

REQUESTING APPROVAL TO ATTEND THE FRAUD FIGHT CLUB 2027

Conference April 6-7, 2027 @ The Revelry in Charlotte, N.C.

This event is specifically designed for professionals in fraud prevention, particularly those within financial institutions, and would offer a tremendous opportunity to enhance our fraud management capabilities.

1. CUTTING-EDGE FRAUD STRATEGIES:

The conference was built For Fraud Fighters, By Fraud Fighters. Which means the founders worked in the industry and attract the leading experts to share the latest fraud trends, strategies, and best practices that we can implement to strengthen our defenses and detection systems.

2. DEEP DIVE SESSIONS = ACTIONABLE TAKEAWAYS:

They are moving beyond high-level panels. They are hosting 30+ deep dive sessions of roughly 15-20 people per session. This is a more intimate setting where people can share openly, have collaborative conversations, and walk away with ideas to implement. It's a big move from surface level presentations to solutionizing that actually moves the needle!

3. VALUABLE NETWORKING OPPORTUNITIES:

They will have a 10:1 ratio of fraud fighters from financial institution to vendors. Therefore, participants will have valuable networking opportunities with their peers who are Experiencing similar challenges and not getting hammered with sales pitches. The event will bring together fraud professionals from across the country, providing opportunities to connect with peers, share insights, and discuss solutions to common challenges. This network could prove valuable for collaboration and benchmarking.

4. TANGIBLE ROI:

Attending Fraud Fight Club will equip me with knowledge, strategies and relationships to further enhance our fraud mitigation efforts. Implementing the strategies learned at the event will result in stronger fraud detection, lower financial losses, and better protection for our members/customers.

The total cost, including the registration fee, travel, and accommodations, is approximately _____. I believe the return on this investment will be well worth it, considering the potential to significantly reduce fraud risk within our organization.

THANK YOU FOR CONSIDERING MY REQUEST.

I'm confident that the insights and strategies I'll gain from this conference will directly benefit our fraud prevention efforts and help us stay ahead of emerging threats.
