

Sterisol Sweden Hand Cream

Properties

SOFT Skin Cream is a moisturising and emollient skin cream for the hands. It helps maintain the skin's natural moisture balance and has been developed for regular use, including in work environments where the skin is exposed to stress.

The product is fragrance-free. It is free from colourants, has a lipid content of approximately 18% and a pH value of approximately 7.

Fields of Application

Sterisol Sweden Hand Creme is suitable for people who want to care for their skin while helping to reduce the risk of dryness, irritation and hand eczema. Thanks to its lipid-replenishing and emollient properties, the cream is also a good choice for industrial environments where the skin is frequently exposed to water, dirt and temperature changes.

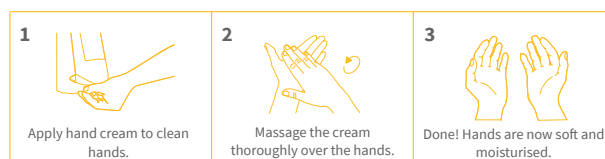

Packaging	Art. no	No. in ctn	No. Ctn/pallet	No. on pallet	EAN-code	Packaging/litre of product
300 ml	4342	12	90	1080	7392173043421	117 grams
100 ml	4344	12	210	2520	7392173043445	213 grams

Ingredients

Aqua, Paraffinum Liquidum, Isopropyl Palmitate, TEA-Stearate, Glyceryl Myristate, Cetyl Alcohol, Phenoxyethanol, Caprylyl Glycol, TEA-Carbomer.

How to use

1. Apply the product to clean skin. Adjust the amount according to need and how dry the hands feel.
2. Massage the cream into the backs of the hands, palms, between the fingers and around the nails until absorbed.
3. Hands now feel soft and moisturised. Use the cream after hand washing or whenever the skin feels dry.
