State Opportunity Index

Alabama

State Summary 2026

Alabama at a glance

THE STATE OPPORTUNITY INDEX is a framework for measuring and improving education-to-career outcomes. For each state, the Index reports the percentage of graduates who experience a positive return on investment and summarizes progress in five key areas for improving success beyond completion: Clear Outcomes, Quality Coaching, Affordability, Work-Based Learning, and Employer Alignment. States are grouped into four categories: Leading (at the forefront, demonstrating strong progress); Advanced (substantial progress); Developing (early stages of improvement); and Foundational (just beginning their journey).

Alabama is among 22 states Advanced in Clear Outcomes (17 states are Leading). Quality Coaching for bachelor's students improved from Developing to Advanced, placing the state among five in this category (no states are Leading). The state also is among 35 states and jurisdictions Leading in Affordability at associate degree institutions. To learn more about progress in other states, visit strada.org/state-opportunity-index.

Clear Outcomes		ADVANCED
Quality Coaching	BACHELOR'S	ADVANCED
	ASSOCIATE	DEVELOPING
Affordability	BACHELOR'S	FOUNDATIONAL
	ASSOCIATE	LEADING
Work-Based Learning	BACHELOR'S	DEVELOPING
Employer Alignment		DEVELOPING

State Opportunity Index

strada

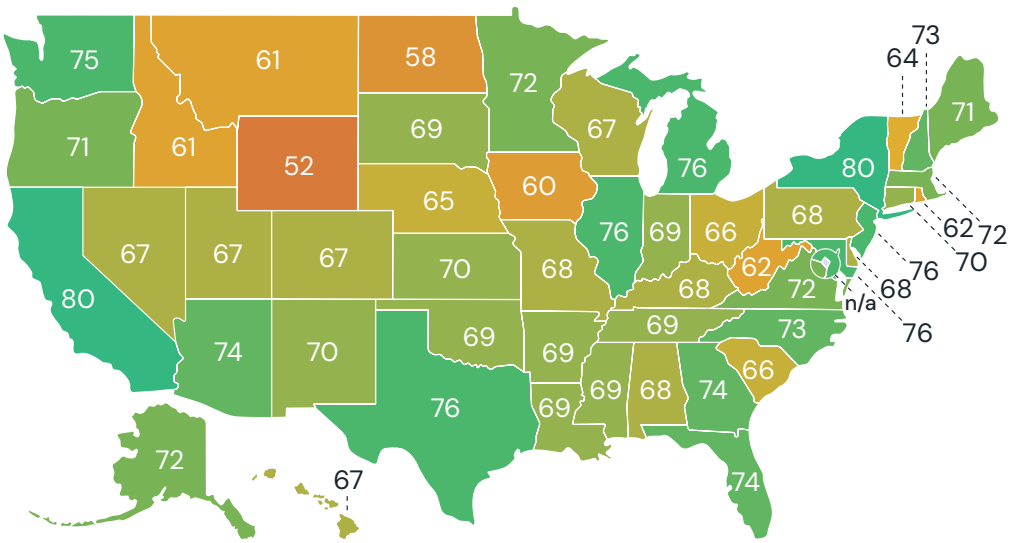

In cases in which the margin of error crosses a category threshold, states are given a combined category.
References for "unavailable" refer to states in which there was insufficient data to assign a rating at this time.

Positive ROI

	Alabama	National
Overall	66%	70%
Bachelor's	68%	73%
Associate	62%	60%

All students who invest their time and money in earning a degree should be financially better off because of it. The Positive ROI value for each state represents the estimated percentage of public college graduates whose earnings premium over high school graduates is enough to repay their total cost of a degree within 10 years.

Percentage of graduates with Positive 10-year ROI by state - bachelor's degrees

Percentage of graduates with Positive 10-year ROI by state - associate degrees

Clear Outcomes

ADVANCED

Everyone should have access to accurate information on employment outcomes that can help them make informed decisions about education after high school. The Clear Outcomes measure is based on 10 critical elements that contribute to the capacity of state education-to-employment data systems to clarify education pathway outcomes in order to inform personal, public, and private sector investments.

Alabama is one of 11 states that are Leading in providing individuals with access to their own verified education and employment data for learning mobility (element 9). Alabama also is one of 31 states that are Leading in interactive resources (element 7).

COLLECT

State data system elements	State description	Category
1. Includes learner-level and program characteristic data for nondegree and noncredit postsecondary education and training programs	Alabama collects enrollment and credential outcome data for several nondegree and noncredit postsecondary education and training programs, including: (i) college-issued, noncredit credentials; (ii) WIOA-eligible training providers; and (iii) other third-party credentials, namely apprenticeships. The state does not link employment outcomes to college-issued, noncredit certificates.	ADVANCED
2. Examines earnings by occupation, pay rate, and work location	Alabama does not collect any of the three enhanced elements, and Strada's research did not demonstrate an emerging collection policy.	FOUNDATIONAL

INTEGRATE

State data system elements	State description	Category
3. Integrates and delivers information on learners' earnings and employment after postsecondary education and training completion, and over time	Alabama integrates information on employment and earnings from administrative sources with its (i) public four-year institutions; (ii) private four-year institutions; and (iii) community colleges. The state publishes these employment outcomes as an interactive resource through the Alabama Commission on Higher Education's Student Horizon Database. The data are not disaggregated by race/ethnicity, gender, and family income/economic status. Alabama's SLDS, the Alabama Terminal on Linking and Analyzing Statistics on Career Pathways or ATLAS on Career Pathways, will publish interactive dashboards and static reports including more integrated postsecondary education and employment data.	ADVANCED
4. Integrates and delivers information on learners' earnings and employment after high school completion and over time	No evidence was identified through the state's response or in Strada's research of the state demonstrating this element.	FOUNDATIONAL
5. Partners with national and multi-state initiatives to assess education-to-opportunity outcomes for graduates and non-graduates of postsecondary education and training programs who relocate or work outside the state	Alabama partners with PSEO (<25% graduate coverage), the Multi-State Data Collaborative, and the State Wage Interchange System.	LEADING

ADVANCED

PROVIDE

State data system elements	State description	Category
6. Provides comprehensive and timely open data files containing anonymized education-to-opportunity statistics that anyone can access, download, and otherwise use	No evidence was identified through the state's response or in Strada's research of the state demonstrating this element.	FOUNDATIONAL
7. Publishes robust, timely, and easily understandable interactive resources informing education-to-opportunity decision-making by learners, families, and institutions	Alabama publishes dashboards containing education-to-employment statistics for public four-year institutions, private four-year institutions, and community colleges.	LEADING
8. Gives researchers access to individual-level matched education-to-opportunity datasets	Alabama has individual-level matched education-to-opportunity datasets but access is limited to higher education institutions.	ADVANCED

IMPACT

State data system elements	State description	Category
9. Enables learners and earners to access and utilize their own verified data, unlocking opportunities for college and career advancement	The Alabama Committee on Credentials and Career Pathways (ACCCP) is a legislatively enacted and funded governance committee for the Alabama Talent Triad. The ACCCP is tasked with a two-fold mission: (i) identifying Alabama's regional and statewide in-demand occupations; and (ii) developing competency models, career pathways, and credentials of value linked to those in-demand occupations. Within the Talent Triad, Alabamians can store these competencies and credentials as well as explore career pathways and match to employment and training opportunities. In June 2026, Alabama was selected a semifinalist for the Connecting Talent to Opportunity Challenge to scale its talent marketplace. Additionally, the Alabama Community College System is developing a CLR/LER infrastructure focused on transfer credit for traditional-age students (16-24 year-olds) as part of the Alabama College and Career Exploration Tool initiative.	LEADING
10. Designates a unit with responsibility and dedicated, full-time capacity for generating education-to-employment insights to inform state policymaking and resource allocation decision-making	The Alabama Terminal on Linking and Analyzing Statistics on Career Pathways (ATLAS), Alabama's SLDS, has access to integrated E2E data for analysis. The system is in the process of developing publicly available resources that report on supply/demand labor market attributes and postsecondary employment outcomes, though not formally designated by the state as responsible for generating these E2E insights. ATLAS is governed by Alabama's P20W Council and has strong partnerships with higher education, workforce development, and economic development agencies.	ADVANCED

Quality Coaching

Alabama 2026

BACHELOR'S **ADVANCED** ASSOCIATE **DEVELOPING**

Everyone should have access to coaching that helps them reflect on their talents and interests, choose a career goal, chart a path, and navigate challenges. The Quality Coaching measure is based on the percentage of associate students and bachelor's senior students who reported receiving personalized guidance, timely labor market information, and support to create a plan and overcome barriers.

Alabama improved from Developing to Advanced in overall Quality Coaching for students at bachelor's degree institutions. Rates of bachelor's students receiving labor market information by the end of their first year improved. This is the first report with available Quality Coaching data for students at Alabama's associate degree institutions, and the state is categorized as Developing overall, consistent with most other states with available data.

	Bachelor's		Associate	
	State	National	State	National
PERSONALIZED GUIDANCE				
Percentage of students at public institutions who report receiving personalized coaching or guidance to help select the education that will help prepare them for a successful career	DEVELOPING **41%**	**35%**	DEV./ADV. **40%**	**45%**
TIMELY LABOR MARKET INFORMATION				
The average share of students at public institutions who receive timely labor market information, across the various types below, before enrolling or during their first year	DEVELOPING **28%**	**26%**	FND./DEV. **28%**	**35%**
Education-to-career paths that might be a good fit for students' strengths and interests	37%	34%	35%	45%

- **Developing** 25% to <50%
- **Advanced** 50% to <75%
- **Leading** ≥75%

Affordability

BACHELOR'S **FOUNDATIONAL** ASSOCIATE **LEADING**

A quality postsecondary education should be within everyone's reach, with clear, predictable, and manageable costs. The Affordability measure is based on how many hours a week the average student would need to work to cover the in-state net price (total cost of attendance minus any grants and scholarships), how many hours a student from a low-income family would need to work to cover their typical in-state net price, and the percentage of students that complete their degree on time – a critical factor in the cost of a degree.

Alabama trails most other states in affordability at bachelor's degree institutions, largely due to higher net prices. At the associate level, overall affordability remains Leading, though rising net prices increased the hours the average student would need to work to cover college costs, moving this particular element from Leading to Advanced.

	Bachelor's		Associate	
	State	National	State	National
STUDENT HOURS OF WORK NEEDED				
Average student hours of work needed	**FOUNDATIONAL** **46 hours per week** Average annual net price: $18,364	**26 hours per week** Average annual net price: $15,270	**ADVANCED** **12 hours per week** Average annual net price: $7,923	**8 hours per week** Average annual net price: $8,089
Low-income student hours of work needed	**FOUNDATIONAL** **35 hours per week** Average annual net price for low-income students: $14,949	**12 hours per week** Average annual net price for low-income students: $9,813	**LEADING** **8 hours per week** Average annual net price for low-income students: $6,559	**4 hours per week** Average annual net price for low-income students: $6,678

Work-Based Learning

BACHELOR'S DEVELOPING

All students should have access to paid, immersive work-based learning experiences that connect education to career. The Work-Based Learning measure is based on the percentage of bachelor's senior students who reported participating in at least one of the following types of paid experiences: paid internship, paid apprenticeship, paid co-op, paid practicum, or paid undergraduate research experience. For students at associate degree institutions, participation is reported when data are available, but states are not categorized.

Alabama's bachelor's degree institutions are categorized as Developing, a category shared with 32 other states. This is the first report with available work-based learning data for students at Alabama's associate degree institutions.

	Bachelor's		Associate	
	State	National	State	National
QUALITY WORK-BASED LEARNING				
Percentage of students at public institutions who participated in at least one of the five types of quality paid work-based learning experiences	DEVELOPING **42%**	**43%**	**20%**	**14%**
Paid internship participation	33%	35%	9%	10%
Percentage of students who participated in at least one of the five types of experiences (paid or unpaid)	71%	71%	49%	30%

Category Key

- **Foundational** <25%
- **Developing** 25% to <50%
- **Advanced** 50% to <75%
- **Leading** ≥75%

When the margin of error crosses a category threshold, states are given a combined category.

In addition to student self-reporting of apprenticeship participation, states have other sources of information on participation in registered apprenticeships via the U.S. Department of Labor. In Alabama, 0.19 percent of the state labor force is made up of active apprentices, for a total of 4,407 apprentices. Across the country, this number ranges from 0.86 percent (Hawaii) to 0.12 percent (Oklahoma). In countries with leading apprenticeship systems, such as Germany, Switzerland, Australia, Canada, and England, apprentices constitute about 2.5-3.0 percent of the labor force, so all states in the U.S. have substantial room for improvement.

Employer Alignment

DEVELOPING

Students should have access to programs that lead to quality jobs and employers should be able to find the talent they need to fill high-wage roles. The Employer Alignment measure is based on the percentage of terminal bachelor's degree holders aged 25-34 employed in a college-level job as well as the supply/demand ratio for a set of high-demand, high-wage jobs in each state.

College-level employment in **Alabama** is 58 percent, compared to 60 percent nationally. Along with 42 other jurisdictions, Alabama is Developing in overall Employer Alignment. While its college-level employment rate remains stable, the state improved from Foundational to Developing in its overall supply/demand ratio, and from Foundational to Advanced in supply/demand ratios for nursing and manufacturing/trades technicians and technologists. Supply/demand for finance and accounting professionals also is an area of strength, with Alabama among 14 states categorized as Advanced or Leading in this occupational group.

COLLEGE-LEVEL EMPLOYMENT			
The percentage of bachelor's degree graduates who are employed in college-level jobs		58%	DEVELOPING
SUPPLY/DEMAND RATIO			
The overall ratio: the average of the entry-level supply/demand ratios for these nine opportunity occupational groups			DEVELOPING

	State	National
EXTERNAL AFFORDABILITY METRICS		
State appropriations per student FTE, public four-year institutions, FY2025 *(Source: SHEEO SHEF Annual Report)*	$21,265	$11,166
State appropriations per student FTE, public two-year institutions, FY2025 *(Source: SHEEO SHEF Annual Report)*	$11,468	$11,096
FAFSA completion rate, high school class of 2026 (through July 1, 2026) *(Source: NCAN)*	65%	59%
150% completion rate, first-time full-time students, bachelor's degree institutions, 2023-24 *(Source: College Scorecard)*	62%	64%
150% completion rate, first-time full-time Pell recipients, bachelor's degree institutions, 2023-24 *(Source: College Scorecard)*	45%	53%

If we get this right, here's what the future could look like: A young person or adult explores options with a career coach. They have data on jobs and earnings by program. They know costs up front, and public options are affordable and accessible. They engage in paid work-based learning, building skills and clarifying goals. By completion, they don't just hold a credential (or a few).
They have a good job, experience, and momentum toward a better future.
