# How Scaut helps

Our screening is cloud-based, simplifies hiring, and is based on reliable data

## Software as a Service

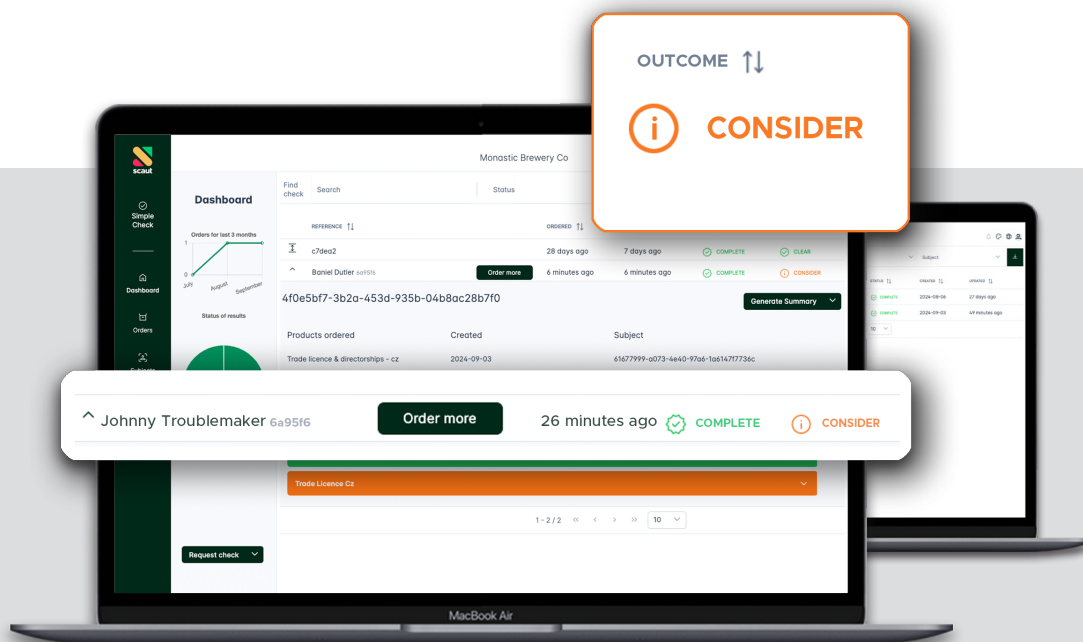

A cloud-based solution that allows employers to quickly and efficiently verify information provided by candidates. Our flexible platform allows users to tailor their solutions, whether that be individual verifications, or a subscription to a whole suite of checks and advanced features.

## Makes hiring easy

Scout helps simplify hiring processes, streamlining operations and ensuring that hiring practices meet both legal requirements and company standards. This holistic approach enhances the efficiency and security of the hiring process across the board.

## Data you can rely on

Using cutting-edge technology, our software utilizes the latest, most accurate and reliable data, empowering your organization to make informed decisions confidently. We are dedicated to verifying employee, contractor, and supplier information with precision.

**We continuously integrate new data sources and technologies to provide up-to-date and accurate information from around the world.**

## An international footprint

As a global company with our headquarters in Central Europe, we take full advantage of our location. We have a truly diverse and international team, with multiple languages at our disposal, and we're all dedicated to delivering exceptional screening services.

## Global coverage

Our SaaS platform for pre-employment screening offers truly global coverage, enabling employers to access and verify subject information from across the world. By integrating a vast array of international data sources, we ensure that you have the most comprehensive and up-to-date information at your fingertips. Whether you're hiring locally or expanding your team internationally, our platform supports your needs, helping you make informed decisions no matter where your subjects are located.
