State Opportunity Index

South Carolina

State Summary 2026

South Carolina at a glance

THE STATE OPPORTUNITY INDEX is a framework for measuring and improving education-to-career outcomes. For each state, the Index reports the percentage of graduates who experience a positive return on investment and summarizes progress in five key areas for improving success beyond completion: Clear Outcomes, Quality Coaching, Affordability, Work-Based Learning, and Employer Alignment. States are grouped into four categories: Leading (at the forefront, demonstrating strong progress); Advanced (substantial progress); Developing (early stages of improvement); and Foundational (just beginning their journey).

South Carolina is among 22 states Advanced in Clear Outcomes (17 states are Leading). Quality Coaching for bachelor's students improved from Developing to Advanced, placing the state among five in this category (no states are Leading). The state also is among 35 states and jurisdictions Leading in Affordability at associate degree institutions. To learn more about progress in other states, visit strada.org/state-opportunity-index.

Clear Outcomes		ADVANCED
Quality Coaching	BACHELOR'S	ADVANCED
	ASSOCIATE	DEVELOPING
Affordability	BACHELOR'S	DEVELOPING
	ASSOCIATE	LEADING
Work-Based Learning	BACHELOR'S	DEV./ADV.
Employer Alignment		DEVELOPING

State Opportunity Index

strada

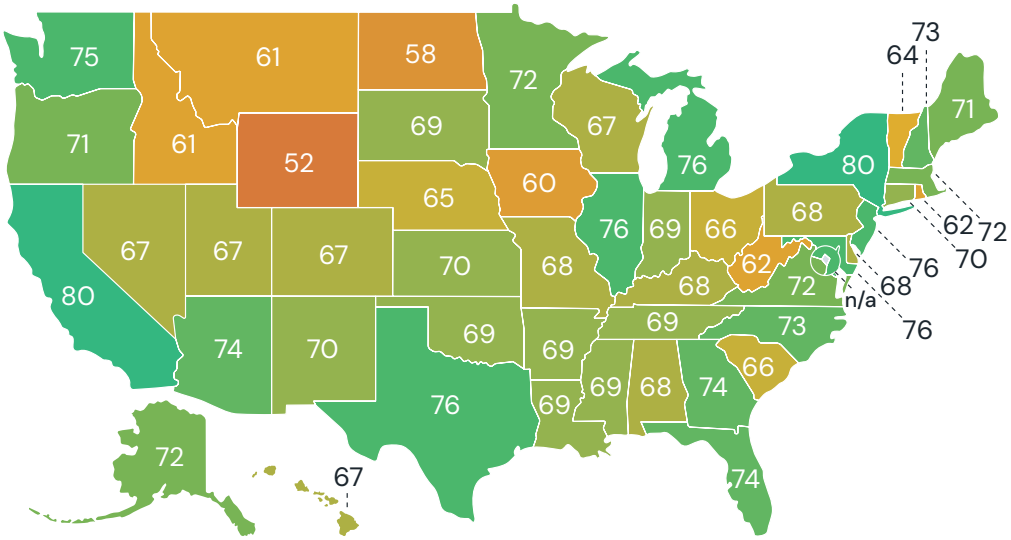

In cases in which the margin of error crosses a category threshold, states are given a combined category.
References for "unavailable" refer to states in which there was insufficient data to assign a rating at this time.

Positive ROI

	South Carolina	National
Overall	66%	70%
Bachelor's	66%	73%
Associate	67%	60%

All students who invest their time and money in earning a degree should be financially better off because of it. The Positive ROI value for each state represents the estimated percentage of public college graduates whose earnings premium over high school graduates is enough to repay their total cost of a degree within 10 years.

Percentage of graduates with Positive 10-year ROI by state - bachelor's degrees

Percentage of graduates with Positive 10-year ROI by state - associate degrees

Clear Outcomes

ADVANCED

Everyone should have access to accurate information on employment outcomes that can help them make informed decisions about education after high school. The Clear Outcomes measure is based on 10 critical elements that contribute to the capacity of state education-to-employment data systems to clarify education pathway outcomes in order to inform personal, public, and private sector investments.

South Carolina improved from Foundational to Developing in verified data for learning mobility (element 9) and from Developing to Advanced in having a designated unit for generating education-to-employment insights (element 10). Enhanced wage records (element 2) also are a strength, and it is one of nine states Leading in this element.

COLLECT

State data system elements	State description	Category
1. Includes learner-level and program characteristic data for nondegree and noncredit postsecondary education and training programs	South Carolina collects enrollment and completion data from college-issued, noncredit credentials through the South Carolina Technical College System (TCS). TCS is developing a common data system for both credit and noncredit programs, and the South Carolina Commission on Higher Education is developing nondegree program collections for the state's public four-year institutions.	DEVELOPING
2. Examines earnings by occupation, pay rate, and work location	South Carolina collects occupation (SOC code) and hours worked on a required basis but does not collect work location. The state is now using these enhancements in postsecondary education-to-employment analysis.	LEADING

INTEGRATE

State data system elements	State description	Category
3. Integrates and delivers information on learners' earnings and employment after postsecondary education and training completion, and over time	South Carolina integrates administrative records on employment and earnings with its (i) public four-year institutions and (ii) public two-year and technical colleges. The state publishes these employment outcomes as ad hoc reports for select programs through the Labor Market Information website. These employment outcomes are not disaggregated by student demographic categories. The state is developing an interactive resource, and the Office of Statewide Workforce Development will expand integration and publication of education-to-employment data to include all programs, whether public or private, receiving state or federal funds.	ADVANCED
4. Integrates and delivers information on learners' earnings and employment after high school completion and over time	South Carolina integrates employment and earnings information from administrative sources with high school completion records. The state publishes high school-to-employment outcomes through the South Carolina Education and Workforce Development Report. These employment outcomes are not disaggregated by race/ethnicity, gender, or family income/economic status.	ADVANCED
5. Partners with national and multi-state initiatives to assess education-to-opportunity outcomes for graduates and non-graduates of postsecondary education and training programs who relocate or work outside the state	South Carolina partners with PSEO (>75% graduate coverage), the Multi-State Data Collaborative, and the State Wage Interchange System.	LEADING

South Carolina 2026

PROVIDE

State data system elements	State description	Category
6. Provides comprehensive and timely open data files containing anonymized education-to-opportunity statistics that anyone can access, download, and otherwise use	South Carolina is developing the Find Your Future Portal to provide South Carolinians with information critical to their lifelong educational journey, including aggregate education-to-employment statistics.	DEVELOPING
7. Publishes robust, timely, and easily understandable interactive resources informing education-to-opportunity decision-making by learners, families, and institutions	South Carolina publishes an interactive reporting tool through the Palmetto Academic and Training Hub containing education-to-employment statistics for WIOA-eligible training providers. The state is developing interactive resources containing postsecondary education-to-employment statistics based on administrative records. While not meeting the criteria for this element, South Carolina also publishes a Priority Occupation dashboard and an Education Matchmaker dashboard to support education and career exploration.	DEVELOPING
8. Gives researchers access to individual-level matched education-to-opportunity datasets	The South Carolina Revenue and Fiscal Affairs Office (RFA) manages the SLDS and works with state agencies and external researchers. The RFA clearly describes the research request and review process and coordinates this process with all agencies whose data are requested. Additionally, the South Carolina Department of Employment and Workforce provides staff at public colleges and universities with access to the state's enhanced wage records and publishes an online form to facilitate researcher requests.	LEADING

IMPACT

State data system elements	State description	Category
9. Enables learners and earners to access and utilize their own verified data, unlocking opportunities for college and career advancement	South Carolina is developing the Find Your Future Portal. The Portal will empower learners and earners to validate knowledge and skills, and access and use their own verified achievements to navigate lifelong learning pathways and connect with opportunities. In June 2026, South Carolina was selected a semifinalist for the Connecting Talent to Opportunity Challenge to strengthen connections between learners and earners by accelerating the development of a statewide talent marketplace.	DEVELOPING
10. Designates a unit with responsibility and dedicated, full-time capacity for generating education-to-employment insights to inform state policymaking and resource allocation decision-making	South Carolina's Coordinating Council for Workforce Development is directed by the state legislation to generate E2E insights. The Research and Innovation Committee of the Council has partnerships with higher education, workforce development, and economic development agencies as well as the Office of Revenue and Fiscal Affairs, which integrates information as needed for research requests. The Committee is staffed by employees of the South Carolina Office of Statewide Workforce Development. The Committee publishes the Annual Postsecondary Supply Gap Analysis report.	ADVANCED

Quality Coaching

South Carolina 2026

BACHELOR'S **ADVANCED** ASSOCIATE **DEVELOPING**

Everyone should have access to coaching that helps them reflect on their talents and interests, choose a career goal, chart a path, and navigate challenges. The Quality Coaching measure is based on the percentage of associate students and bachelor's senior students who reported receiving personalized guidance, timely labor market information, and support to create a plan and overcome barriers.

South Carolina improved from Developing to Advanced in overall Quality Coaching for students at bachelor's degree institutions, while it declined from Advanced to Developing at the associate level. As is the case with most other states, the rate of bachelor's students receiving labor market information by the end of their first year of college increased. Additionally, bachelor's students' experiences with support are a bright spot, and South Carolina is one of five states categorized as Leading in this element.

	Bachelor's		Associate	
	State	National	State	National
PERSONALIZED GUIDANCE				
Percentage of students at public institutions who report receiving personalized coaching or guidance to help select the education that will help prepare them for a successful career	DEVELOPING **40%**	**35%**	DEVELOPING **40%**	**45%**
TIMELY LABOR MARKET INFORMATION				
The average share of students at public institutions who receive timely labor market information, across the various types below, before enrolling or during their first year	DEVELOPING **27%**	**26%**	DEVELOPING **34%**	**35%**
Education-to-career paths that might be a good fit for students' strengths and interests	36%	34%	45%	45%
Job opportunities that a particular education program could lead to	20%	21%	31%	31%
Potential earnings in different careers related to students' education program	33%	30%	40%	40%
Career outcomes of students from their own institution	19%	17%	21%	23%
SUPPORT				
The average share of students at public institutions who receive at least some support in setting goals and in overcoming obstacles	LEADING **78%**	**72%**	ADV./LEAD. **72%**	**73%**
Setting education and career goals, and developing a plan to achieve these goals	77%	71%	73%	73%

- **Developing** 25% to <50%
- **Advanced** 50% to <75%
- **Leading** ≥75%

Affordability

BACHELOR'S **DEVELOPING** ASSOCIATE **LEADING**

A quality postsecondary education should be within everyone's reach, with clear, predictable, and manageable costs. The Affordability measure is based on how many hours a week the average student would need to work to cover the in-state net price (total cost of attendance minus any grants and scholarships), how many hours a student from a low-income family would need to work to cover their typical in-state net price, and the percentage of students that complete their degree on time – a critical factor in the cost of a degree.

Higher net prices mean that **South Carolina's** bachelor's students would need to work more hours to cover college costs than students in most other states. On-time completion is a relative strength, however, as South Carolina is one of 18 states where at least half of bachelor's students complete their degrees on time. Despite rising net prices at associate degree institutions, it remains Leading overall along with 34 other states and jurisdictions at the associate level.

	Bachelor's		Associate	
	State	National	State	National
STUDENT HOURS OF WORK NEEDED				
Average student hours of work needed	FOUNDATIONAL **42 hours per week** Average annual net price: $18,823	**26 hours per week** Average annual net price: $15,270	LEADING **8 hours per week** Average annual net price: $7,399	**8 hours per week** Average annual net price: $8,089
Low-income student hours of work needed	DEVELOPING **23 hours per week** Average annual net price for low-income students: $12,529	**12 hours per week** Average annual net price for low-income students: $9,813	LEADING **6 hours per week** Average annual net price for low-income students: $6,734	**4 hours per week** Average annual net price for low-income students: $6,678

Work-Based Learning

BACHELOR'S DEV./ADV.

All students should have access to paid, immersive work-based learning experiences that connect education to career. The Work-Based Learning measure is based on the percentage of bachelor's senior students who reported participating in at least one of the following types of paid experiences: paid internship, paid apprenticeship, paid co-op, paid practicum, or paid undergraduate research experience. For students at associate degree institutions, participation is reported when data are available, but states are not categorized.

Students at **South Carolina's** bachelor's degree institutions participate in paid work-based learning at higher rates than most other states.

	Bachelor's		Associate	
	State	National	State	National
QUALITY WORK-BASED LEARNING				
Percentage of students at public institutions who participated in at least one of the five types of quality paid work-based learning experiences	DEV./ADV. **48%**	**43%**	**10%**	**14%**
Paid internship participation	41%	35%	4%	10%
Percentage of students who participated in at least one of the five types of experiences (paid or unpaid)	79%	71%	30%	30%

Category Key

- **Foundational** <25%
- **Developing** 25% to <50%
- **Advanced** 50% to <75%
- **Leading** ≥75%

When the margin of error crosses a category threshold, states are given a combined category.

In addition to student self-reporting of apprenticeship participation, states have other sources of information on participation in registered apprenticeships via the U.S. Department of Labor. In South Carolina, 0.26 percent of the state labor force is made up of active apprentices, for a total of 6,951 apprentices. Across the country, this number ranges from 0.86 percent (Hawaii) to 0.12 percent (Oklahoma). In countries with leading apprenticeship systems, such as Germany, Switzerland, Australia, Canada, and England, apprentices constitute about 2.5-3.0 percent of the labor force, so all states in the U.S. have substantial room for improvement.

Employer Alignment

DEVELOPING

Students should have access to programs that lead to quality jobs and employers should be able to find the talent they need to fill high-wage roles. The Employer Alignment measure is based on the percentage of terminal bachelor's degree holders aged 25-34 employed in a college-level job as well as the supply/demand ratio for a set of high-demand, high-wage jobs in each state.

College-level employment in **South Carolina** is 57 percent, compared to 60 percent nationally. South Carolina improved from Foundational to Developing in both the overall supply/demand ratio and the supply/demand ratio for manufacturing/trades technicians and technologists.

COLLEGE-LEVEL EMPLOYMENT			
The percentage of bachelor's degree graduates who are employed in college-level jobs		57%	DEVELOPING
SUPPLY/DEMAND RATIO

	State	National
EXTERNAL AFFORDABILITY METRICS		
State appropriations per student FTE, public four-year institutions, FY2025 *(Source: SHEEO SHEF Annual Report)*	$9,021	$11,166
State appropriations per student FTE, public two-year institutions, FY2025 *(Source: SHEEO SHEF Annual Report)*	$9,006	$11,096
FAFSA completion rate, high school class of 2026 (through July 1, 2026) *(Source: NCAN)*	63%	59%
150% completion rate, first-time full-time students, bachelor's degree institutions, 2023-24 *(Source: College Scorecard)*	67%	64%
150% completion rate, first-time full-time Pell recipients, bachelor's degree institutions, 2023-24 *(Source: College Scorecard)*	51%	53%

If we get this right, here's what the future could look like: A young person or adult explores options with a career coach. They have data on jobs and earnings by program. They know costs up front, and public options are affordable and accessible. They engage in paid work-based learning, building skills and clarifying goals. By completion, they don't just hold a credential (or a few).
They have a good job, experience, and momentum toward a better future.
