State Opportunity Index

Colorado

State Summary 2026

Colorado at a glance

THE STATE OPPORTUNITY INDEX is a framework for measuring and improving education-to-career outcomes. For each state, the Index reports the percentage of graduates who experience a positive return on investment and summarizes progress in five key areas for improving success beyond completion: Clear Outcomes, Quality Coaching, Affordability, Work-Based Learning, and Employer Alignment. States are grouped into four categories: Leading (at the forefront, demonstrating strong progress); Advanced (substantial progress); Developing (early stages of improvement); and Foundational (just beginning their journey).

Colorado is among 17 states Leading in Clear Outcomes. The state also is among 35 states and jurisdictions Leading in Affordability at associate degree institutions. To learn more about progress in other states, visit strada.org/state-opportunity-index.

State Opportunity Index

strada

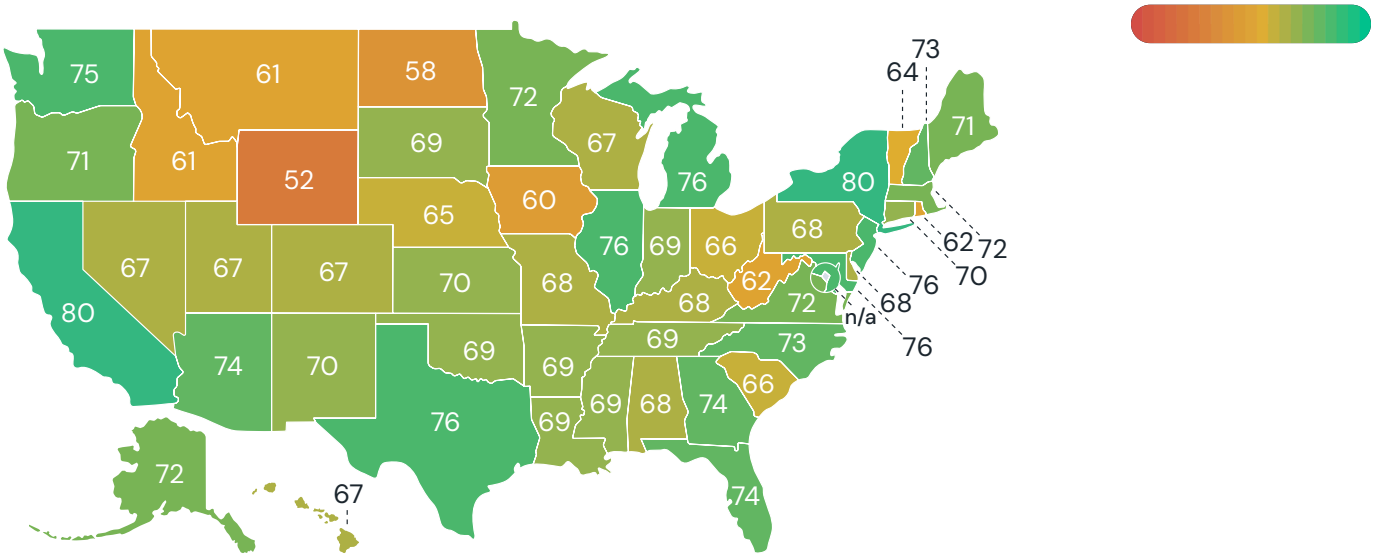

In cases in which the margin of error crosses a category threshold, states are given a combined category.
References for "unavailable" refer to states in which there was insufficient data to assign a rating at this time.

Positive ROI

	Colorado	National
Overall	65%	70%
Bachelor's	67%	73%
Associate	48%	60%

All students who invest their time and money in earning a degree should be financially better off because of it. The Positive ROI value for each state represents the estimated percentage of public college graduates whose earnings premium over high school graduates is enough to repay their total cost of a degree within 10 years.

Percentage of graduates with Positive 10-year ROI by state - bachelor's degrees

Percentage of graduates with Positive 10-year ROI by state - associate degrees

Clear Outcomes

LEADING

Colorado 2026

Everyone should have access to accurate information on employment outcomes that can help them make informed decisions about education after high school. The Clear Outcomes measure is based on 10 critical elements that contribute to the capacity of state education-to-employment data systems to clarify education pathway outcomes in order to inform personal, public, and private sector investments.

Colorado improved from Foundational to Leading in nondegree and noncredit data (element 1). Colorado also is one of 11 states that are Leading in verified data for learning mobility (element 9), and in integrating post-high school education and employment data (element 3).

COLLECT

State data system elements	State description	Category
1. Includes learner-level and program characteristic data for nondegree and noncredit postsecondary education and training programs	Colorado collects enrollment and credential outcome data for: (i) college-issued, noncredit credentials; (ii) WIOA-eligible training providers; and (iii) other third-party credentials, namely apprenticeship and workforce training. Colorado links these nondegree and noncredit data to employment outcomes from administrative sources. The state publishes employment outcomes for WIOA-eligible training providers as an open aggregate dataset and other workforce training providers as an interactive resource. A report on the employment outcomes of apprenticeship programs is forthcoming.	LEADING
2. Examines earnings by occupation, pay rate, and work location	Colorado collects work location but does not collect occupation or pay rate.	ADVANCED

INTEGRATE

State data system elements	State description	Category
3. Integrates and delivers information on learners' earnings and employment after postsecondary education and training completion, and over time	Colorado integrates administrative records on employment and earnings with its (i) public four-year institutions; (ii) private four-year institutions; and (iii) community colleges. The state publishes these employment outcomes as an open dataset and an interactive resource through the Colorado Department of Higher Education's annual Return on Investment report and Postsecondary Degree Earnings Outcomes Tool. Colorado Data Connection, the SLDS, will soon publish an interactive resource with postsecondary education-to-employment outcomes disaggregated by race/ethnicity, gender, and family income/economic status.	LEADING
4. Integrates and delivers information on learners' earnings and employment after high school completion and over time	Colorado integrates administrative employment and earnings data with high school completion records. Colorado Data Connections, the SLDS, will soon release an interactive resource featuring high school-to-employment outcomes disaggregated by race/ethnicity, gender, family income/economic status, and other student demographics.	ADVANCED
5. Partners with national and multi-state initiatives to assess education-to-opportunity outcomes for graduates and non-graduates of postsecondary education and training programs who relocate or work outside the state	Colorado partners with PSEO (50-75% graduate coverage), the Multi-State Data Collaborative, and the State Wage Interchange System.	LEADING

LEADING

Colorado 2026

PROVIDE

State data system elements	State description	Category
6. Provides comprehensive and timely open data files containing anonymized education-to-opportunity statistics that anyone can access, download, and otherwise use	Colorado publishes open datasets containing education-to-employment statistics for public four-year institutions, private four-year institutions, and community colleges. The state also publishes an open dataset containing employment outcomes for WIOA-eligible training providers.	LEADING
7. Publishes robust, timely, and easily understandable interactive resources informing education-to-opportunity decision-making by learners, families, and institutions	Colorado publishes multiple interactive resources containing education-to-employments statistics, and the state is working to consolidate them for improved consumer information. There is a dashboard containing employment outcomes for public four-year institutions, private four-year institutions, and community colleges, and a separate dashboard containing employment outcomes for some workforce training providers.	LEADING
8. Gives researchers access to individual-level matched education-to-opportunity datasets	The Linked Information Network of Colorado (LINC) provides deidentified education-to-employment data to researchers upon request and agency approval. LINC publishes a clear description of the research request and review process as well as summaries of approved projects.	LEADING

IMPACT

State data system elements	State description	Category
9. Enables learners and earners to access and utilize their own verified data, unlocking opportunities for college and career advancement	The Colorado Workforce Development Council (CWDC) leads the ColoradoFWD initiative, which uses LERs to validate workers' skills and connect workers with employment opportunities. This effort is supported by the Colorado Community College System's five behavioral health microcredential programs, which issue digital badges that stack into associate and bachelor's degrees. CWDC is expanding LER adoption statewide through a Skills-First Local Workforce Board Challenge. Additionally, Colorado is improving transparency of available training opportunities, publishing over 3,400 credentials to the Credential Engine Registry. The myColorado digital wallet now supports verified educator certificate storage and sharing, and the My Colorado Journey platform has been retooled as an open-access career pathway and program finder.	LEADING
10. Designates a unit with responsibility and dedicated, full-time capacity for generating education-to-employment insights to inform state policymaking and resource allocation decision-making	Colorado Data Connections, or COdata, is the centralized, authoritative source designated by the state for generating E2E insights. COdata has ready access to integrated E2E data for analysis, is developing resources that report on postsecondary employment outcomes, and has partnerships with higher education, workforce development, and economic development agencies. Quality Coaching

Colorado 2026

BACHELOR'S DEVELOPING ASSOCIATE DEVELOPING

Everyone should have access to coaching that helps them reflect on their talents and interests, choose a career goal, chart a path, and navigate challenges. The Quality Coaching measure is based on the percentage of associate students and bachelor's senior students who reported receiving personalized guidance, timely labor market information, and support to create a plan and overcome barriers.

Colorado remains Developing in overall Quality Coaching for students at bachelor's degree institutions. As is the case with most states, the share of students receiving labor market information by the end of their first year increased, and the state remains on par with national rates for this element. This is the first report with available Quality Coaching data for Colorado's associate degree institutions, and the state is categorized as Developing overall at this level, consistent with most other states with available data.

	Bachelor's		Associate

Affordability

Colorado 2026

BACHELOR'S DEVELOPING ASSOCIATE LEADING

A quality postsecondary education should be within everyone's reach, with clear, predictable, and manageable costs. The Affordability measure is based on how many hours a week the average student would need to work to cover the in-state net price (total cost of attendance minus any grants and scholarships), how many hours a student from a low-income family would need to work to cover their typical in-state net price, and the percentage of students that complete their degree on time – a critical factor in the cost of a degree.

Colorado remains Leading in overall affordability at associate degree institutions. Declining net prices at associate degree institutions also reduced the number of hours students would need to work to cover college costs, moving this particular element from Advanced to Leading. Affordability at bachelor's degree institutions remains an opportunity for growth.

	Bachelor's		Associate	
	State	National	State	National
STUDENT HOURS OF WORK NEEDED				
Average student hours of work needed	FOUNDATIONAL **32 hours per week** Average annual net price: $18,983	**26 hours per week** Average annual net price: $15,270	LEADING **9 hours per week** Average annual net price: $9,644	**8 hours per week** Average annual net price: $8,089
Low-income student hours of work needed	ADVANCED **16 hours per week** Average annual net price for low-income students: $12,107	**12 hours per week** Average annual net price for low-income students: $9,813	LEADING **4 hours per week** Average annual net price for low-income students: $7,345	**4 hours per week** Average annual net price for low-income students: $6,678

Work-Based Learning

BACHELOR'S DEVELOPING

All students should have access to paid, immersive work-based learning experiences that connect education to career. The Work-Based Learning measure is based on the percentage of bachelor's senior students who reported participating in at least one of the following types of paid experiences: paid internship, paid apprenticeship, paid co-op, paid practicum, or paid undergraduate research experience. For students at associate degree institutions, participation is reported when data are available, but states are not categorized.

Colorado's bachelor's degree institutions are categorized as Developing, a category shared by 32 other states. This is the first report with available work-based learning data for students at Colorado's associate degree institutions.

	Bachelor's		Associate	
	State	National	State	National
QUALITY WORK-BASED LEARNING				
Percentage of students at public institutions who participated in at least one of the five types of quality paid work-based learning experiences	DEVELOPING **39%**	**43%**	**18%**	**14%**
Paid internship participation	29%	35%	15%	10%
Percentage of students who participated in at least one of the five types of experiences (paid or unpaid)	69%	71%	34%	30%

Category Key

- **Foundational** <25%
- **Developing** 25% to <50%
- **Advanced** 50% to <75%
- **Leading** ≥75%

When the margin of error crosses a category threshold, states are given a combined category.

In addition to student self-reporting of apprenticeship participation, states have other sources of information on participation in registered apprenticeships via the U.S. Department of Labor. In Colorado, 0.31 percent of the state labor force is made up of active apprentices, for a total of 9,960 apprentices. Across the country, this number ranges from 0.86 percent (Hawaii) to 0.12 percent (Oklahoma). In countries with leading apprenticeship systems, such as Germany, Switzerland, Australia, Canada, and England, apprentices constitute about 2.5-3.0 percent of the labor force, so all states in the U.S. have substantial room for improvement.

Employer Alignment

DEVELOPING

Students should have access to programs that lead to quality jobs and employers should be able to find the talent they need to fill high-wage roles. The Employer Alignment measure is based on the percentage of terminal bachelor's degree holders aged 25-34 employed in a college-level job as well as the supply/demand ratio for a set of high-demand, high-wage jobs in each state.

Colorado is one of 21 states and jurisdictions categorized as Advanced in college-level employment among recent bachelor's degree graduates with a rate of 61 percent, compared to the national rate of 60 percent. The state also improved from Developing to Leading in the supply/demand ratios for data analytics and information and cybersecurity, and from Developing to Advanced for manufacturing/trades technicians and technologists.

COLLEGE-LEVEL EMPLOYMENT

EXTERNAL AFFORDABILITY METRICS		
State appropriations per student FTE, public four-year institutions, FY2025 *(Source: SHEEO SHEF Annual Report)*	$14,265	$11,166
State appropriations per student FTE, public two-year institutions, FY2025 *(Source: SHEEO SHEF Annual Report)*	$10,329	$11,096
FAFSA completion rate, high school class of 2026 (through July 1, 2026) *(Source: NCAN)*	50%	59%
150% completion rate, first-time full-time students, bachelor's degree institutions, 2023-24 *(Source: College Scorecard)*	59%	64%
150% completion rate, first-time full-time Pell recipients, bachelor's degree institutions, 2023-24 *(Source: College Scorecard)*	45%	53%

If we get this right, here's what the future could look like: A young person or adult explores options with a career coach. They have data on jobs and earnings by program. They know costs up front, and public options are affordable and accessible. They engage in paid work-based learning, building skills and clarifying goals. By completion, they don't just hold a credential (or a few).
They have a good job, experience, and momentum toward a better future.
