

STERISOL ULTRA Shower Soap

Properties

Sterisol ULTRA Shower Soap is a high-performance body wash developed for gentle cleansing in environments with high hygiene requirements. The formula is dermatologically tested and specially designed to provide a pleasant shower experience, delivering deep cleansing without drying out the skin.

ULTRA Shower Soap is free from preservatives and silicones. The product is also Nordic Swan Ecolabelled and mildly fragranced to leave a fresh feeling after every use.

Field of Application

Sterisol ULTRA Shower Soap is ideal for environments where frequent showering is part of everyday routines. Thanks to its balance of effective cleansing and moisturising properties, the product is a natural choice for food handling, heavy industry and healthcare, as well as public facilities such as swimming pools and sports centres.

By combining hygienic washing with caring ingredients, the product helps maintain an intact skin barrier, even under significant daily stress.

To ensure the unique hygiene benefits of the system and leak-free performance, the product should always be used together with the corresponding dispenser from the Sterisol System.

Sterisol System is designed to ensure the highest level of hygiene and minimal waste. Our dispensers are easy to install, simple to keep clean, and compatible with all products in our range. The system guarantees completely airtight storage of the contents right up until use.

Tests

The product has been dermatologically tested with excellent results. Irritation score: 0.

Environment

ULTRA Shower Soap is **Nordic Swan Ecolabel** certified and based on readily biodegradable raw materials. The system is designed for minimal resource consumption: a 700 ml pouch requires only 11 g of plastic, representing more than an **80% reduction** compared to a traditional bottle (70 g). With a discharge rate of up to 99%, both product waste and overall waste volume are minimized.

Ingredients

Aqua, Cocamidopropyl Betaine, Sodium Cocoamphoacetate, Sodium Laureth Sulfate, Sodium Chloride, Glycerin, Citric Acid, Polyglyceryl-3 Caprate, PEG-55 Propylene, Glycol Oleate, Propylene Glycol, Parfum.

How to use

To help maintain a strong skin barrier and prevent dryness, a shower temperature close to body temperature, approximately 37°C, is recommended. A short shower of just a few minutes is sufficient for effective cleansing. Finish with cooler water to help the skin recover and preserve its natural moisture balance.

- 1.** Wet hair and body thoroughly with water.
- 2.** Turn off the water and massage ULTRA Shower Soap into both hair and skin.
- 3.** Rinse thoroughly to remove all shower product, leaving the skin and hair clean and soft.

To ensure the system's unique hygiene benefits and leak-proof performance, Sterisol ULTRA Shower Soap should always be used with the corresponding dispenser from the Sterisol System.
