T&CS

- Our fryers cook items containing gluten and soy, so other products may contain traces.
- Fried chicken is cooked in our fryers and may contain traces of dairy (as supplied).
- Our grills are shared with halloumi and eggs, which may cause traces.
- Tongs and utensils are shared across menu items. While we take every step to minimise cross-contamination, we cannot guarantee it will not occur.
- If you have a specific allergen, please let us know so we can do our best to prepare your meal safely.
- For vegans, we make every effort, but our menu is considered "vegan friendly" only due to possible cross-contamination in fryers and with utensils.
- Gluten friendly bread reduces the amount of gluten in items, but we cannot guarantee it is completely free from gluten due to cross-contamination in fryers (chips in Yiros) and bread toasters.
