

Sterisol System

Automatic Dispenser 0,7 l

Properties

Sterisol Automatic Dispenser is a touch-free dispenser for the Sterisol System. Automatic dosing reduces the need for direct contact with the dispenser and supports hygienic use.

The dispenser provides even and controlled dosing with every use. It can be powered by both batteries and mains connection, making it easy to install and adapt to different environments.

Sterisol Automatic Dispenser is EMC approved and can be used in environments where electronic equipment is present.

Field of Application

Sterisol Automatic Dispenser is suitable for environments where touch-free and hygienic dispensing of products in the Sterisol System is required.

It is particularly suitable for hygiene-critical and sensitive environments where many people use the dispenser, such as healthcare, food handling, public facilities, offices and washrooms.

Touch-free dispensing makes the dispenser a practical choice where reducing contact surfaces is important, while ensuring consistent dosing with every use.

Product Information

Automatic dispenser for the Sterisol System, designed for Sterisol's 0.7-litre packs. The dispenser provides touch-free, hygienic and controlled dosing and can be powered by both batteries and mains connection. Batteries not included.
