State Opportunity Index

Washington

State Summary 2026

Washington at a glance

THE STATE OPPORTUNITY INDEX is a framework for measuring and improving education-to-career outcomes. For each state, the Index reports the percentage of graduates who experience a positive return on investment and summarizes progress in five key areas for improving success beyond completion: Clear Outcomes, Quality Coaching, Affordability, Work-Based Learning, and Employer Alignment. States are grouped into four categories: Leading (at the forefront, demonstrating strong progress); Advanced (substantial progress); Developing (early stages of improvement); and Foundational (just beginning their journey).

Washington is among 17 states Leading in Clear Outcomes. The state also is among 35 states and jurisdictions Leading in Affordability at associate degree institutions. To learn more about progress in other states, visit strada.org/state-opportunity-index.

State Opportunity Index

strada

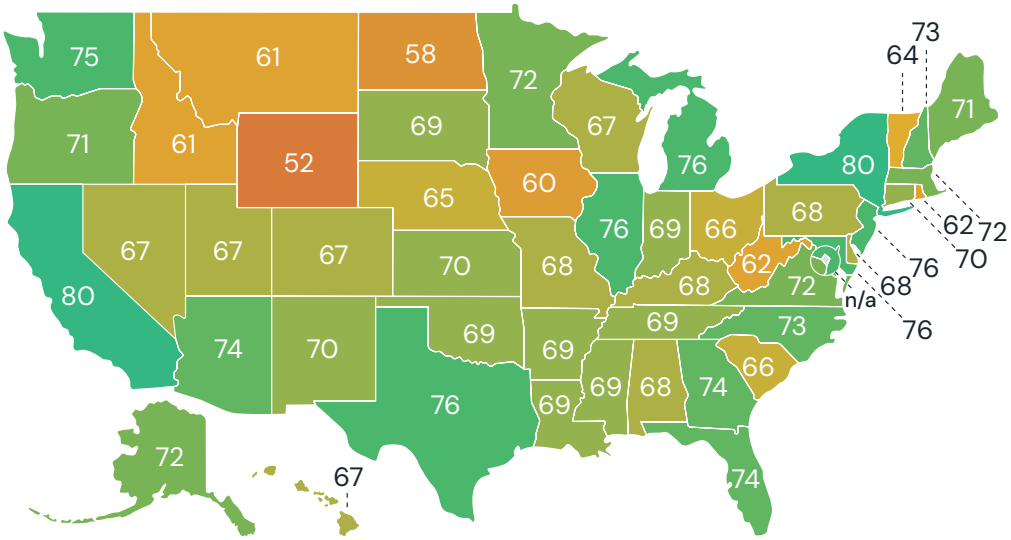

In cases in which the margin of error crosses a category threshold, states are given a combined category.
References for "unavailable" refer to states in which there was insufficient data to assign a rating at this time.

Positive ROI

	Washington	National
Overall	73%	70%
Bachelor's	75%	73%
Associate	63%	60%

All students who invest their time and money in earning a degree should be financially better off because of it. The Positive ROI value for each state represents the estimated percentage of public college graduates whose earnings premium over high school graduates is enough to repay their total cost of a degree within 10 years.

Percentage of graduates with Positive 10-year ROI by state - bachelor's degrees

Percentage of graduates with Positive 10-year ROI by state - associate degrees

Clear Outcomes

LEADING

Washington 2026

Everyone should have access to accurate information on employment outcomes that can help them make informed decisions about education after high school. The Clear Outcomes measure is based on 10 critical elements that contribute to the capacity of state education-to-employment data systems to clarify education pathway outcomes in order to inform personal, public, and private sector investments.

Washington improved from Foundational to Advanced in partnerships for outcomes data outside the state (element 5), and from Foundational to Developing in verified data for learning mobility (element 9). Enhanced wage records (element 2) also are a strength, and it is one of nine states Leading in this element.

COLLECT

State data system elements	State description	Category
1. Includes learner-level and program characteristic data for nondegree and noncredit postsecondary education and training programs	Washington collects enrollment and credential outcome data for: (i) college-issued, noncredit credentials; (ii) WIOA-eligible training providers; and (iii) apprenticeships. The state integrates administrative records on employment and earnings with these nondegree credentials. The Education Research and Data Center publishes employment outcomes of apprenticeships in the High School Graduate Outcomes Dashboard. The Workforce Training and Education Coordinating Board also publishes employment outcomes for WIOA-eligible training providers through the Workforce Training Results Report and CareerBridge site.	LEADING
2. Examines earnings by occupation, pay rate, and work location	Washington collects occupation (job title and SOC) and pay rate (hours worked). The state does not collect work location.	LEADING

INTEGRATE

State data system elements	State description	Category
3. Integrates and delivers information on learners' earnings and employment after postsecondary education and training completion, and over time	Washington integrates administrative employment and earnings data with its (i) public four-year institutions; (ii) some private four-year institutions; and (iii) community colleges. The state publishes employment outcomes for public four-year institutions and community colleges as downloadable datasets and an interactive resource through the Education Research and Data Center. Washington publishes employment outcomes for some private four-year institutions as an interactive resource through the CareerBridge site. These employment outcomes are not disaggregated by student demographic characteristics.	ADVANCED
4. Integrates and delivers information on learners' earnings and employment after high school completion and over time	Washington integrates administrative employment and earnings data with high school completion records. Washington publishes these employment outcomes as an interactive resource through the High School Graduates Outcomes Dashboard with disaggregation by race/ethnicity, gender, and other student characteristics. The state also publishes high school-to-employment data as open datasets on its Open Data Portal.	LEADING
5. Partners with national and multi-state initiatives to assess education-to-opportunity outcomes for graduates and non-graduates of postsecondary education and training programs who relocate or work outside the state	The Workforce Training and Education Coordinating Board partners with the State Wage Interchange System. The Education Research and Data Center and the Washington State Board for Community and Technical Colleges are in the process of partnering with PSEO.	ADVANCED

Clear Outcomes

LEADING

Washington 2026

PROVIDE

State data system elements	State description	Category
6. Provides comprehensive and timely open data files containing anonymized education-to-opportunity statistics that anyone can access, download, and otherwise use	Washington publishes an interactive resource featuring downloadable datasets containing education-to-employment outcomes for public four-year institutions and community colleges. Additionally, the state publishes high school-to-employment data as open datasets on the state's Open Data Portal.	LEADING
7. Publishes robust, timely, and easily understandable interactive resources informing education-to-opportunity decision-making by learners, families, and institutions	Washington publishes an interactive resource containing education-to-employment outcomes for public four-year institutions and community colleges. The state publishes separate interactive resources containing employment outcomes for some private four-year institutions and WIOA-eligible training providers and high schools.	LEADING
8. Gives researchers access to individual-level matched education-to-opportunity datasets	Washington provides researchers with deidentified, record-level matched education-to-employment data. The state clearly documents the request and review process and has published a research agenda.	LEADING

IMPACT

State data system elements	State description	Category
9. Enables learners and earners to access and utilize their own verified data, unlocking opportunities for college and career advancement	The Washington State Board for Community and Technical Colleges issues digital badges in recognition of learners' skills and achievements, and Eastern Washington University (EWU) provides nearly 50 therapeutic recreation students with a digital achievement wallet. Additionally, through an LER Accelerator Grant award, EWU will develop an LER to enable linking students' validated credentials and skills directly to high-demand regional employment opportunities.	DEVELOPING
10. Designates a unit with responsibility and dedicated, full-time capacity for generating education-to-employment insights to inform state policymaking and resource allocation decision-making	The Education Research Data Center (ERDC) is Washington's centralized, authoritative source for generating E2E insights, with ready access to integrated E2E data for analysis and partnerships with higher education and workforce development agencies. ERDC publishes resources that report on postsecondary employment outcomes, though not on supply/demand labor market outcomes. There is evidence of sustainable funding, governance, and dedicated staffing. In Washington, the Employment Security Department provides labor market information.	ADVANCED

Quality Coaching

Washington 2026

BACHELOR'S **DEVELOPING** ASSOCIATE **DEVELOPING**

Everyone should have access to coaching that helps them reflect on their talents and interests, choose a career goal, chart a path, and navigate challenges. The Quality Coaching measure is based on the percentage of associate students and bachelor's senior students who reported receiving personalized guidance, timely labor market information, and support to create a plan and overcome barriers.

Washington improved from Foundational to Developing in overall Quality Coaching for students at bachelor's degree institutions. As is the case with most other states, the rate of bachelor's students receiving labor market information by the end of their first year increased. This is the first report with available Quality Coaching data for Washington's associate degree institutions, which are categorized as Developing overall, consistent with most other states. However, reports of personalized guidance trail national averages at both levels.

	Bachelor's		Associate	
	State	National	State	National
PERSONALIZED GUIDANCE

- **Developing** 25% to <50%
- **Advanced** 50% to <75%
- **Leading** ≥75%

Affordability

BACHELOR'S ADVANCED ASSOCIATE LEADING

A quality postsecondary education should be within everyone's reach, with clear, predictable, and manageable costs. The Affordability measure is based on how many hours a week the average student would need to work to cover the in-state net price (total cost of attendance minus any grants and scholarships), how many hours a student from a low-income family would need to work to cover their typical in-state net price, and the percentage of students that complete their degree on time – a critical factor in the cost of a degree.

Washington is one of 15 states categorized as Advanced or Leading in overall affordability at bachelor's degree institutions. It also performs strongly in on-time completion, as one of 18 states where at least half of bachelor's students complete their degrees on time. At the associate level, Washington remains categorized as Leading in overall affordability, along with 34 other states and jurisdictions.

	Bachelor's		Associate	
	State	National	State	National
STUDENT HOURS OF WORK NEEDED				
Average student hours of work needed	DEVELOPING **20 hours per week** Average annual net price: $15,928	**26 hours per week** Average annual net price: $15,270	LEADING **6 hours per week** Average annual net price: $9,137	**8 hours per week** Average annual net price: $8,089
Low-income student hours of work needed	LEADING **6 hours per week** Average annual net price for low-income students: $9,079	**12 hours per week** Average annual net price for low-income students: $9,813	LEADING **2 hours per week** Average annual net price for low-income students: $7,364	**4 hours per week** Average annual net price for low-income students: $6,678

Work-Based Learning

BACHELOR'S DEVELOPING

All students should have access to paid, immersive work-based learning experiences that connect education to career. The Work-Based Learning measure is based on the percentage of bachelor's senior students who reported participating in at least one of the following types of paid experiences: paid internship, paid apprenticeship, paid co-op, paid practicum, or paid undergraduate research experience. For students at associate degree institutions, participation is reported when data are available, but states are not categorized.

Participation rates in paid work-based learning among **Washington's** bachelor's and associate degree institutions are on par with national averages. This is the first report with available work-based learning data for Washington's associate degree students.

	Bachelor's		Associate	
	State	National	State	National
QUALITY WORK-BASED LEARNING				
Percentage of students at public institutions who participated in at least one of the five types of quality paid work-based learning experiences	DEVELOPING **39%**	**43%**	**20%**	**14%**
Paid internship participation	30%	35%	16%	10%
Percentage of students who participated in at least one of the five types of experiences (paid or unpaid)	69%	71%	49%	30%

Category Key

- **Foundational** <25%
- **Developing** 25% to <50%
- **Advanced** 50% to <75%
- **Leading** ≥75%

When the margin of error crosses a category threshold, states are given a combined category.

In addition to student self-reporting of apprenticeship participation, states have other sources of information on participation in registered apprenticeships via the U.S. Department of Labor. In Washington, 0.51 percent of the state labor force is made up of active apprentices, for a total of 20,771 apprentices. Across the country, this number ranges from 0.86 percent (Hawaii) to 0.12 percent (Oklahoma). In countries with leading apprenticeship systems, such as Germany, Switzerland, Australia, Canada, and England, apprentices constitute about 2.5-3.0 percent of the labor force, so all states in the U.S. have substantial room for improvement.

Employer Alignment

DEVELOPING

Students should have access to programs that lead to quality jobs and employers should be able to find the talent they need to fill high-wage roles. The Employer Alignment measure is based on the percentage of terminal bachelor's degree holders aged 25-34 employed in a college-level job as well as the supply/demand ratio for a set of high-demand, high-wage jobs in each state.

Washington is one of 21 states and jurisdictions categorized as Advanced in college-level employment among recent bachelor's degree graduates and has one of the highest college-level employment rates in the country at 62 percent, above the national average of 60 percent. Though its overall supply/demand ratio remains Foundational, the ratio for data analytics improved from Advanced to Leading, engineers improved from Foundational to Developing, information and cybersecurity from Developing to Leading, nursing from Foundational to Developing, and manufacturing/ trades technicians and technologists from Foundational to Leading.

COLLEGE-LEVEL EMPLOYMENT			
The percentage of bachelor's degree graduates who are employed in college-level jobs		62%	ADVANCED

The following tables provide student responses for questions included in the 2026 State Opportunity Index survey.

	Bachelor's		Associate	
	State	National	State	National
SAMPLE SIZE				
Respondents, 2026	454	36,564	71	17,000
Respondents, 2025–26 combined	985	77,803	185	32,005
VALUE				
To what extent do you agree or disagree with the following statement, "My education will be worth the cost"?				
Strongly disagree	6%	4%	–	7%
Somewhat disagree	11%	9%	–	6%
Neither agree nor disagree	9%	9%	–	8%
Somewhat agree	41%	38%	–	28%
Strongly agree	33%	40%	–	52%
Thinking about how your education supports your career goals, how satisfied are you with how well your institution prepared you for the workforce? *(1: Not at all satisfied … 10: Extremely satisfied)*				
Average (1-10)	7.0	7.2	–	7.8
QUALITY COACHING				
Before choosing your major or program of study, how did you receive information on careers, salaries, job opportunities, etc.? *(Select all that apply)*				
One-on-one meeting with faculty or advisor	23%	22%	–	22%
Career fair, group workshop, orientation session, or in a class	34%	30%	–	23%
National job boards *(LinkedIn, GlassDoor, Indeed, Idealist)*	28%	28%	–	25%
College career portal *(Handshake, Symplicity)*	23%	20%	–	12%
Career assessment tools *(MyMajors, Career Coach)*	13%	14%	–	14%
Labor market tools *(Lightcast, O*NET, state workforce websites)*	8%	6%	–	7%
AI-based tools *(ChatGPT, Perplexity, CareerVillage, Roadtrip Nation)*	11%	13%	–	13%
Conversations with friends and family members	53%	52%	–	47%
Conversations with alumni, mentoring services, scholarship groups, etc.	22%	18%	–	13%
Email or newsletter	17%	16%	–	14%
Other	6%	5%	–	9%
None of these	8%	9%	–	12%
I have not yet chosen a program of study.	1%	1%	–	1%

	Bachelor's		Associate	
	State	National	State	National
WORK-BASED LEARNING				
During your time in college, have you participated in any of the following? *(Select all that apply)*				
Micro-Internship: short-term work experience, typically lasting four weeks or less, on a specific, employer-defined project	20%	23%	–	7%
Project-Based Learning Activity: real-world, employer-designed projects built as assignments within academic courses	34%	30%	–	12%
Service Learning: courses that combine academic instruction with community service, addressing a real-world need	27%	24%	–	12%
Externship: a short-term experience where a student shadows a professional to observe day-to-day duties to learn about a specific career field	13%	21%	–	10%
During your time in college, have you participated in any of the following? *(Select all that apply) [Paid or unpaid]*				
Internship: fixed-term position lasting longer than four weeks performing entry-level tasks for an employer	45%	47%	–	11%
Apprenticeship: paid job combining on-the-job training under an experienced mentor with classroom learning	4%	5%	–	4%
Co-op program: degree program that alternates periods of academic courses with paid work experiences	2%	4%	–	2%
Student teaching, practicum, clinical hours: closely supervised performance of professional responsibilities in a workplace setting	15%	20%	–	14%
Undergraduate research: experience outside of a course, typically working directly with a faculty member in a lab, on a project, or on a research team	32%	25%	–	6%
In-state participation: Student participation in at least one of the five paid experiences in the same state as their institution (paid internship, paid apprenticeship, paid co-op program, paid student teaching, practicum, clinical hours, paid undergraduate research)	32%	32%	–	10%
Did you get credit or a record on your transcript for any of your experiences? *(Select all that apply) [Shown to those who reported the work-based learning experience in question]*				
Internship: fixed-term position lasting longer than four weeks performing entry-level tasks for an employer	52%	52%	–	52%
Apprenticeship: paid job combining on-the-job training under an experienced mentor with classroom learning	11%	33%	–	41%
Co-op program: degree program that alternates periods of academic courses with paid work experiences	50%	47%	–	47%
Student teaching, practicum, clinical hours: closely supervised performance of professional responsibilities in a workplace setting	68%	62%	–	65%
Undergraduate research: experience outside of a course, typically working directly with a faculty member in a lab, on a project, or on a research team	55%	56%	–	38%

	Bachelor's		Associate	
	State	National	State	National
STUDENT WORK				
During the school year, how many hours do you spend in a typical seven-day week working for pay?				
Less than 10 hours per week	17%	16%	–	7%
10 to 19 hours per week	37%	30%	–	16%
20 to 29 hours per week	13%	18%	–	18%
30 hours or more per week	6%	14%	–	34%
Does not typically work while taking classes	27%	22%	–	24%
Do you consider yourself a student who works or a worker that goes to school?				
A student who works	63%	65%	–	44%
A worker who goes to school	9%	13%	–	32%
Does not work	27%	22%	–	24%
Did you have an on-campus job at any point during the time you were enrolled in your current program? If so, what type of job(s) have you had? *(Select all that apply)*				
Academic and Research: Research assistant, lab assistant, or teaching assistant (TA) for a professor	16%	13%	–	3%
Specialized Campus Services: Library assistant, IT help desk technician, or fitness center attendant	8%	9%	–	3%
Peer-Based Roles: Tutor, Resident Assistant (RA), student government or student club role, peer advisor, or orientation leader	21%	12%	–	4%
Retail and Customer Service: Bookstore associate, convenience store clerk, or campus apparel shop worker	3%	5%	–	2%
Food Service and Hospitality: Dining hall staff, campus cafe barista, or catering assistant for university events	10%	7%	–	2%

	State	National
EXTERNAL AFFORDABILITY METRICS		
State appropriations per student FTE, public four-year institutions, FY2025 *(Source: SHEEO SHEF Annual Report)*	$8,071	$11,166
State appropriations per student FTE, public two-year institutions, FY2025 *(Source: SHEEO SHEF Annual Report)*	$12,883	$11,096
FAFSA completion rate, high school class of 2026 (through July 1, 2026) *(Source: NCAN)*	53%	59%
150% completion rate, first-time full-time students, bachelor's degree institutions, 2023-24 *(Source: College Scorecard)*	68%	64%
150% completion rate, first-time full-time Pell recipients, bachelor's degree institutions, 2023-24 *(Source: College Scorecard)*	57%	53%

If we get this right, here's what the future could look like: A young person or adult explores options with a career coach. They have data on jobs and earnings by program. They know costs up front, and public options are affordable and accessible. They engage in paid work-based learning, building skills and clarifying goals. By completion, they don't just hold a credential (or a few).
They have a good job, experience, and momentum toward a better future.
