State Opportunity Index

Indiana

State Summary 2026

Indiana at a glance

THE STATE OPPORTUNITY INDEX is a framework for measuring and improving education-to-career outcomes. For each state, the Index reports the percentage of graduates who experience a positive return on investment and summarizes progress in five key areas for improving success beyond completion: Clear Outcomes, Quality Coaching, Affordability, Work-Based Learning, and Employer Alignment. States are grouped into four categories: Leading (at the forefront, demonstrating strong progress); Advanced (substantial progress); Developing (early stages of improvement); and Foundational (just beginning their journey).

Indiana is among 22 states Advanced in Clear Outcomes (17 states are Leading). Quality Coaching for bachelor's students improved from Developing to Advanced, placing the state among five in this category (no states are Leading). The state also is among 35 states and jurisdictions Leading in Affordability at associate degree institutions. To learn more about progress in other states, visit strada.org/state-opportunity-index.

Clear Outcomes		ADVANCED
Quality Coaching	BACHELOR'S	ADVANCED
	ASSOCIATE	ADVANCED
Affordability	BACHELOR'S	ADVANCED
	ASSOCIATE	LEADING
Work-Based Learning	BACHELOR'S	DEV./ADV.
Employer Alignment		DEVELOPING

State Opportunity Index

strada

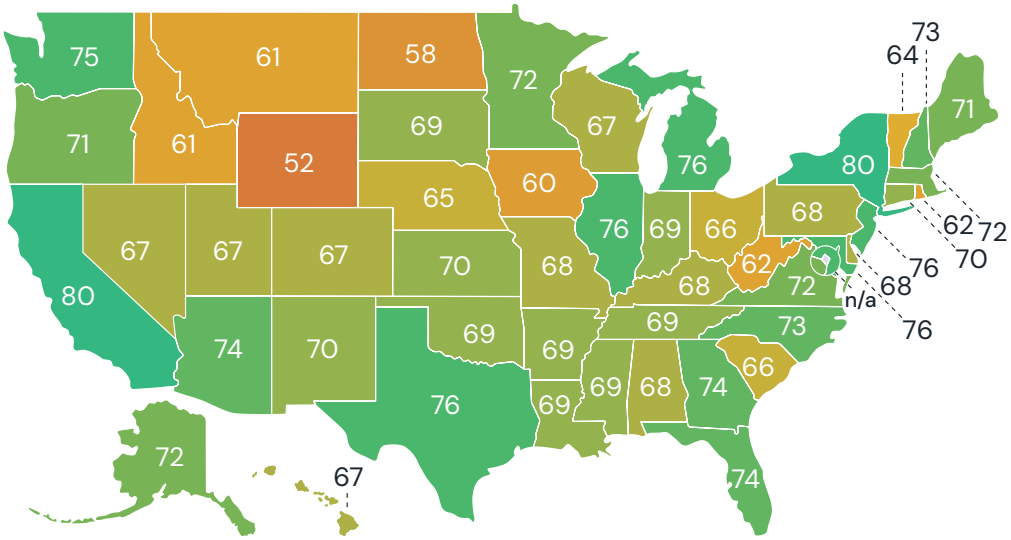

In cases in which the margin of error crosses a category threshold, states are given a combined category.
References for "unavailable" refer to states in which there was insufficient data to assign a rating at this time.

Positive ROI

	Indiana	National
Overall	67%	70%
Bachelor's	69%	73%
Associate	59%	60%

All students who invest their time and money in earning a degree should be financially better off because of it. The Positive ROI value for each state represents the estimated percentage of public college graduates whose earnings premium over high school graduates is enough to repay their total cost of a degree within 10 years.

Percentage of graduates with Positive 10-year ROI by state - bachelor's degrees

Percentage of graduates with Positive 10-year ROI by state - associate degrees

Clear Outcomes

ADVANCED

Everyone should have access to accurate information on employment outcomes that can help them make informed decisions about education after high school. The Clear Outcomes measure is based on 10 critical elements that contribute to the capacity of state education-to-employment data systems to clarify education pathway outcomes in order to inform personal, public, and private sector investments.

Enhanced wage records (element 2) is a strength for **Indiana**, which is one of nine states Leading in this element. Researcher access (element 8) also is a strength.

COLLECT

State data system elements	State description	Category
1. Includes learner-level and program characteristic data for nondegree and noncredit postsecondary education and training programs	Indiana, through the Ivy Tech Community College system, collects enrollment and completion data for college-issued, noncredit credentials. The state is implementing a collection of other third-party credentials. Indiana links college-issued, noncredit credentials to employment outcomes.	ADVANCED
2. Examines earnings by occupation, pay rate, and work location	In 2025, the state passed legislation mandating the collection of occupation (SOC or job title), pay rate, and worker type (full-time, part-time, seasonal, intern, or apprentice). Indiana leverages these enhancements in PIVOT, the state's workforce recommendation engine.	LEADING

INTEGRATE

State data system elements	State description	Category
3. Integrates and delivers information on learners' earnings and employment after postsecondary education and training completion, and over time	Indiana integrates information on employment and earnings from administrative sources with its (i) public four-year institutions and (ii) community colleges. The state publishes these employment outcomes as interactive resources, including through the Hoosiers by the Numbers website and the Education-Workforce Pipelines Report. These outcomes are not available disaggregated by race/ethnicity, gender, or family income/economic status. The state does not integrate administrative employment and earnings data with private four-year institutions.	ADVANCED
4. Integrates and delivers information on learners' earnings and employment after high school completion and over time	Indiana integrates information on employment and earnings from administrative sources with high school completion. The state publishes these employment outcomes as interactive resources through the Education-Workforce Pipelines Report. Additionally, the Sustained Employment dashboard available through the Indiana Graduates Prepared to Succeed website includes the employment rate of high school graduates with disaggregation by race/ethnicity, family income/economic status, and English language learner status.	ADVANCED
5. Partners with national and multi-state initiatives to assess education-to-opportunity outcomes for graduates and non-graduates of postsecondary education and training programs who relocate or work outside the state	Indiana partners with PSEO (>75% graduate coverage) and the State Wage Interchange System.	ADVANCED

Clear Outcomes

ADVANCED

PROVIDE

State data system elements	State description	Category
6. Provides comprehensive and timely open data files containing anonymized education-to-opportunity statistics that anyone can access, download, and otherwise use	The Indiana Management Performance Hub maintains the Indiana Data Hub, the state's open data portal, and publishes open datasets, including high school-to-employment outcomes. While not meeting the criteria of this element, the Commission for Higher Education also publishes reports. The published files, however, contain only enrollment, persistence, and completion metrics with no employment outcomes.	DEVELOPING
7. Publishes robust, timely, and easily understandable interactive resources informing education-to-opportunity decision-making by learners, families, and institutions	Indiana publishes an interactive resource containing education-to-employment outcomes for public four-year institutions and community colleges.	ADVANCED
8. Gives researchers access to individual-level matched education-to-opportunity datasets	The Indiana Management Performance Hub has individual-level matched education-to-opportunity datasets for third-party researcher access and has a clear description of the request and approval processes. Researchers also may request access to individual-level higher education data through the Commission for Higher Education.	LEADING

IMPACT

State data system elements	State description	Category
9. Enables learners and earners to access and utilize their own verified data, unlocking opportunities for college and career advancement	Indiana continues to build the foundational infrastructure for credential transparency and skills-based hiring. The Indiana Commission for Higher Education regularly updates the Indiana Credential Registry to ensure it can accurately power state tools including the Indiana School Finder and the Career Explorer Tool. The Indiana Chamber of Commerce hosts free skills-based hiring workshops, reporting a three-point year-over-year increase in employer adoption of skills-based hiring practices across manufacturing, information technology, construction, professional services, and Healthcare.	DEVELOPING
10. Designates a unit with responsibility and dedicated, full-time capacity for generating education-to-employment insights to inform state policymaking and resource allocation decision-making	In 2026, the Indiana legislature passed SB 254, directing the Indiana Economic Development Corporation, in collaboration with education and economic development agencies, to create an E2E research program. This program would develop an E2E data sharing framework to support return-on-investment analysis, labor market alignment, and statewide talent planning. The Indiana Management Performance Hub (MPH), through its Education and Workforce Development database, has ready access to integrated E2E data and strong partnerships with higher education, workforce development, and economic development agencies. MPH and these partner agencies produce reports and other tools for E2E stakeholders, including the Education-Workforce Pipelines Report, which captures labor market supply and demand. To carry out these functions, MPH relies on dedicated funding and staffing as well as a cross-agency Data Governance Council.	ADVANCED

Quality Coaching

Indiana 2026

BACHELOR'S ADVANCED ASSOCIATE ADVANCED

Everyone should have access to coaching that helps them reflect on their talents and interests, choose a career goal, chart a path, and navigate challenges. The Quality Coaching measure is based on the percentage of associate students and bachelor's senior students who reported receiving personalized guidance, timely labor market information, and support to create a plan and overcome barriers.

Indiana improved from Developing to Advanced in overall Quality Coaching for students at bachelor's degree institutions. As is the case with most states, rates of bachelor's students receiving labor market information by the end of their first year of college increased. Bachelor's students' experiences with support is another bright spot, and the state is one of five categorized as Leading in this element. This is the first report with available Quality Coaching data for Indiana's associate degree institutions.

	Bachelor's		Associate	
	State	National	State	National
PERSONALIZED GUIDANCE

Affordability

BACHELOR'S ADVANCED ASSOCIATE LEADING

A quality postsecondary education should be within everyone's reach, with clear, predictable, and manageable costs. The Affordability measure is based on how many hours a week the average student would need to work to cover the in-state net price (total cost of attendance minus any grants and scholarships), how many hours a student from a low-income family would need to work to cover their typical in-state net price, and the percentage of students that complete their degree on time – a critical factor in the cost of a degree.

Indiana is one of 15 states categorized as Advanced or Leading in overall affordability at bachelor's degree institutions. Net prices for low-income bachelor's students decreased, and Indiana remains Leading in this element.

	Bachelor's		Associate	
	State	National	State	National
STUDENT HOURS OF WORK NEEDED				
Average student hours of work needed	DEVELOPING **21 hours per week** Average annual net price: $12,875	**26 hours per week** Average annual net price: $15,270	ADVANCED **10 hours per week** Average annual net price: $8,809	**8 hours per week** Average annual net price: $8,089
Low-income student hours of work needed	LEADING **2 hours per week** Average annual net price for low-income students: $5,721	**12 hours per week** Average annual net price for low-income students: $9,813	LEADING **3 hours per week** Average annual net price for low-income students: $5,948	**4 hours per week** Average annual net price for low-income students: $6,678

Work-Based Learning

BACHELOR'S DEV./ADV.

All students should have access to paid, immersive work-based learning experiences that connect education to career. The Work-Based Learning measure is based on the percentage of bachelor's senior students who reported participating in at least one of the following types of paid experiences: paid internship, paid apprenticeship, paid co-op, paid practicum, or paid undergraduate research experience. For students at associate degree institutions, participation is reported when data are available, but states are not categorized.

Students at **Indiana's** bachelor's degree institutions participate in paid work-based learning at higher rates than students nationally. This is the first report with available work-based learning data for students at Indiana's associate degree institutions.

	Bachelor's		Associate	
	State	National	State	National
QUALITY WORK-BASED LEARNING				
Percentage of students at public institutions who participated in at least one of the five types of quality paid work-based learning experiences	DEV./ADV. **51%**	**43%**	**18%**	**14%**
Paid internship participation	44%	35%	8%	10%
Percentage of students who participated in at least one of the five types of experiences (paid or unpaid)	79%	71%	42%	30%

Category Key

- **Foundational** <25%
- **Developing** 25% to <50%
- **Advanced** 50% to <75%
- **Leading** ≥75%

When the margin of error crosses a category threshold, states are given a combined category.

In addition to student self-reporting of apprenticeship participation, states have other sources of information on participation in registered apprenticeships via the U.S. Department of Labor. In Indiana, 0.66 percent of the state labor force is made up of active apprentices, for a total of 22,883 apprentices. Across the country, this number ranges from 0.86 percent (Hawaii) to 0.12 percent (Oklahoma). In countries with leading apprenticeship systems, such as Germany, Switzerland, Australia, Canada, and England, apprentices constitute about 2.5–3.0 percent of the labor force, so all states in the U.S. have substantial room for improvement.

Employer Alignment

DEVELOPING

Students should have access to programs that lead to quality jobs and employers should be able to find the talent they need to fill high-wage roles. The Employer Alignment measure is based on the percentage of terminal bachelor's degree holders aged 25-34 employed in a college-level job as well as the supply/demand ratio for a set of high-demand, high-wage jobs in each state.

Indiana is one of 21 states and jurisdictions categorized as Advanced in college-level employment among recent bachelor's degree graduates with a rate of 60 percent, the same as the national average. It is on par with most other states in its overall supply/demand ratio and saw improvements in supply/demand for finance and accounting professionals from Advanced to Leading, and for nursing and manufacturing/trades technicians and technologists from Foundational to Developing.

COLLEGE-LEVEL EMPLOYMENT			
The percentage of bachelor's degree graduates who are employed in college-level jobs		60%	ADVANCED

EXTERNAL AFFORDABILITY METRICS		
State appropriations per student FTE, public four-year institutions, FY2025 *(Source: SHEEO SHEF Annual Report)*	$7,725	$11,166
State appropriations per student FTE, public two-year institutions, FY2025 *(Source: SHEEO SHEF Annual Report)*	$5,474	$11,096
FAFSA completion rate, high school class of 2026 (through July 1, 2026) *(Source: NCAN)*	60%	59%
150% completion rate, first-time full-time students, bachelor's degree institutions, 2023-24 *(Source: College Scorecard)*	66%	64%
150% completion rate, first-time full-time Pell recipients, bachelor's degree institutions, 2023-24 *(Source: College Scorecard)*	50%	53%

If we get this right, here's what the future could look like: A young person or adult explores options with a career coach. They have data on jobs and earnings by program. They know costs up front, and public options are affordable and accessible. They engage in paid work-based learning, building skills and clarifying goals. By completion, they don't just hold a credential (or a few).
They have a good job, experience, and momentum toward a better future.
