

PROWOOD®
COLOR-TREATED LUMBER

Color You Can Count On.

ProWood® Color-Treated Lumber is pressure-treated with a preservative system and color-infused with an in-solution pigment, delivering lasting color and long-term performance – backed by an industry-leading warranty.

DURABLE
PROTECTS
PERFORMS

Color that works as hard as you do.

Looks You Want

Get the natural look of wood with long-lasting color—no staining required. It's the simple way to build outdoor projects that stand out.

Function You Need

Engineered to resist termites and fungal decay, our color-treated lumber is also compatible with aluminum building materials, keeping fasteners strong and secure. Plus, it's protected by our ProWood Lifetime Limited Warranty.

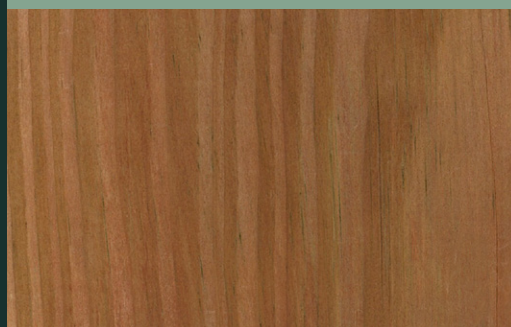

Durability You Demand

ProWood Color-Treated Lumber stands the test of time, outperforming cedar and redwood in independent tests. With 2- and 5-year color assurance limited warranties, it's a choice you can trust for projects that demand performance and reliability.

**Build with confidence—
and with color that lasts.**
