

## Action plan for energy audit

- All identified measures from '3 screening lists energy' are automatically transferred to the action plan for energy audits.
- The action plan must be signed by the company's management prior to reporting to the Danish Energy Agency.
- Companies that report energy audits and climate audits must, after the Danish Energy Agency's approval of the report, publish the action plan on their website.
- There is no requirement to publish the action plan for companies that report energy management or environmental management.
- The action plan for publication must at least contain information that appears from the form.

Management signature	
Name of management representative	Tommy Grønkjær Jensen
If publication is required, insert the address of the website where the action plan is expected to be published.	<a href="http://www.sekura.dk">www.sekura.dk</a>

No.	Project name	Annual energy savings (MWh/year)	Annual CO2 reductions (tonnes/year)	Year	Expected to be completed?	If yes, insert year of implementation	If no, describe why the project is not being implemented.
A1	1. Ventilation system	70	-	2025	Yes	2026	
A2	2. EMS-system	131	-	2024	Yes	2026	
A3	3. Welding machines	41	-	Vælg	No	Vælg	Is not profitable
A4	4. Lightning	11	-	2024	Yes	2027	
A5	5. Excess heat paint	174	-	Vælg	No	Vælg	Due to the tax
A6	6. Excess heat compressor	32	-	Vælg	No	Vælg	Is not profitable
A7	7. Solar panels	33	-	Vælg	No	Vælg	Currently it is not profitable. ( we already have 1000m2)
