State Opportunity Index

Rhode Island

State Summary 2026

Rhode Island at a glance

THE STATE OPPORTUNITY INDEX is a framework for measuring and improving education-to-career outcomes. For each state, the Index reports the percentage of graduates who experience a positive return on investment and summarizes progress in five key areas for improving success beyond completion: Clear Outcomes, Quality Coaching, Affordability, Work-Based Learning, and Employer Alignment. States are grouped into four categories: Leading (at the forefront, demonstrating strong progress); Advanced (substantial progress); Developing (early stages of improvement); and Foundational (just beginning their journey).

Rhode Island is among 17 states Leading in Clear Outcomes. Quality Coaching for associate students is Advanced (no states are Leading). The state also is among 35 states and jurisdictions Leading in Affordability at associate degree institutions and among five states and jurisdictions Advanced in Employer Alignment (no states are Leading). To learn more about progress in other states, visit strada.org/state-opportunity-index.

Clear Outcomes		LEADING

	ASSOCIATE	ADVANCED
Affordability	BACHELOR'S	ADVANCED
	ASSOCIATE	LEADING
Work-Based Learning	BACHELOR'S	DEVELOPING
Employer Alignment		ADVANCED

State Opportunity Index

strada

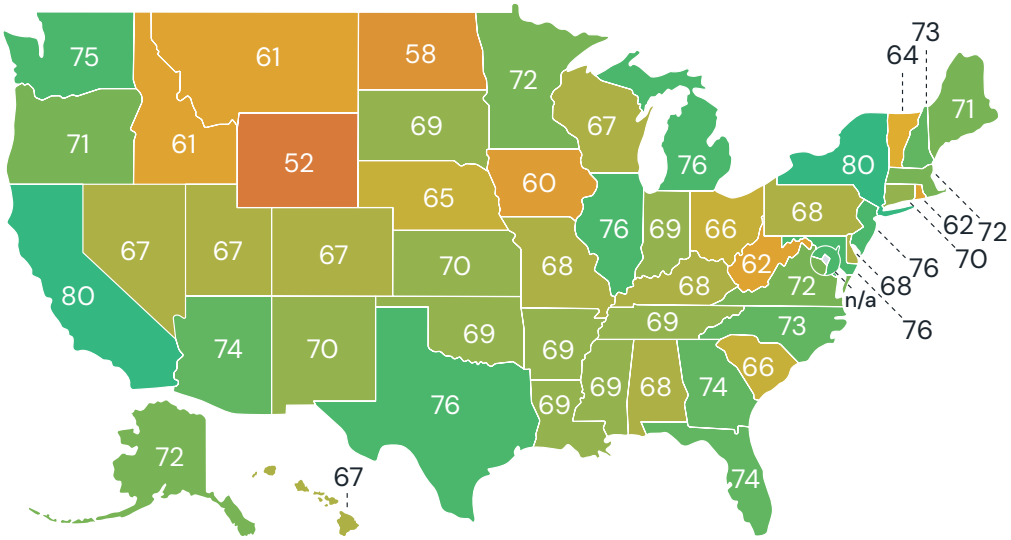

In cases in which the margin of error crosses a category threshold, states are given a combined category.
References for "unavailable" refer to states in which there was insufficient data to assign a rating at this time.

Positive ROI

	Rhode Island	National
Overall	60%	70%
Bachelor's	62%	73%
Associate	54%	60%

All students who invest their time and money in earning a degree should be financially better off because of it. The Positive ROI value for each state represents the estimated percentage of public college graduates whose earnings premium over high school graduates is enough to repay their total cost of a degree within 10 years.

Percentage of graduates with Positive 10-year ROI by state - bachelor's degrees

Percentage of graduates with Positive 10-year ROI by state - associate degrees

Clear Outcomes

LEADING

Everyone should have access to accurate information on employment outcomes that can help them make informed decisions about education after high school. The Clear Outcomes measure is based on 10 critical elements that contribute to the capacity of state education-to-employment data systems to clarify education pathway outcomes in order to inform personal, public, and private sector investments.

Nondegree and noncredit data (element 1) and integrating high school completion and employment data (element 4) are strengths for **Rhode Island**, and it is one of 16 and 15 states, respectively, that are Leading in these elements.

COLLECT

State data system elements	State description	Category
1. Includes learner-level and program characteristic data for nondegree and noncredit postsecondary education and training programs	Rhode Island collects enrollment and completion data for: (i) college-issued, noncredit credentials; (ii) WIOA-eligible training providers; (iii) occupational licensure; and (iv) other third-party credentials, including apprenticeships and industry certifications. Rhode Island publishes the employment outcomes for many of these nondegree and noncredit programs, including college-issued, noncredit credentials through its Credentials of Value dashboard and licenses through its Health Workforce Data Dashboard.	LEADING
2. Examines earnings by occupation, pay rate, and work location	Rhode Island collects pay rate (hours and weeks worked) but does not collect occupation or work location.	ADVANCED

INTEGRATE

State data system elements	State description	Category
3. Integrates and delivers information on learners' earnings and employment after postsecondary education and training completion, and over time	Rhode Island integrates administrative records on employment and earnings with its (i) public four-year institutions and (ii) community college. The state publishes these employment outcomes through its Greater Newport Dashboard. These employment outcomes are disaggregated by race/ethnicity, gender, family income/economic status, and other learner characteristics. Rhode Island collects enrollment and completion records from select private four-year institutions, but the state does not integrate these records with information on employment and earnings from administrative sources.	ADVANCED
4. Integrates and delivers information on learners' earnings and employment after high school completion and over time	Rhode Island integrates administrative information on employment and earnings with high school completion records. The state publishes these employment outcomes as an open aggregate dataset and an interactive resource with disaggregation by race/ethnicity, gender, and family income/economic status.	LEADING
5. Partners with national and multi-state initiatives to assess education-to-opportunity outcomes for graduates and non-graduates of postsecondary education and training programs who relocate or work outside the state	Rhode Island partners with the Multi-State Data Collaborative and the State Wage Interchange System. Two private four-year institutions in Rhode Island partner with PSEO.	ADVANCED

Rhode Island 2026

PROVIDE

State data system elements	State description	Category
6. Provides comprehensive and timely open data files containing anonymized education-to-opportunity statistics that anyone can access, download, and otherwise use	Rhode Island publishes an open dataset containing education-to-employment outcomes for high schools with disaggregation by race/ethnicity and gender. Additionally, the state publishes enrollment and completion metrics for public four-year institutions and community colleges.	DEVELOPING
7. Publishes robust, timely, and easily understandable interactive resources informing education-to-opportunity decision-making by learners, families, and institutions	Rhode Island publishes an interactive resource containing education-to-employment outcomes for public four-year institutions and community colleges, but the outcomes cannot be disaggregated by institution or program. The state publishes separate interactive resources for nondegree credentials, WIOA-eligible training providers, and high schools.	LEADING
8. Gives researchers access to individual-level matched education-to-opportunity datasets	Rhode Island provides individual-level matched education-to-opportunity datasets to external researchers upon request. The state publishes a clear description of the request and review process as well as reports from completed projects.	LEADING

IMPACT

State data system elements	State description	Category
9. Enables learners and earners to access and utilize their own verified data, unlocking opportunities for college and career advancement	No evidence was identified through the state's response or in Strada's research of the state demonstrating this element.	FOUNDATIONAL
10. Designates a unit with responsibility and dedicated, full-time capacity for generating education-to-employment insights to inform state policymaking and resource allocation decision-making	The Rhode Island Longitudinal Data System (RILDS) Center is the state's centralized, authoritative source generating E2E insights, and the Center has ready access to integrated E2E data. There is evidence of sustainable funding, governance, and dedicated staffing as well as partnerships with higher education and workforce development agencies. The RILDS Center produces resources, reports, and other tools for E2E stakeholders, including reports on postsecondary employment outcomes, but does not report on supply/demand labor market attributes. Quality Coaching

Rhode Island 2026

BACHELOR'S **DEVELOPING** ASSOCIATE **ADVANCED**

Everyone should have access to coaching that helps them reflect on their talents and interests, choose a career goal, chart a path, and navigate challenges. The Quality Coaching measure is based on the percentage of associate students and bachelor's senior students who reported receiving personalized guidance, timely labor market information, and support to create a plan and overcome barriers.

Rhode Island remains Developing in overall Quality Coaching for students at bachelor's degree institutions and Advanced at associate degree institutions. As is the case with most states, rates of bachelor's students receiving labor market information increased. At the associate level, Rhode Island performs strongly overall, and rates of students experiencing personalized guidance are above the national average.

	Bachelor's		Associate	
	State	National	State	National
PERSONALIZED GUIDANCE				
Percentage of students at public institutions who report receiving personalized coaching or guidance to help select the education that will help prepare them for a successful career	DEVELOPING **32%**	**35%**	DEV./ADV. **54%**	**45%**
TIMELY LABOR MARKET INFORMATION

- **Developing** 25% to <50%
- **Advanced** 50% to <75%
- **Leading** ≥75%

Affordability

BACHELOR'S **ADVANCED** ASSOCIATE **LEADING**

A quality postsecondary education should be within everyone's reach, with clear, predictable, and manageable costs. The Affordability measure is based on how many hours a week the average student would need to work to cover the in-state net price (total cost of attendance minus any grants and scholarships), how many hours a student from a low-income family would need to work to cover their typical in-state net price, and the percentage of students that complete their degree on time – a critical factor in the cost of a degree.

Rhode Island improved from Developing to Advanced in overall affordability at bachelor's degree institutions, making it one of 15 states categorized as Advanced or Leading. It performs particularly strongly in on-time completion, as one of 18 states where at least half of bachelor's students complete their degrees on time. It remains Leading overall at associate degree institutions, and is one of 35 Leading states and jurisdictions at the associate level.

	Bachelor's		Associate	
	State	National	State	National
STUDENT HOURS OF WORK NEEDED				
Average student hours of work needed	DEVELOPING **27 hours per week** Average annual net price: $17,472	**26 hours per week** Average annual net price: $15,270	LEADING **2 hours per week** Average annual net price: $6,513	**8 hours per week** Average annual net price: $8,089
Low-income student hours of work needed	ADVANCED **12 hours per week** Average annual net price for low-income students: $10,902	**12 hours per week** Average annual net price for low-income students: $9,813	LEADING **1 hour per week** Average annual net price for low-income students: $6,213	**4 hours per week** Average annual net price for low-income students: $6,678

- **Leading** ≥65%

Work-Based Learning

BACHELOR'S **DEVELOPING**

All students should have access to paid, immersive work-based learning experiences that connect education to career. The Work-Based Learning measure is based on the percentage of bachelor's senior students who reported participating in at least one of the following types of paid experiences: paid internship, paid apprenticeship, paid co-op, paid practicum, or paid undergraduate research experience. For students at associate degree institutions, participation is reported when data are available, but states are not categorized.

Rhode Island is on par with most other states in paid work-based learning participation. Participation is categorized as Developing for students at bachelor's degree institutions, along with 32 other states.

	Bachelor's		Associate	
	State	National	State	National
QUALITY WORK-BASED LEARNING				
Percentage of students at public institutions who participated in at least one of the five types of quality paid work-based learning experiences	DEVELOPING **42%**	**43%**	**13%**	**14%**
Paid internship participation	35%	35%	9%	10%
Percentage of students who participated in at least one of the five types of experiences (paid or unpaid)	77%	71%	37%	30%

Category Key

- **Foundational** <25%
- **Developing** 25% to <50%
- **Advanced** 50% to <75%
- **Leading** ≥75%

When the margin of error crosses a category threshold, states are given a combined category.

In addition to student self-reporting of apprenticeship participation, states have other sources of information on participation in registered apprenticeships via the U.S. Department of Labor. In Rhode Island, 0.41 percent of the state labor force is made up of active apprentices, for a total of 2,359 apprentices. Across the country, this number ranges from 0.86 percent (Hawaii) to 0.12 percent (Oklahoma). In countries with leading apprenticeship systems, such as Germany, Switzerland, Australia, Canada, and England, apprentices constitute about 2.5–3.0 percent of the labor force, so all states in the U.S. have substantial room for improvement.

Employer Alignment

ADVANCED

Students should have access to programs that lead to quality jobs and employers should be able to find the talent they need to fill high-wage roles. The Employer Alignment measure is based on the percentage of terminal bachelor's degree holders aged 25-34 employed in a college-level job as well as the supply/demand ratio for a set of high-demand, high-wage jobs in each state.

College-level employment in **Rhode Island** is 57 percent, compared to 60 percent nationally. Rhode Island is one of only five states and jurisdictions categorized as Advanced overall in Employer Alignment (no states are Leading). It also is one of only nine states that are Leading or Advanced in overall supply/demand ratio, and has bright spots across several occupational groups. The ratio for nursing improved from Developing to Leading, and it is one of five states that are Leading for this occupational group. Finance and accounting professionals also are a particular strength, with Rhode Island one of only four states Leading in its ratio for this occupational group. The ratio for manufacturing/trades technicians and technologists also improved from Advanced to Leading.

COLLEGE-LEVEL EMPLOYMENT

The following tables provide student responses for questions included in the 2026 State Opportunity Index survey.

	Bachelor's		Associate	
	State	National	State	National
SAMPLE SIZE				
Respondents, 2026	430	36,564	6	17,000
Respondents, 2025–26 combined	560	77,803	369	32,005
VALUE				
To what extent do you agree or disagree with the following statement, "My education will be worth the cost"?				
Strongly disagree	4%	4%	–	7%
Somewhat disagree	8%	9%	–	6%
Neither agree nor disagree	11%	9%	–	8%
Somewhat agree	34%	38%	–	28%
Strongly agree	43%	40%	–	52%
Thinking about how your education supports your career goals, how satisfied are you with how well your institution prepared you for the workforce? *(1: Not at all satisfied … 10: Extremely satisfied)*				
Average (1-10)	7.1	7.2	–	7.8
QUALITY COACHING				
Before choosing your major or program of study, how did you receive information on careers, salaries, job opportunities, etc.? *(Select all that apply)*				
One-on-one meeting with faculty or advisor	21%	22%	–	22%
Career fair, group workshop, orientation session, or in a class	29%	30%	–	23%
National job boards *(LinkedIn, GlassDoor, Indeed, Idealist)*	21%	28%	–	25%
College career portal *(Handshake, Symplicity)*	20%	20%	–	12%
Career assessment tools *(MyMajors, Career Coach)*	11%	14%	–	14%
Labor market tools *(Lightcast, O*NET, state workforce websites)*	4%	6%	–	7%
AI-based tools *(ChatGPT, Perplexity, CareerVillage, Roadtrip Nation)*	10%	13%	–	13%
Conversations with friends and family members	48%	52%	–	47%
Conversations with alumni, mentoring services, scholarship groups, etc.	16%	18%	–	13%
Email or newsletter	16%	16%	–	14%
Other	3%	5%	–	9%
None of these	12%	9%	–	12%
I have not yet chosen a program of study.	1%	1%	–	1%

	Bachelor's		Associate	
	State	National	State	National
WORK-BASED LEARNING				
During your time in college, have you participated in any of the following? *(Select all that apply)*				
Micro-Internship: short-term work experience, typically lasting four weeks or less, on a specific, employer-defined project	31%	23%	–	7%
Project-Based Learning Activity: real-world, employer-designed projects built as assignments within academic courses	32%	30%	–	12%
Service Learning: courses that combine academic instruction with community service, addressing a real-world need	25%	24%	–	12%
Externship: a short-term experience where a student shadows a professional to observe day-to-day duties to learn about a specific career field	24%	21%	–	10%
During your time in college, have you participated in any of the following? *(Select all that apply) [Paid or unpaid]*				
Internship: fixed-term position lasting longer than four weeks performing entry-level tasks for an employer	56%	47%	–	11%
Apprenticeship: paid job combining on-the-job training under an experienced mentor with classroom learning	8%	5%	–	4%
Co-op program: degree program that alternates periods of academic courses with paid work experiences	6%	4%	–	2%
Student teaching, practicum, clinical hours: closely supervised performance of professional responsibilities in a workplace setting	22%	20%	–	14%
Undergraduate research: experience outside of a course, typically working directly with a faculty member in a lab, on a project, or on a research team	20%	25%	–	6%
In-state participation: Student participation in at least one of the five paid experiences in the same state as their institution (paid internship, paid apprenticeship, paid co-op program, paid student teaching, practicum, clinical hours, paid undergraduate research)	25%	32%	–	10%
Did you get credit or a record on your transcript for any of your experiences? *(Select all that apply) [Shown to those who reported the work-based learning experience in question]*				
Internship: fixed-term position lasting longer than four weeks performing entry-level tasks for an employer	65%	52%	–	52%
Apprenticeship: paid job combining on-the-job training under an experienced mentor with classroom learning	49%	33%	–	41%
Co-op program: degree program that alternates periods of academic courses with paid work experiences	52%	47%	–	47%
Student teaching, practicum, clinical hours: closely supervised performance of professional responsibilities in a workplace setting	71%	62%	–	65%
Undergraduate research: experience outside of a course, typically working directly with a faculty member in a lab, on a project, or on a research team	60%	56%	–	38%

	Bachelor's		Associate	
	State	National	State	National
STUDENT WORK				
During the school year, how many hours do you spend in a typical seven-day week working for pay?				
Less than 10 hours per week	25%	16%	–	7%
10 to 19 hours per week	32%	30%	–	16%
20 to 29 hours per week	14%	18%	–	18%
30 hours or more per week	5%	14%	–	34%
Does not typically work while taking classes	24%	22%	–	24%
Do you consider yourself a student who works or a worker that goes to school?

EXTERNAL AFFORDABILITY METRICS		
State appropriations per student FTE, public four-year institutions, FY2025 *(Source: SHEEO SHEF Annual Report)*	$10,438	$11,166
State appropriations per student FTE, public two-year institutions, FY2025 *(Source: SHEEO SHEF Annual Report)*	$8,069	$11,096
FAFSA completion rate, high school class of 2026 (through July 1, 2026) *(Source: NCAN)*	61%	59%
150% completion rate, first-time full-time students, bachelor's degree institutions, 2023-24 *(Source: College Scorecard)*	68%	64%
150% completion rate, first-time full-time Pell recipients, bachelor's degree institutions, 2023-24 *(Source: College Scorecard)*	58%	53%

If we get this right, here's what the future could look like: A young person or adult explores options with a career coach. They have data on jobs and earnings by program. They know costs up front, and public options are affordable and accessible. They engage in paid work-based learning, building skills and clarifying goals. By completion, they don't just hold a credential (or a few).
They have a good job, experience, and momentum toward a better future.
