

NEVADA

STATE SUMMARY
2025

Nevada at a glance

THE STATE OPPORTUNITY INDEX combines research-backed strategies for improving education-to-career outcomes with benchmarking measures to track progress for all 50 states, giving policymakers and institutions a framework for strengthening the link between education and opportunity.

For each state, the Index reports the percentage of students who experience a positive return on investment and summarizes progress in five key areas for improving success beyond completion: Clear Outcomes, Quality Coaching, Affordability, Work-Based Learning, and Employer Alignment. States are grouped into four categories: Leading (at the forefront, demonstrating strong progress); Advanced (substantial progress); Developing (early stages of improvement); and Foundational (just beginning their journey).

Index

strada

Positive ROI

Nevada

The positive ROI value for each state represents the estimated percentage of public college graduates whose earnings premium over high school graduates is enough to repay their total cost of a degree within 10 years.

	Nevada	U.S.
Overall	66%	70%
Bachelor's	65%	73%
Associate	68%	60%

Percentage of graduates with positive 10-year ROI by state – bachelor's degrees

Percentage of graduates with positive 10-year ROI by state – associate degrees

Everyone should have access to accurate information on employment outcomes that can help them make informed decisions about education after high school. The Clear Outcomes measure is based on 10 critical elements that contribute to the capacity of state education-to-employment data systems to strengthen the connection between education and opportunity.

COLLECT

State data system elements	State description	Rating
1 Includes learner-level and program characteristic data for nondegree and noncredit postsecondary education and training programs	Nevada collects enrollment and credential outcome data from the following nondegree and noncredit postsecondary education and training programs: (i) college-issued, for-credit nondegree credentials; and (ii) WIOA-eligible training providers. The state links employment data to college-issued, for-credit nondegree credentials and WIOA-eligible training providers .	DEVELOPING
2 Examines earnings by occupation, pay rate, and work location	Nevada collects work location (county) on a voluntary basis but does not collect occupation or pay rate.	ADVANCED

INTEGRATE

State data system elements	State description	Rating
3 Integrates and delivers information on learner's earnings and employment after postsecondary education and training completion, and over time	Nevada has integrated and published several key types of postsecondary education and training and employment data, including: (i) public four-year institutions to employment, (ii) community colleges to employment, and (iii) WIOA-eligible training providers to employment. Employment outcomes for public four-year institutions, community colleges, and college-issued, for-credit nondegree credentials are available as an interactive reporting tool through the Nevada P-20 to Workforce Research Data System. The state publishes an interactive tool containing WIOA-eligible training providers-to-employment data. Nevada does not integrate and publish data on private four-year institutions to employment.	ADVANCED
4 Integrates and delivers information on learner's earnings and employment after high school completion and over time	No evidence was identified through the state's response or in Strada's research of the state demonstrating this element.	FOUNDATIONAL
5 Partners with national and multi-state initiatives to assess education-to-opportunity outcomes for graduates and non-graduates of postsecondary education and training programs who relocate or work outside the state	Nevada partners with State Wage Interchange System.	FOUNDATIONAL

PROVIDE

State data system elements	State description	Rating
6 Provides comprehensive and timely open data files containing anonymized education-to-opportunity statistics that anyone can access, download, and otherwise use	Strada's research did not identify evidence of the state demonstrating this element.	FOUNDATIONAL
7 Publishes robust, timely, and easily understandable interactive resources informing education-to-opportunity decision-making by learners, families, and institutions	Nevada has a dashboard containing education-to-employment outcomes for (i) public four-year institutions; (ii) community colleges; and (iii) nondegree credentials. Additionally, there is an interactive tool containing education-to-employment outcomes for WIOA-eligible training providers.	ADVANCED
8 Gives researchers access to individual-level matched education-to-opportunity datasets	Nevada, through the Nevada P-20 to Workforce Research Data System (NPWR) Research Portal , affords researchers access to individual-level matched education-to-opportunity datasets, though the request and review process is not clearly documented. Most research projects are submitted in response to NPWR's request for proposals, ensuring that research addresses state priorities. The state publishes reports from completed projects.	ADVANCED

(...) IMPACT

State data system elements	State description	Rating
9 Enables learners and earners to access and utilize their own verified data, unlocking opportunities for college and career advancement	Strada's research did not identify evidence of the state demonstrating this element.	FOUNDATIONAL
10 Designates a unit with responsibility and dedicated, full-time capacity for generating education-to-employment insights to inform state policymaking and resource allocation decision-making	The Nevada P-20 to Workforce Research Data System (NPWR) is administered by the Governor's Office of Workforce Innovation and governed by the P-20 to Workforce Research Data System Advisory Committee. Partner agencies, including the Nevada System of Higher Education as well as the Department of Employment, Training and Rehabilitation, provide secure access to data, which NPWR integrates for education-to-employment analysis. NPWR produces some postsecondary employment outcomes reports among other E2E insights.	DEVELOPING

Quality Coaching

Nevada

FOUR-YEAR

UNAVAILABLE

TWO-YEAR

UNAVAILABLE

Everyone should have access to coaching that helps them reflect on their talents and interests, choose a career goal, chart a path, and navigate challenges. Graduates who receive such guidance are more likely to land a job that requires a degree and feel satisfied with their career trajectory. The Quality Coaching measure is based on the percentage of two-year students and four-year senior students who reported receiving personalized guidance, timely labor market information, and support to create a plan and overcome barriers.

Personalized guidance		Four-year	Two-year
Percentage of students at public institutions who report receiving personalized coaching or guidance to help select the education that will help prepare them for a successful career.		UNAVAILABLE	UNAVAILABLE
Timely labor market information		Four-year	Two-year
The average share of students at public institutions who receive timely labor market information, across the various types below, before enrolling or during their first year.		UNAVAILABLE	UNAVAILABLE
Education-to-career paths that might be a good fit for student's strengths and interests			
Job opportunities that a particular education program could lead to			
Potential earnings in different careers related to student's education program			
Career outcomes of students from their own institution			
Support		Four-year	Two-year
The average share of students at public institutions who receive at least some support in setting goals and in overcoming obstacles.		UNAVAILABLE	UNAVAILABLE
Setting education and career goals and developing a plan to achieve these goals			
Identifying and overcoming barriers			
CATEGORY KEY			
When the margin of error crosses a category threshold, states are given a combined category.		● Leading ≥75%	● Advanced 50% to <75%
		● Developing 25% to <50%	● Foundational <25%
National results		Four-year	Two-year
Personalized guidance		34%	45%
Timely labor market information		21%	33%
Support		71%	74%

Affordability

Nevada

FOUR-YEAR

DEVELOPING

TWO-YEAR

LEADING

Quality post-high school programs should be within everyone's financial reach, allowing for equitable opportunities for success. The Affordability measure is based on how many hours a week the average student would need to work to cover the in-state net price (total cost of attendance minus any grants and scholarships), how many hours a student from a low-income family would need to work to cover their typical in-state net price, and the percentage of students that complete their degree on time – a critical factor in the cost of a degree.

Student hours of work needed	Four-year	Two-year		
Average student hours of work needed	DEVELOPING 26 hours per week Average annual net price, four-year institutions: \$13,126	LEADING 8 hours per week Average annual net price, two-year institutions: \$7,071		
Low-income student hours of work needed	ADVANCED 19 hours per week Average annual net price for low-income students, four-year institutions: \$10,944	LEADING 5 hours per week Average annual net price for low-income students, two-year institutions: \$6,166		
CATEGORY KEY	● Leading <10 hrs	● Advanced 10 to <20 hrs	● Developing 20 to <30 hrs	● Foundational ≥30 hrs

On-time completion rate		Four-year			
On-time completion rate		FOUNDATIONAL			
		31%			
CATEGORY KEY		● Leading ≥65%	● Advanced 50% to <65%	● Developing 35% to <50%	● Foundational <35%

Work-Based Learning

Nevada

FOUR-YEAR

UNAVAILABLE

TWO-YEAR

UNAVAILABLE

All students should have access to quality work-based learning experiences, such as paid internships and apprenticeships, that are linked to higher earnings, greater job satisfaction, and lower underemployment. The Work-Based Learning measure is based on the percentage of two-year students and four-year senior students who reported participating in at least one of the following types of paid experiences: paid internship, paid apprenticeship, paid co-op, paid practicum, or paid undergraduate research experience.

Quality Work-Based Learning	Four-year	Two-year
Percentage of students at public institutions who participated in at least one of five types of quality paid work-based learning experiences	UNAVAILABLE	UNAVAILABLE

CATEGORY KEY

When the margin of error crosses a category threshold, states are given a combined category.

● **Leading**
≥75%

● **Advanced**
50% to <75%

● **Developing**
25% to <50%

● **Foundational**
<25%

National results	Four-year	Two-year
Any quality paid work-based learning experience	43%	17%
Paid internship	37%	14%
Any work-based learning experience (paid or unpaid)	72%	33%

In addition to student self-reporting of apprenticeship participation, states have other sources of information on participation in registered apprenticeships via the U.S. Department of Labor. In Nevada, **0.41 percent** of the state labor force is made up of active apprentices, for a total of **6,653 apprentices**. Across the country, this number ranges from 0.9 percent (Hawaii) to 0.12 percent (Oklahoma). In countries with leading apprenticeship systems, such as Germany, Switzerland, Australia, Canada, and England, apprentices constitute about 2.5–3.0 percent of the labor force, so all states in the U.S. have substantial room for improvement.

Employer Alignment

FOUNDATIONAL

Nevada

Students should have access to programs that lead to quality jobs and mobility, and employers should assess and advance individuals based on skills and experiences, not just degrees. The Employer Alignment measure is based on the percentage of terminal bachelor's degree holders aged 25–34 employed in a college-level job as well as the supply/demand ratio for a variety of high-demand, high-wage jobs in each state.

College-level employment

The percentage of bachelor's degree graduates who are employed in college-level positions

DEVELOPING

Supply/demand ratio

The overall ratio: the average of the entry-level supply/demand ratios for these nine opportunity occupational groups
