- ❖ Thank you for purchasing this product.
- ❖ Please read this manual carefully before opening the unit.
- ❖ Keep this manual for future reference.

How to Download and Install AUX Home:

You can easily get the AUX Home Control App on your phone or tablet by following one of these steps:

1. Search in the App Store:

If you have an Android phone or tablet (version 7.0 or higher) or an iPhone/iPad (iOS 12.0 or higher), go to the respective app store and search for “AUX Home”. Then, download and install the app.

2. Scan the QR Code:

You can also use your phone’s camera or a QR code scanner app to scan the QR code shown in the manual (see Figure 1). This will take you directly to the download page for the app.

*This QR code will work whether you use Android or Apple

Setup

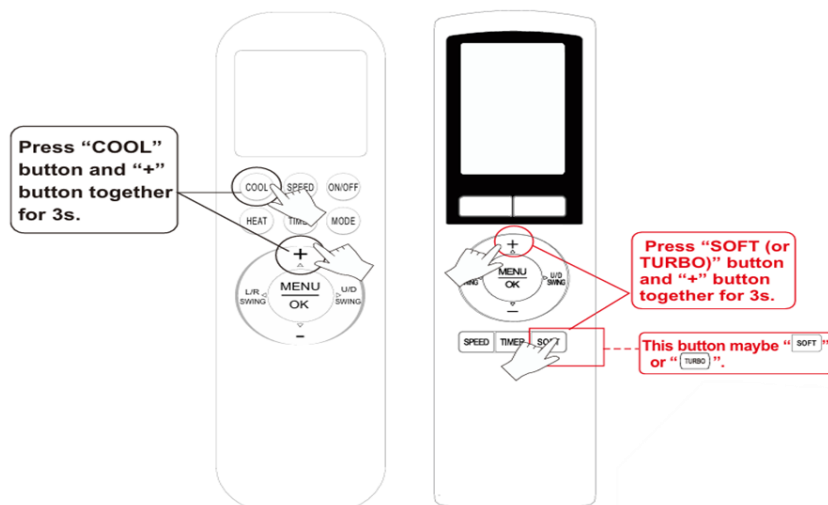

Important:

If any step is done incorrectly or fails, you will need to start over from Step 1 and reset the Wi-Fi module again.

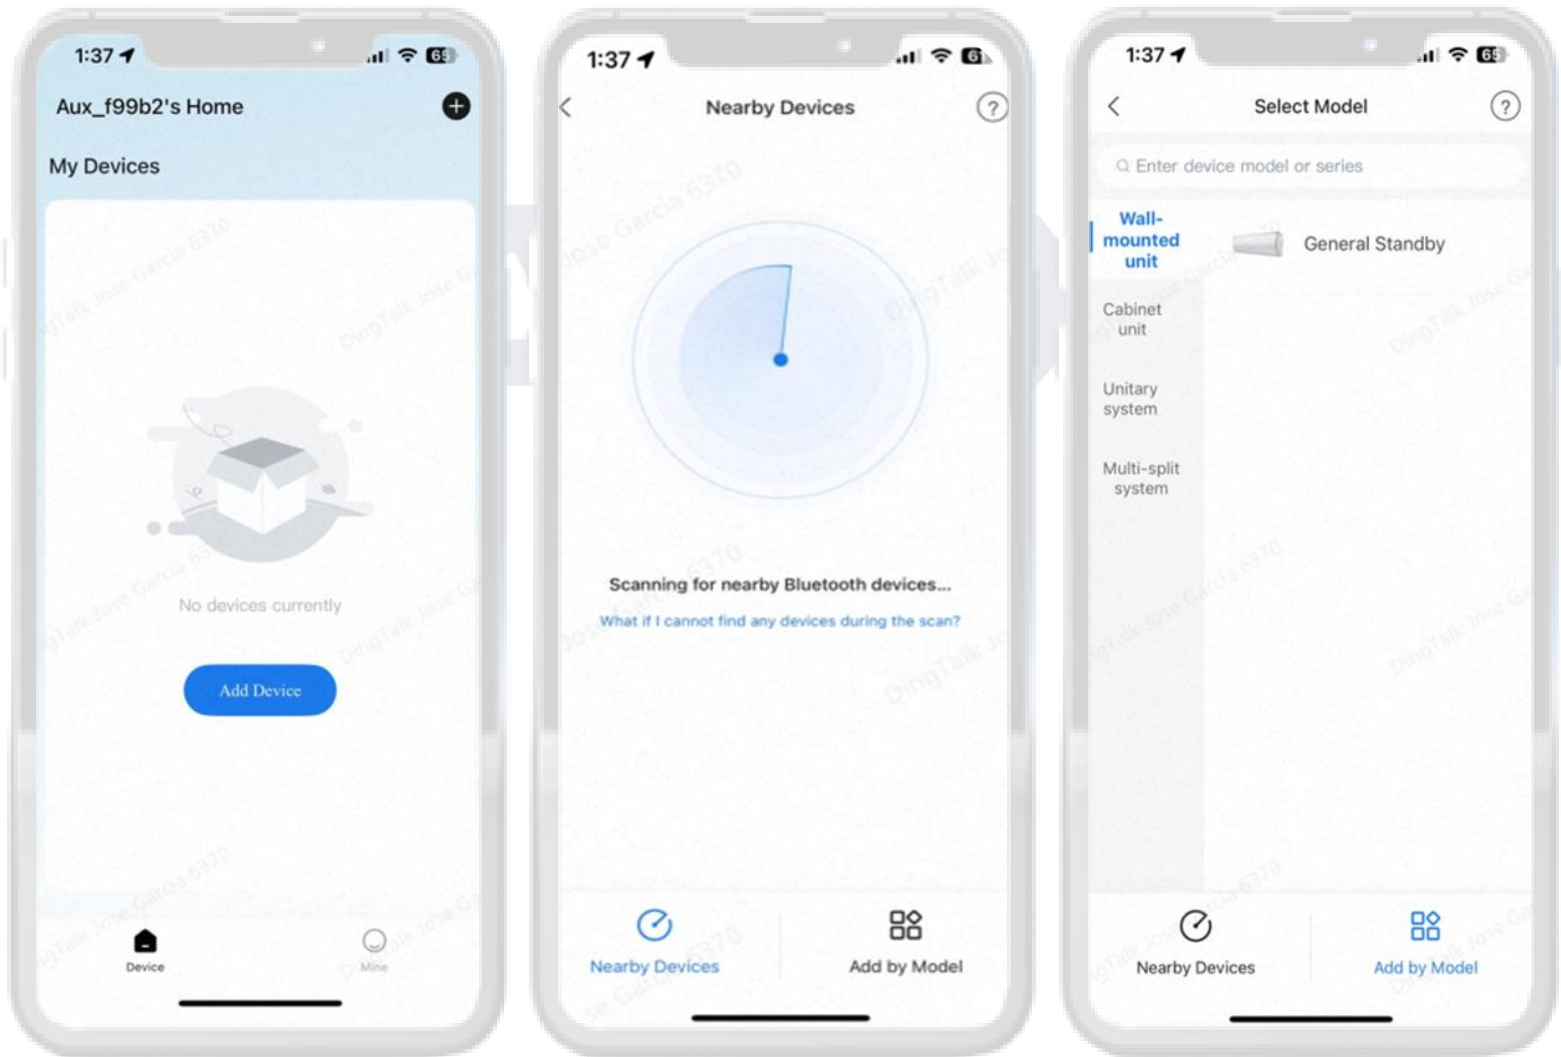

Step 1. Reset the Wi-Fi Module:

1. Turn the mini split on using the remote.
2. Press “COOL” (or “SOFT” or “TURBO”) and the “+” button at the same time for 3 seconds.
3. You should hear **eight beeps**, then after a 2-second pause, **two more beeps**. This means the Wi-Fi reset is complete.

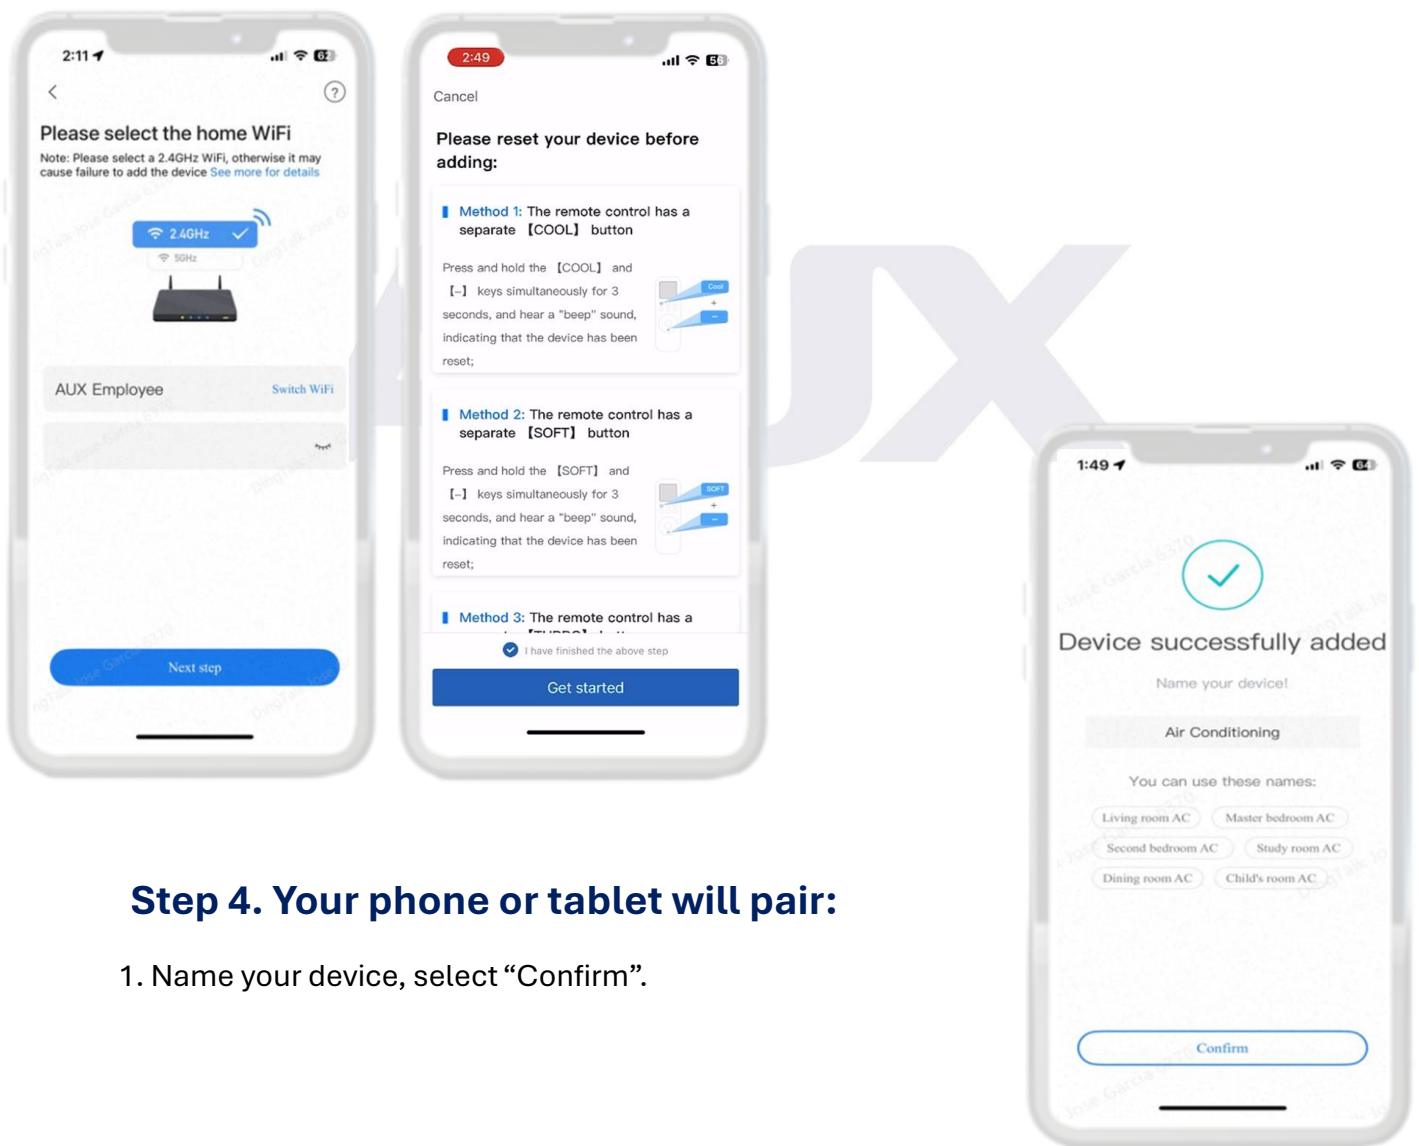

Step 2. Open the AUX Home APP:

1. Open the AUX Home APP
2. Tap, “Add device”, then select “**Add by model**”.
3. Wall-mounted unit, General Standby

Step 3. Connect to your Home Wi-Fi:

1. Choose your **home Wi-Fi** network and enter password.
2. Tap “**APP Config**”
3. Check the box that says, “I have finished the above step.”
4. Tap “Get started”

Step 4. Your phone or tablet will pair:

1. Name your device, select “Confirm”.
