

PRODUCT TERMS – CCC DATA FEED

1. **Additional Terms.** The following additional terms apply to Customer's use of the CCC Data Feed Services:

- a. Permitted Purpose. The Permitted Purpose for which the CCC Data may be utilized shall be limited to Customer's internal use within the United States and for no other purpose whatsoever, provided, however, that Customer may create Co-mingled Data so long as Customer does not (i) use the Co-mingled Data for any reason other than Customer's internal use within the United States or (ii) format the CCC Data or Co-mingled Data to provide any comparisons derived from any fields of the CCC Data or Co-mingled Data when such comparisons are between CCC or its products and any competitors of CCC or their products. As used herein, (x) "Co-mingled Data" means the data resulting from Customer combining CCC Data with any other data and all compilations, redactions, copies (regardless of form), reports, analyses thereof and other data derived therefrom; and (y) "CCC Data" means (i) all data submitted to Customer by CCC in connection with the Agreement, and (ii) all compilations, redactions, copies (regardless of form), reports, analyses of the CCC Data and other data derived therefrom. Without limiting any other obligations Customer may have in the Agreement, Customer agrees that it shall not (a) disclose, grant access to, sell, assign, license, sublicense, lease, transfer or otherwise encumber or provide the CCC Data or the Co-mingled Data to any third party; (b) commercially exploit any CCC Data or Co-mingled Data by or on behalf of itself, its employees or agents, except for Customer's internal use or (c) conduct any analyses of the CCC Data or the Co-mingled Data other than exclusively for the benefit of Customer.
- b. Data Feeds. Customer shall be entitled to receive the data feeds set forth on the Order Form(s) (the "Data Feeds"), which are further described within the Documentation. Data Feeds do not include industry data. All data provided via the Data Feeds shall constitute Data and Reports.
