State Opportunity Index

Florida

State Summary 2026

Florida at a glance

THE STATE OPPORTUNITY INDEX is a framework for measuring and improving education-to-career outcomes. For each state, the Index reports the percentage of graduates who experience a positive return on investment and summarizes progress in five key areas for improving success beyond completion: Clear Outcomes, Quality Coaching, Affordability, Work-Based Learning, and Employer Alignment. States are grouped into four categories: Leading (at the forefront, demonstrating strong progress); Advanced (substantial progress); Developing (early stages of improvement); and Foundational (just beginning their journey).

Florida is among 22 states Advanced in Clear Outcomes (17 states are Leading). The state also is one of two states Leading in Affordability at bachelor's degree institutions. To learn more about progress in other states, visit strada.org/state-opportunity-index.

Clear Outcomes		ADVANCED
Quality Coaching	BACHELOR'S	DEVELOPING
	ASSOCIATE	DEVELOPING
Affordability	BACHELOR'S	LEADING
	ASSOCIATE	LEADING
Work-Based Learning	BACHELOR'S	DEVELOPING
Employer Alignment		DEVELOPING

State Opportunity Index

strada

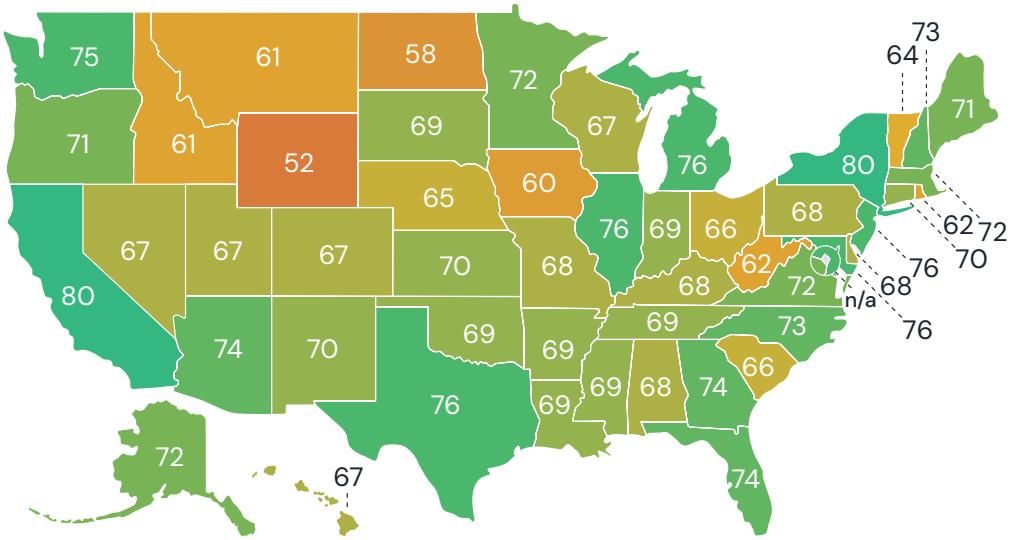

In cases in which the margin of error crosses a category threshold, states are given a combined category.
References for "unavailable" refer to states in which there was insufficient data to assign a rating at this time.

Positive ROI

	Florida	National
Overall	69%	70%
Bachelor's	74%	73%
Associate	57%	60%

All students who invest their time and money in earning a degree should be financially better off because of it. The Positive ROI value for each state represents the estimated percentage of public college graduates whose earnings premium over high school graduates is enough to repay their total cost of a degree within 10 years.

Percentage of graduates with Positive 10-year ROI by state - bachelor's degrees

Percentage of graduates with Positive 10-year ROI by state - associate degrees

Clear Outcomes

ADVANCED

Everyone should have access to accurate information on employment outcomes that can help them make informed decisions about education after high school. The Clear Outcomes measure is based on 10 critical elements that contribute to the capacity of state education-to-employment data systems to clarify education pathway outcomes in order to inform personal, public, and private sector investments.

Florida improved from Advanced to Leading in open aggregate data (element 6). Nondegree and noncredit data (element 1) also is a strength.

COLLECT

State data system elements	State description	Category
1. Includes learner-level and program characteristic data for nondegree and noncredit postsecondary education and training programs	Florida collects enrollment and completion data for: (i) college-issued, noncredit credentials; (ii) WIOA-eligible training providers; and (iii) other third-party credentials, namely apprenticeships and some industry credentials. Florida integrates administrative employment and earnings data with college-issued, noncredit credentials and WIOA-eligible training providers.	LEADING
2. Examines earnings by occupation, pay rate, and work location	Florida does not collect any of the three enhanced elements, and Strada's research did not demonstrate an emerging collection policy.	FOUNDATIONAL

INTEGRATE

State data system elements	State description	Category
3. Integrates and delivers information on learners' earnings and employment after postsecondary education and training completion, and over time	Florida integrates administrative employment and earnings information with its (i) public four-year institutions; (ii) private four-year institutions; and (iii) community colleges. The state publishes employment outcomes for public four-year institutions and community colleges as open datasets through the Florida Education and Training Placement Information Program. Additionally, the state publishes employment outcomes for public four-year institutions as an interactive resource through the MyFloridaFuture tool. Florida publishes employment for private four-year institutions as a report. These employment outcomes are not disaggregated by demographic characteristics.	ADVANCED
4. Integrates and delivers information on learners' earnings and employment after high school completion and over time	Florida integrates administrative employment and earnings data with high school completion records. The Florida Department of Education publishes High School Reports as part of the Florida Education and Training Placement Information Program. These reports provide information on employment and wages after graduation, those continuing school, receiving public benefits, and more. The information is not disaggregated by race/ethnicity, gender, or family income/economic status.	ADVANCED
5. Partners with national and multi-state initiatives to assess education-to-opportunity outcomes for graduates and non-graduates of postsecondary education and training programs who relocate or work outside the state	Florida partners with the Multi-State Data Collaborative and the State Wage Interchange System.	ADVANCED

Florida 2026

PROVIDE

State data system elements	State description	Category
6. Provides comprehensive and timely open data files containing anonymized education-to-opportunity statistics that anyone can access, download, and otherwise use	Florida publishes data tables rather than open datasets containing education-to-employment statistics for public four-year institutions, community colleges, and WIOA-eligible training providers.	LEADING
7. Publishes robust, timely, and easily understandable interactive resources informing education-to-opportunity decision-making by learners, families, and institutions	Florida publishes an interactive resource containing education-to-employment statistics for public four-year institutions.	ADVANCED
8. Gives researchers access to individual-level matched education-to-opportunity datasets	The Florida Department of Education provides third-party researchers access to individual-level matched education-to-employment datasets. The state clearly describes the request and review process, including that requests are evaluated for alignment with state priorities.	LEADING

IMPACT

State data system elements	State description	Category
9. Enables learners and earners to access and utilize their own verified data, unlocking opportunities for college and career advancement	Florida Gulf Coast University (FGCU) is laying a foundation for learning mobility. Through an LER Accelerator grant, FCGU will create a centralized LER system that will unify its established digital badge ecosystem. This ecosystem already includes transferable skills as well as industry-specific and continuing education microcredentials.	FOUNDATIONAL
10. Designates a unit with responsibility and dedicated, full-time capacity for generating education-to-employment insights to inform state policymaking and resource allocation decision-making	Strada's research did not identify evidence of the state demonstrating this element.	FOUNDATIONAL

Quality Coaching

BACHELOR'S DEVELOPING **ASSOCIATE** DEVELOPING

Florida 2026

Everyone should have access to coaching that helps them reflect on their talents and interests, choose a career goal, chart a path, and navigate challenges. The Quality Coaching measure is based on the percentage of associate students and bachelor's senior students who reported receiving personalized guidance, timely labor market information, and support to create a plan and overcome barriers.

Florida remains Developing in overall Quality Coaching for students at bachelor's degree institutions, while at the associate level, it declined from Advanced to Developing. At both levels, it is on par with most other states.

	Bachelor's		Associate	
	State	National	State	National
PERSONALIZED GUIDANCE				
Percentage of students at public institutions who report receiving personalized coaching or guidance to help select the education that will help prepare them for a successful career	DEVELOPING **33%**	**35%**	DEVELOPING **42%**	**45%**
TIMELY LABOR MARKET INFORMATION				
The average share of students at public institutions who receive timely labor market information, across the various types below, before enrolling or during their first year	FND./DEV. **24%**	**26%**	DEVELOPING **29%**	**35%**
Education-to-career paths that might be a good fit for students' strengths and interests	33%	34%	38%	45%
Job opportunities that a particular education program could lead to	20%	21%	27%	31%
Potential earnings in different careers related to students' education program	28%	30%	33%	40%
Career outcomes of students from their own institution	16%	17%	19%	23%
SUPPORT				
The average share of students at public institutions who receive at least some support in setting goals and in overcoming obstacles	ADV./LEAD. **74%**	**72%**	ADV./LEAD. **73%**	**73%**
Setting education and career goals, and developing a plan to achieve these goals	73%	71%	72%	73%
Identifying and overcoming barriers	76%	73%	75%	73%

Category Key

- **Developing** 25% to <50%
- **Advanced** 50% to <75%
- **Leading** ≥75%

Affordability

BACHELOR'S **LEADING** ASSOCIATE **LEADING**

A quality postsecondary education should be within everyone's reach, with clear, predictable, and manageable costs. The Affordability measure is based on how many hours a week the average student would need to work to cover the in-state net price (total cost of attendance minus any grants and scholarships), how many hours a student from a low-income family would need to work to cover their typical in-state net price, and the percentage of students that complete their degree on time – a critical factor in the cost of a degree.

Florida is one of two states (along with California) categorized as Leading in overall affordability at bachelor's degree institutions. It has the lowest average net price for bachelor's students in the country. Florida also shares a Leading categorization with 34 other states and jurisdictions at the associate level.

	Bachelor's		Associate	
	State	National	State	National
STUDENT HOURS OF WORK NEEDED				
Average student hours of work needed	ADVANCED **14 hours per week** Average annual net price: $9,856	**26 hours per week** Average annual net price: $15,270	LEADING **9 hours per week** Average annual net price: $8,048	**8 hours per week** Average annual net price: $8,089
Low-income student hours of work needed	LEADING **3 hours per week** Average annual net price for low-income students: $6,010	**12 hours per week** Average annual net price for low-income students: $9,813	LEADING **7 hours per week** Average annual net price for low-income students: $7,459	**4 hours per week** Average annual net price for low-income students: $6,678

Category Key

- **Foundational** ≥30 hrs
- **Developing** 20 to <30 hrs
- **Advanced** 10 to <20 hrs
- **Leading** <10 hrs

Bachelor's	
State	National
ON-TIME COMPLETION RATE	
ADVANCED **60%**	**47%**

- **Developing** 35% to <50%
- **Advanced** 50% to <65%
- **Leading** ≥65%

Work-Based Learning

BACHELOR'S **DEVELOPING**

All students should have access to paid, immersive work-based learning experiences that connect education to career. The Work-Based Learning measure is based on the percentage of bachelor's senior students who reported participating in at least one of the following types of paid experiences: paid internship, paid apprenticeship, paid co-op, paid practicum, or paid undergraduate research experience. For students at associate degree institutions, participation is reported when data are available, but states are not categorized.

Students at **Florida's** associate degree institutions participate in paid work-based learning at higher rates than students nationally. Florida's bachelor's degree institutions are categorized as Developing in 2026, a category shared by 32 other states.

	Bachelor's		Associate	
	State	National	State	National
QUALITY WORK-BASED LEARNING				
Percentage of students at public institutions who participated in at least one of the five types of quality paid work-based learning experiences	DEVELOPING **40%**	**43%**	**23%**	**14%**
Paid internship participation	32%	35%	17%	10%
Percentage of students who participated in at least one of the five types of experiences (paid or unpaid)	73%	71%	43%	30%

Category Key

- **Foundational** <25%
- **Developing** 25% to <50%
- **Advanced** 50% to <75%
- **Leading** ≥75%

When the margin of error crosses a category threshold, states are given a combined category.

In addition to student self-reporting of apprenticeship participation, states have other sources of information on participation in registered apprenticeships via the U.S. Department of Labor. In Florida, 0.16 percent of the state labor force is made up of active apprentices, for a total of 17,952 apprentices. Across the country, this number ranges from 0.86 percent (Hawaii) to 0.12 percent (Oklahoma). In countries with leading apprenticeship systems, such as Germany, Switzerland, Australia, Canada, and England, apprentices constitute about 2.5-3.0 percent of the labor force, so all states in the U.S. have substantial room for improvement.

Employer Alignment

DEVELOPING

Students should have access to programs that lead to quality jobs and employers should be able to find the talent they need to fill high-wage roles. The Employer Alignment measure is based on the percentage of terminal bachelor's degree holders aged 25-34 employed in a college-level job as well as the supply/demand ratio for a set of high-demand, high-wage jobs in each state.

College-level employment in **Florida** is 55 percent, compared to 60 percent nationally. Florida improved from Foundational to Advanced in the supply/demand ratio for nursing and from Developing to Leading for manufacturing/trades technicians and technologists.

COLLEGE-LEVEL EMPLOYMENT			
The percentage of bachelor's degree graduates who are employed in college-level jobs		55%	DEVELOPING
SUPPLY/DEMAND RATIO			
The overall ratio: the average of the entry-level supply/demand ratios for these nine opportunity occupational groups			DEVELOPING

EXTERNAL AFFORDABILITY METRICS		
State appropriations per student FTE, public four-year institutions, FY2025 *(Source: SHEEO SHEF Annual Report)*	$13,034	$11,166
State appropriations per student FTE, public two-year institutions, FY2025 *(Source: SHEEO SHEF Annual Report)*	$6,565	$11,096
FAFSA completion rate, high school class of 2026 (through July 1, 2026) *(Source: NCAN)*	56%	59%
150% completion rate, first-time full-time students, bachelor's degree institutions, 2023-24 *(Source: College Scorecard)*	76%	64%
150% completion rate, first-time full-time Pell recipients, bachelor's degree institutions, 2023-24 *(Source: College Scorecard)*	72%	53%

If we get this right, here's what the future could look like: A young person or adult explores options with a career coach. They have data on jobs and earnings by program. They know costs up front, and public options are affordable and accessible. They engage in paid work-based learning, building skills and clarifying goals. By completion, they don't just hold a credential (or a few).
They have a good job, experience, and momentum toward a better future.
