

Sterisol System

Metal Wire Dispenser 0,7 l

Properties

The Metal Wire Dispenser is an open and hygienic dispensing solution for the Sterisol System, designed for Sterisol's 0.7-litre pouches. The pouch is easily suspended from metal loops, providing a clear overview of which product is being used and how much remains.

The wire bracket has a metal arm that enables forearm-operated dispensing, helping to reduce hand contact during use. The bracket is easy to install, remove and clean.

Field of Application

Metal Wire Dispenser 0.7 L is suitable for professional environments where an open, simple and hygienic solution is required for dispensing Sterisol System products in 0.7-litre pouches.

It is particularly suitable for environments where good hygiene, easy cleaning and quick pouch replacement are important, such as healthcare, food handling, industry, washrooms and other workplaces with high cleanliness requirements.

Product Information

Metal wire dispenser for the Sterisol System, designed for Sterisol's 0.7-litre pouches. The open design makes it easy to see which product is being used and when the pouch needs to be replaced.

The metal wire dispenser has metal loops for easy suspension of the pouch and a metal arm that enables hygienic forearm-operated dispensing.

Dimensions: 200 x 90 x 125 mm.
