

CCC® CASUALTY THIRD PARTY SOLUTIONS ANALYZER PACKAGE Solution Documentation

CCC will provide CUSTOMER with, or with access to, the CCC® Third Party Analyzer Package, which includes the following products in the price of an Analyzer:

Analyzer Report	CCC's core solution delivered through our Injury Evaluation Solutions (IES) platform. The medical bill review tool ingests medical bills, medical reports, and demand packages and digitizes and organizes them in a meaningful way for easier review. It links medical bills to reports, removes duplicate and prior date of loss bills, completes a bill audit summary with edits and flags, provides an automatic treatment calendar, and offers configurable state-specific benchmarking tools.
Impact Dynamics	Provides an estimated impact severity score leveraging computer vision AI technology and transmitted directly to the customer through an integrated data feed service and sent to IES and displayed to the adjuster during their evaluation.
Bodily Injury Evaluation Worksheet	Provides a digital counterpart for claims documentation including: medical damages, non-medical special damages, general damages, offsets, and degree of liability information. Each input and negotiated decision is logged for easy review and retrieval.
Third Party Digital Portal	A mobile, self-service channel for claimants to provide information and supporting documentation about their third-party casualty claim. Adjusters can review, evaluate, and present a settlement offer all within the portal.
