Sterisol

Sterisol SENSE Liquid Soap, No Parfum

Properties

Sterisol SENSE Liquid Soap is a very gentle and effective liquid soap. It was specially developed for settings requiring frequent handwashing. It contains a high proportion of rehydrating substances and is Allergy Certified which reduces the risk of skin dehydration or developing allergy. SENSE Liquid Soap contains no preservatives, colourants or fragrance.

Fields of Application

Thanks to its properties, SENSE Liquid Soap is especially suitable for use in settings that require frequent handwashing to maintain good hygiene, such as health and medical care. Because it is gentle, rehydrating and allergy friendly, it can be used in environments where it is important to maintain a healthy skin barrier. The soap must be used with a dispenser; otherwise leaks may occur.

Tests

Sterisol SENSE Liquid Soap is dermatologically tested and Allergy Certified.
