## Annual Statewide Data Compendium

**(FY 2023-2024)**

# Supporting Families Across California

The first five years of a child's life lays the groundwork for their lifelong learning, behavior, and overall health and well-being. Despite this, disparities persist across California with many children facing significant gaps in income, access, and opportunity. There is an urgent and persistent need for investment in young children and their families, and for more equitable systems that help children thrive.

For more than 40 years, California has built a robust child care infrastructure. Connecting California Families was formed in 2019 to unite over 65 child care agencies statewide. The mission of Connecting California Families is to deliver coordinated and comprehensive services to children, families, and providers because when parents have access to quality child care, early childhood education, and other essential resources, children and entire communities prosper. The data presented here, reflecting the Fiscal Year 2023-2024, comes from the lead regional agencies for Connecting California Families: 4C's of Sonoma County, BANANAS, Child Action, Child Care Alliance of Los Angeles, Child Care Resource Center, Child Development Resources of Ventura County, Family Resource Center, Go Kids, Inc., Merced County Office of Education, Placer County Office of Education, YMCA Childcare Resource Service.
