

PROWOOD®

TRUEFRAME™ JOIST

PROWOOD | TRUEFRAME™ JOIST
ACTUAL SIZE: 1½" X 7"
KDAT

Consistency You Can Build On.

TrueFrame™ Joist is pressure-treated, KDAT, and factory-planed for consistent sizing. Lighter and more affordable than alternative framing options, it's simple to handle, installs faster, and delivers professional results every time.

Key Features

Ground Contact Treated: Built to withstand the elements

KDAT: Lighter, more stable, easier to handle

Factory-Planed: Uniform sizing for faster installs

#1 Grade SYP: Strong, professional-quality lumber

Enhanced Treatment: Keeps boards straighter longer and minimizes existing wood defects

Choose the best framing for your project:
