

## CCC® Payments Solution Documentation

CCC will provide CUSTOMER with, or with access to, the CCC® Payments Services, which include:

<b>Estimate Related Payments to Consumers</b>	Allows third parties, including repair facilities and insurance carriers, with whom CCC has a then-effective integration agreement to submit vehicle photos, videos and/or other information via the portal or customer integrations.
<b>Estimate Related Payments Repair Facilities</b>	A consumer-facing pre-/post-appraisal mobile application with the purpose of photo/video and vehicle detail submission, estimate return, and selecting an appraisal option including scheduling vehicle repairs. This functionality is also available via a REST API.
<b>Digital Direction to Pay</b>	Provides review of photos, to determine which photos are eligible for CCC vision AI models.
<b>General Payments to Consumers and Businesses</b>	Provides automated analysis, including through use of artificial intelligence, of eligible photos, obtained through eligible Programs and Services to supplement, suggest, or verify information—including odometer information, VIN information, License Plate (State and Number), and point-of-impact information. As well as provide one of the following recommendations with respect to a damaged vehicle: that the damaged vehicle is likely repairable, that the damaged vehicle is possibly totaled, or that the damaged vehicle is likely totaled.
<b>Direct Digital Check</b>	Allows insurers to define payment as a digital check, including up to five payees, and deliver to the recipient via email or cell phone.
<b>Direct Mailed Check</b>	Allows insurers to define payment method as mailed check, including up to five payees, and deliver to the recipient via USPS First Class mail.
