## VISION

To establish a nationally and internationally recognized maritime hub producing skilled and competent graduates and professionals by delivering best-in-class maritime education, research and training.

## MISSION

To provide a flexible, modular, and nurturing learning environment to provide maritime industry knowledge, skills and continuous professional development for students, graduates, and professionals.

## CORE VALUES

### TRUST

- Trust is the foundation of our academic, professional, and maritime relationships. We are committed to transparency, reliability, and ethical conduct—building confidence among our students, faculty, industry partners, and the wider community through accountability, consistency, and mutual respect.

### INTEGRITY

- We uphold the highest standards of honesty, ethics, and accountability in all aspects of our academic, research, operational, and maritime practices. Integrity is the anchor of our institutional identity—guiding our decisions, shaping our conduct, and building trust with our students, industry partners, and the communities we serve.

### DIVERSITY

- We celebrate and uphold diversity as a source of strength, creativity, and global relevance. As a gateway to international maritime careers, our university embraces differences in culture, background, perspective, and experience—fostering an inclusive environment where all individuals are valued, empowered, and inspired to contribute.

### EXCELLENCE

- We are committed to the relentless pursuit of excellence in maritime education, research, training, and service. We strive to set and exceed the highest standards in everything we do—fostering a culture of quality, innovation, and continuous improvement that empowers our students, faculty, and industry partners to lead with confidence in a dynamic global maritime industry.

### RESPECT

- We foster a culture of mutual respect that honors the dignity, diversity, and contributions of every individual in our academic and maritime community. Rooted in regional traditions and global maritime ethics, we cultivate an environment where collaboration, empathy, and inclusivity guide our interactions and decisions.

## GOALS

1. Introduce and develop educational programs of the highest standards in the field of maritime science and technology to achieve institutional excellence.
2. Support and develop the maritime transport sector in the United Arab Emirates and prepare qualified cadres in various maritime fields in line with contemporary scientific developments and professional practices.
3. Support maritime scholarly and research activities and instill a culture of innovation and competitiveness in the field of maritime science and technology.
4. Establish scientific links and connections and foster exchange of expertise and technical and cultural information with local and international entities.
