

 Dado Kitchens

CATALOGUE · 2026 2027

MADE TO FIT.

BEING DADO. WITH YOU.

A kitchen should fit the person who cooks in it. The way you move, the way you store, the way you gather. For more than twenty years, DADO has designed and built custom kitchens in Vancouver that do exactly that, from its studio in the Armoury District.

CRAFT AND PRECISION

Every DADO kitchen is designed in Austria and assembled in Canada. Cabinetry arrives pre-assembled and installs cleanly, with a typical build of about four weeks from final measure. Order and beauty, inseparable.

BUILT TO LAST

Three hundred projects later, the standard has not moved. Hardware and mechanical components are guaranteed for life, so the parts you use every day are the parts that never wear out.*

*Wood and laminate finishes carry a one year manufacturer warranty.

**BEYOND
CABINETY,**

**WE BUILD
HOW YOU LIVE.**

COLLECTIONS

Real kitchens, built for real households across Vancouver and the North Shore. Every project here was designed, built, and installed by DADO.

PROJECT

Palmerston Avenue

DOOR PROFILE

DK2140 · Shaker Bevel

FINISH

DK401, rift white oak (custom stain)

01

A CLASSIC, WARMED.

In this large West Vancouver kitchen, DK2140 shaker bevel fronts in Decorator's White (DK401) meet rift white oak in a custom stain. The result is calm and warm at once, a room that reads timeless without feeling formal. Lit glass vitrines lift the upper run, and soft-close hardware keeps every door and drawer quiet and precise.

LOCATION

West Vancouver

DOOR MODEL

DK2550 · Handleless

FINISH

Rift white oak (custom walnut stain)

02

WARM MINIMAL.

A medium kitchen with quiet confidence. Rift white oak in a walnut stain pairs with clean white cabinetry, and handleless channels keep the lines unbroken from counter to ceiling. The tall wall carries an integrated wine column without breaking stride. Nothing shouts. Everything works.

LOCATION

West Vancouver

FINISH

Silver Elm, 10% sheen

03

MADE FOR GATHERING.

A North Vancouver kitchen built for people. Integrated wine storage, a marble island, and warm silver elm turn an ordinary evening into an occasion. Handleless channels keep the lines clean, and soft-close motion keeps every drawer quiet, even with a full house.

STORAGE AND FUNCTION

EVERYTHING IN ITS PLACE.

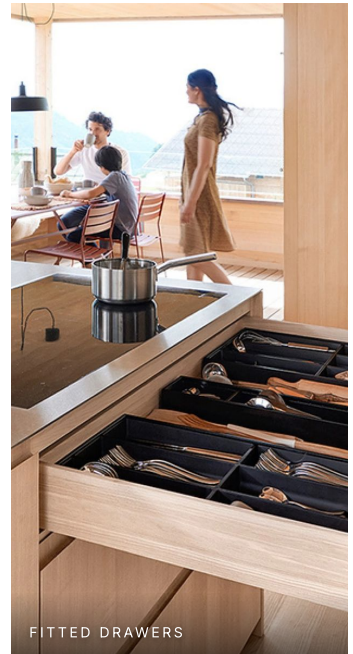

A kitchen works when the inside works. DADO builds function into every cabinet: full-extension pantry pull-outs, dividers cut to the drawer, and soft-close motion throughout. The parts you do not see are the parts you use every day.

THE DOOR LIBRARY

Every DADO door carries a DADO code, and every door is made to order, to the millimetre. The library runs in five parts: the MDF and wood collections, the painted MDF and thermostructure profiles, and the colours and finishes that dress them.

CONSTRUCTION

BUILT LIKE FURNITURE.

Every DADO cabinet is a finished box, not a flat pack. Boxes arrive pre-assembled from our Canadian line, square and sealed, in melamine or plywood construction. Doors hang on adjustable soft-close hinges, drawers ride full-extension soft-close runners, and both are guaranteed for life.*

Handleless kitchens run on machined channel profiles, so the line of the kitchen stays unbroken and the grip stays comfortable, even with wet hands.

*Hardware and mechanical components. Wood and laminate finishes carry a one year manufacturer warranty.

FOUR STEPS, START TO FINISH.

01

CONSULTATION

Bring your space, your habits, and your budget. We bring twenty years of kitchens.

02

DESIGN

Your kitchen, drawn to the millimetre, with realistic renderings before anything is built.

03

PRECISION MEASURE

We confirm every dimension on site, so the build fits the room, not the other way around.

04

BUILD AND INSTALL

A typical build takes about four weeks. Cabinets arrive pre-assembled and install cleanly, by our team or yours.

VISIT THE STUDIO

COME SEE IT IN PERSON.

Every DADO kitchen starts with a conversation. Visit the studio in Vancouver's Armoury District, or start with a free consultation online.
