pool is the ultimate statement of luxury.

## 6. Thermal Efficiency & Energy Savings

Glass tiles contribute to energy efficiency and cost savings over time.

- **Better Heat Retention** – Glass tiles absorb and retain heat more effectively than cement-based surfaces, reducing energy costs for heating the pool.
- **Reflective Qualities** – Light-coloured tiles help keep the pool cooler in summer, while darker tones can retain warmth for longer.

## 7. Why Choose Ezarri for Fully Tiled Pools?

Ezarri is the world's leading glass mosaic manufacturer, offering the highest-quality, Spanish-made tiles with industry-leading technology:

- **Exclusive JointPoint® System** – Ensures 92%+ adhesive coverage, faster installation, and full compliance with Australian standards (AS 3958:2024).
- **Lifetime Aesthetic Warranty** – Guarantees against fading, cracking, and delamination.
- **ISO 9001 & ISO 14001 Certified** – Manufactured to the highest quality and environmental standards.
- **Largest Range in Australia** – 300+ designs in stock, with same-day dispatch and nationwide delivery.
- **Proven Performance** – Over 34 years of success in Australian conditions, from residential homes to commercial and Olympic pools.

## Cutting edge production technique

- Very low water absorption (<0.1% so no expansion or contraction)
- Salt & Pepper biscuit. Full body biscuit available in selected ranges
- Internal/external matching colour available in selected ranges
- 1cm & 2cm matching colour external pavers available . 2cm external pavers come with pencil edge & dropedge coping stocked on the shelf
- P3, P4 & P5 slip ratings available in selected ranges. Data sheets available
- Timeless Designs. A wide range of formats & finishes suitable for any application
- Biscuit body colour is selected to match the tile surface colour
- Stunning printed high-quality designs
- Easy to clean & maintain
- Will last a lifetime – specifications available
- High resistance to staining
- Very dense product
- 1,250kg breaking strength
- Salante Porcelain is manufactured in China on Italian machinery

# Natural Stone

We aim to have the following qualities for our stocked materials

*(may vary depending on stone)*

- Minimal holing (travertine and alike)
- High density above (2.5t)
- Consistent colours from crate to crate
- No fillers for premium materials
- Minimal fillers used for standard/other selections.
- No scratching or machine marks on surfaces
- High quality surface finishings
- <5% with defect designated to use for cuts.
- +/-1mm tolerance in all dimensions
- Dimensionally stable and accurate
- Quality edging and profiling

**CHEMFORCE**  
TECHNOLOGY PERFORMANCE QUALITY

Sealing natural stone is essential in ensuring the longevity of the product. Europe Imports recommend the Chemforce Stain-Protector premium impregnating sealer.

Europe Imports stock a wide range of stone materials from around the world. We aim to supply the best materials available regardless of the selection. We offer premium and standard selections as stocked items however we are able to work with our partners to import any quality selection required. Whether it be an ultra-premium custom format project or a commercial grade high quantity project, we have you covered.

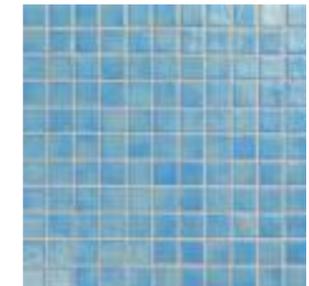

# A beautiful blend of mosaics, porcelain & natural stone

In the following pages we present to you a selection of unique concepts and ideas for your distinct pool projects.
