State Opportunity Index

Georgia

State Summary 2026

Georgia at a glance

THE STATE OPPORTUNITY INDEX is a framework for measuring and improving education-to-career outcomes. For each state, the Index reports the percentage of graduates who experience a positive return on investment and summarizes progress in five key areas for improving success beyond completion: Clear Outcomes, Quality Coaching, Affordability, Work-Based Learning, and Employer Alignment. States are grouped into four categories: Leading (at the forefront, demonstrating strong progress); Advanced (substantial progress); Developing (early stages of improvement); and Foundational (just beginning their journey).

Georgia is among 17 states Leading in Clear Outcomes. The state also is among 35 states and jurisdictions Leading in Affordability at associate degree institutions. Employer Alignment improved from Foundational to Developing. To learn more about progress in other states, visit strada.org/state-opportunity-index.

Clear Outcomes		LEADING
Quality Coaching	BACHELOR'S	DEVELOPING
	ASSOCIATE	DEVELOPING
Affordability	BACHELOR'S	DEVELOPING
	ASSOCIATE	LEADING
Work-Based Learning	BACHELOR'S	DEVELOPING
Employer Alignment		DEVELOPING

State Opportunity Index

strada

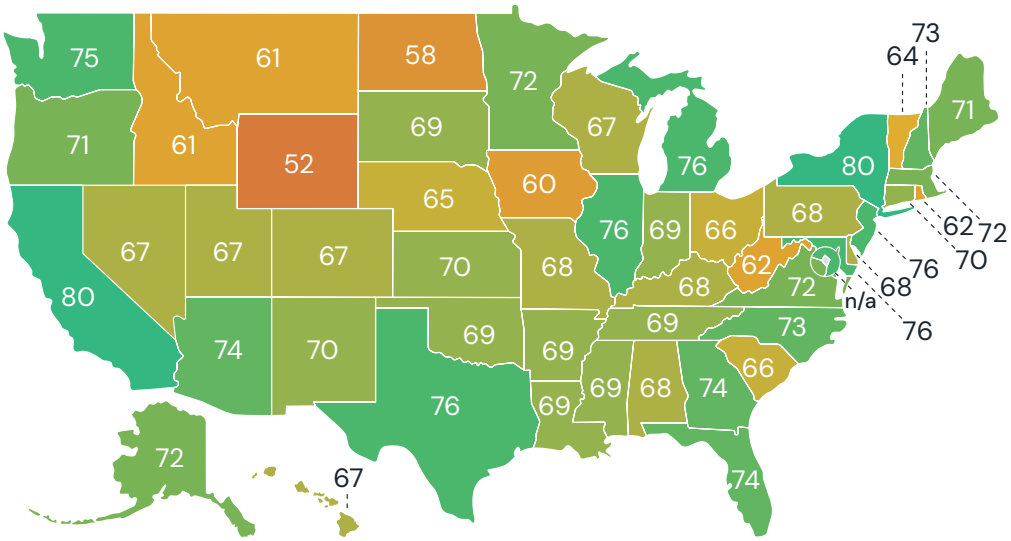

In cases in which the margin of error crosses a category threshold, states are given a combined category.
References for "unavailable" refer to states in which there was insufficient data to assign a rating at this time.

Positive ROI

	Georgia	National
Overall	71%	70%
Bachelor's	74%	73%
Associate	59%	60%

All students who invest their time and money in earning a degree should be financially better off because of it. The Positive ROI value for each state represents the estimated percentage of public college graduates whose earnings premium over high school graduates is enough to repay their total cost of a degree within 10 years.

Percentage of graduates with Positive 10-year ROI by state - bachelor's degrees

Percentage of graduates with Positive 10-year ROI by state - associate degrees

Clear Outcomes

LEADING

Georgia 2026

Everyone should have access to accurate information on employment outcomes that can help them make informed decisions about education after high school. The Clear Outcomes measure is based on 10 critical elements that contribute to the capacity of state education-to-employment data systems to clarify education pathway outcomes in order to inform personal, public, and private sector investments.

Georgia improved from Developing to Advanced in verified data for learning mobility (element 9). Open aggregate data (element 6) is also a strength.

COLLECT

State data system elements	State description	Category
1. Includes learner-level and program characteristic data for nondegree and noncredit postsecondary education and training programs	Georgia collects enrollment and credential outcome data from (i) college-issued, noncredit credentials; (ii) WIOA-eligible training providers; (iii) occupational licensure; and (iv) other third-party credentials, namely industry certifications and apprenticeships. Georgia does not link college-issued, noncredit credentials to employment outcomes. The state is in the process of linking industry certifications earned through the Department of Education's Career, Technical, and Agricultural Education pathways to employment outcomes.	ADVANCED
2. Examines earnings by occupation, pay rate, and work location	Georgia does not collect any of the three enhanced elements, and Strada's research did not demonstrate an emerging collection policy.	FOUNDATIONAL

INTEGRATE

State data system elements	State description	Category
3. Integrates and delivers information on learners' earnings and employment after postsecondary education and training completion, and over time	Georgia integrates information on employment and earnings from administrative sources with its (i) public four-year institutions; (ii) private four-year institutions; and (iii) community colleges. The state publishes employment outcomes for public four-year institutions as downloadable datasets and an interactive resource through the GA·AWARDS system's Georgia Higher Learning and Earnings (GHLE) project and an additional interactive resource through the University System of Georgia's Your Future Earnings tool. The Your Future Earnings tool supports disaggregation by student demographics. The state publishes employment outcomes for community colleges as downloadable datasets and an interactive resource through GHLE. The GA·AWARDS system integrates employment and earnings data with private four-year institutions but does not publish these employment outcomes.	ADVANCED
4. Integrates and delivers information on learners' earnings and employment after high school completion and over time	Georgia integrates information on employment and earnings from administrative sources with high school graduation. The state publishes these employment outcomes as a downloadable dataset and an interactive resource through the High School Graduate Outcomes site. These employment outcomes are not disaggregated by race/ethnicity, gender, and family income/economic status.	ADVANCED
5. Partners with national and multi-state initiatives to assess education-to-opportunity outcomes for graduates and non-graduates of postsecondary education and training programs who relocate or work outside the state	Georgia partners with PSEO (25-49% graduate coverage), the Multi-State Data Collaborative, and the State Wage Interchange System.	LEADING

LEADING

Georgia 2026

PROVIDE

State data system elements	State description	Category
6. Provides comprehensive and timely open data files containing anonymized education-to-opportunity statistics that anyone can access, download, and otherwise use	Georgia publishes open datasets containing aggregate education-to-employment outcomes for public four-year institutions and community colleges. The state also publishes open datasets containing high school-to-employment outcomes. Additionally, enrollment data are available by institution and program, with disaggregation by race/ethnicity and gender.	LEADING
7. Publishes robust, timely, and easily understandable interactive resources informing education-to-opportunity decision-making by learners, families, and institutions	Georgia publishes dashboards containing education-to-employment outcomes for public four-year institutions, community colleges, and high schools.	LEADING
8. Gives researchers access to individual-level matched education-to-opportunity datasets	External researchers can partner with researchers affiliated with Georgia higher education institutions and then submit requests to access individual-level matched education-to-opportunity datasets.	ADVANCED

IMPACT

State data system elements	State description	Category
9. Enables learners and earners to access and utilize their own verified data, unlocking opportunities for college and career advancement	Georgia is building a layered, statewide ecosystem to empower learners and earners to validate and leverage their skills across education and career pathways. In May 2025, Governor Kemp signed the Top State for Talent Act, aligning all state agencies around common career planning tools, cross-agency data use, and a unified High-Demand Career List that directs education and training investments toward high-growth, high-wage occupations. The University of Georgia, Georgia Tech, and the Technical College System of Georgia continue scaling microcredential and noncredit-to-credit pathways and LERs. Georgia also was selected as a semifinalist for the U.S. Department of Education's Connecting Talent to Opportunity Challenge to build a statewide talent marketplace.	ADVANCED
10. Designates a unit with responsibility and dedicated, full-time capacity for generating education-to-employment insights to inform state policymaking and resource allocation decision-making	The Governor's Office of Education and Workforce Strategy (GOEWS) houses Georgia's integrated E2E data. GOEWS publishes postsecondary employment outcomes as open datasets and interactive resources. In partnership with the Governor's Workforce Strategy Team, GOEWS is assessing supply/demand labor market attributes, including aligning postsecondary education programs with high-demand careers. As the administrator of the SLDS, GOEWS partners with higher education, workforce development, and economic development agencies, and other education and employment stakeholders. GOEWS has sustainable funding, governance, and staffing.	ADVANCED

Quality Coaching

Georgia 2026

BACHELOR'S DEVELOPING ASSOCIATE DEVELOPING

Everyone should have access to coaching that helps them reflect on their talents and interests, choose a career goal, chart a path, and navigate challenges. The Quality Coaching measure is based on the percentage of associate students and bachelor's senior students who reported receiving personalized guidance, timely labor market information, and support to create a plan and overcome barriers.

Georgia remains Developing in overall Quality Coaching for students at both bachelor's and associate degree institutions, consistent with most other states. At the bachelor's level, the rate of students receiving labor market information by the end of their first year increased, moving this element from Foundational to Developing.

	Bachelor's		Associate	
	State	National	State	National
PERSONALIZED GUIDANCE				
Percentage of students at public institutions who report receiving personalized coaching or guidance to help select the education that will help prepare them for a successful career	DEVELOPING **35%**	**35%**	DEVELOPING **43%**	**45%**
TIMELY LABOR MARKET INFORMATION				
The average share of students at public institutions who receive timely labor market information, across the various types below, before enrolling or during their first year	DEVELOPING **28%**	**26%**	DEVELOPING **31%**	**35%**
Education-to-career paths that might be a good fit for students' strengths and interests	37%	34%	44%	45%
Job opportunities that a particular education program could lead to	24%	21%	27%	31%
Potential earnings in different careers related to students' education program	32%	30%	36%	40%

- **Developing** 25% to <50%
- **Advanced** 50% to <75%
- **Leading** ≥75%

Affordability

BACHELOR'S DEVELOPING ASSOCIATE LEADING

A quality postsecondary education should be within everyone's reach, with clear, predictable, and manageable costs. The Affordability measure is based on how many hours a week the average student would need to work to cover the in-state net price (total cost of attendance minus any grants and scholarships), how many hours a student from a low-income family would need to work to cover their typical in-state net price, and the percentage of students that complete their degree on time – a critical factor in the cost of a degree.

Georgia improved from Foundational to Developing in overall affordability at bachelor's degree institutions. At the associate level, both average net price and net price for low-income students have declined, and it remains in the Leading category overall.

	Bachelor's		Associate	
	State	National	State	National
STUDENT HOURS OF WORK NEEDED				
Average student hours of work needed	DEVELOPING **27 hours per week** Average annual net price: $13,580	**26 hours per week** Average annual net price: $15,270	LEADING **9 hours per week** Average annual net price: $7,560	**8 hours per week** Average annual net price: $8,089
Low-income student hours of work needed	ADVANCED **19 hours per week** Average annual net price for low-income students: $10,986	**12 hours per week** Average annual net price for low-income students: $9,813	LEADING **6 hours per week** Average annual net price for low-income students: $6,371	**4 hours per week** Average annual net price for low-income students: $6,678

Work-Based Learning

BACHELOR'S DEVELOPING

All students should have access to paid, immersive work-based learning experiences that connect education to career. The Work-Based Learning measure is based on the percentage of bachelor's senior students who reported participating in at least one of the following types of paid experiences: paid internship, paid apprenticeship, paid co-op, paid practicum, or paid undergraduate research experience. For students at associate degree institutions, participation is reported when data are available, but states are not categorized.

Georgia is on par with most other states in paid work-based learning participation. For students at bachelor's degree institutions, participation is categorized as Developing, a category shared with 32 other states.

	Bachelor's		Associate	
	State	National	State	National
QUALITY WORK-BASED LEARNING				
Percentage of students at public institutions who participated in at least one of the five types of quality paid work-based learning experiences	DEVELOPING **42%**	**43%**	**12%**	**14%**
Paid internship participation	34%	35%	4%	10%
Percentage of students who participated in at least one of the five types of experiences (paid or unpaid)	71%	71%	30%	30%

Category Key

- **Foundational** <25%
- **Developing** 25% to <50%
- **Advanced** 50% to <75%
- **Leading** ≥75%

When the margin of error crosses a category threshold, states are given a combined category.

In addition to student self-reporting of apprenticeship participation, states have other sources of information on participation in registered apprenticeships via the U.S. Department of Labor. In Georgia, 0.21 percent of the state labor force is made up of active apprentices, for a total of 11,356 apprentices. Across the country, this number ranges from 0.86 percent (Hawaii) to 0.12 percent (Oklahoma). In countries with leading apprenticeship systems, such as Germany, Switzerland, Australia, Canada, and England, apprentices constitute about 2.5-3.0 percent of the labor force, so all states in the U.S. have substantial room for improvement.

Employer Alignment

DEVELOPING

Georgia 2026

Students should have access to programs that lead to quality jobs and employers should be able to find the talent they need to fill high-wage roles. The Employer Alignment measure is based on the percentage of terminal bachelor's degree holders aged 25-34 employed in a college-level job as well as the supply/demand ratio for a set of high-demand, high-wage jobs in each state.

College-level employment in **Georgia** is 58 percent, compared to 60 percent nationally. Georgia improved from Foundational to Developing overall in Employer Alignment. Though its overall supply/demand ratio remains Foundational, ratios for several occupational groups improved: data analytics and information and cybersecurity improved from Advanced to Leading, and manufacturing/trades technicians and technologists improved from Foundational to Advanced.

COLLEGE-LEVEL EMPLOYMENT

EXTERNAL AFFORDABILITY METRICS		
State appropriations per student FTE, public four-year institutions, FY2025 *(Source: SHEEO SHEF Annual Report)*	$14,818	$11,166
State appropriations per student FTE, public two-year institutions, FY2025 *(Source: SHEEO SHEF Annual Report)*	$8,686	$11,096
FAFSA completion rate, high school class of 2026 (through July 1, 2026) *(Source: NCAN)*	65%	59%
150% completion rate, first-time full-time students, bachelor's degree institutions, 2023-24 *(Source: College Scorecard)*	53%	64%
150% completion rate, first-time full-time Pell recipients, bachelor's degree institutions, 2023-24 *(Source: College Scorecard)*	42%	53%

If we get this right, here's what the future could look like: A young person or adult explores options with a career coach. They have data on jobs and earnings by program. They know costs up front, and public options are affordable and accessible. They engage in paid work-based learning, building skills and clarifying goals. By completion, they don't just hold a credential (or a few).
They have a good job, experience, and momentum toward a better future.
