xLM Inaugurates New AI Application Development Offices in Nashik and Mumbai

xLM (Continuous Intelligence) announced the inauguration of its Nashik office on 03 October 2025 and Mumbai office on 06 November 2025. Both locations will serve as AI Application Development Centers for next-generation AI solutions in pharmaceutical and regulated manufacturing industries.

“The launch of our Mumbai and Nashik offices marks an important milestone in xLM’s global growth journey,” **said Nagesh Nama, CEO of xLM.** “These centers reflect our commitment to investing in world-class talent and building autonomous AI systems that help regulated enterprises scale decisions, automate compliance, reduce cost and complexity, and significantly increase the speed of work.”

As regulatory demands and operational complexity increase, xLM continues to advance continuous intelligence through self-directed AI systems for demanding environments. The new India offices strengthen xLM’s ability to deliver enterprise-grade Agentic AI solutions at global scale.
