

Navigators

Quinton (senior counselor): Hi everyone! My name is Quinton Callahan, senior counselor of the Navigators (7th grade boys). This is my first year at Maplewood, but I have worked at 2 other summer camps and am an Eagle Scout, so I have plenty of camp experience. During the school year, I am a school counselor at Bishop Feehan High School, but I have also worked at Boston University, Bridgewater State University, Taunton Public Schools, and Disney World! I am looking forward to a fun and memorable summer with the Navigators!

Aidan (junior counselor): Hello my name is Aidan Gardiner. I'm a junior counselor for the Navigators. I've worked here for 5 years and I'm very excited for the summer. My goal is to make sure your kids all have a safe and fun experience at Maplewood that they remember fondly!

Elisha (junior counselor): Hi, I am Elisha a new junior counselor at Maplewood this summer. I just completed my freshman year at Berklee College of Music and am excited to participate in all the activities Maplewood has to offer!

The following are a few reminders to help each day be as fun and safe as possible:

- Bathing suits – Your camper can arrive in their bathing suit because there will be a morning swim session. Please also have a dry set of clothes if your camper is going to want to change out of their bathing suit during the day. If your camper is comfortable being in their bathing suit shorts all day, then that is completely fine, too!
- Sunscreen should be applied to your camper before camp each day. Please have your camper pack sunscreen and bug spray in their bag so that they can re-apply during the day. Also, feel free to have your camper wear a hat if they want.
- Sneakers should be worn to camp every day. Water shoes or flip flops should also be packed for water activities that will take place during the day.
- Pick-ups – If your child is being picked up early or is not taking the bus, please note it on the camp's website. We are going paperless, so all communications will go through the website.
- Personal belongings should be labeled with your camper's name if you choose to do so. This will help us avoid losing or mixing up items with other campers.
- Cell phones – We do not want campers using or having cell phones out at all during the day. The camp office has a phone that can be used if needed.
- Lunch and snacks – Please pack snacks separately from lunches. Lunch will be stored in the fridge so separating them allows the group to maximize daily activities by requiring less trips.

Let's have a great summer!!
