

Sterisol Sweden Liquid Soap

Properties

Sterisol Sweden Liquid Soap is a well-proven, synthetic liquid soap for gentle yet effective cleansing. The product can be used on the whole body and is suitable for daily use in environments where a mild soap is preferred.

The soap is mildly fragranced, free from colourants and effective even in hard and/or salt water. The product's pH value is approximately 5.

Fields of Application

Sterisol Sweden Liquid Soap is suitable for hand washing in most environments where a mild and pleasant soap is needed, such as public facilities, schools, institutions and other operations using open, refillable dispensers.

Thanks to the convenient plastic packaging, the product can easily be placed next to washbasins, and sealed and stored when needed.

The soap can also be used for hand washing before hand disinfection in healthcare settings.

Packaging	Art. no	No. in ctn	No. Ctn/pallet	No. on pallet	EAN-code	Packaging/litre of product
350 ml	4823	12	90	1080	7392173048235	117 grams
750 ml	4822	12	40	480	7392173048228	103 grams
5000 ml	4461	3	36	108	7392173044619	50,4 grams

Environment

Sterisol Sweden Liquid Soap is Nordic Swan Eco-labelled and based on readily biodegradable raw materials.

Ingredients

Aqua, Sodium Laureth Sulfate, Glycereth-2 Cocoate, Glycerin, Sodium Chloride, Cocoamidopropyl Betaine, Capryl/Capramidopropyl Betaine, Phenoxyethanol, Sodium Cocoyl Glutamate, Parfum, Citric Acid, Propylene Glycol, Benzoic Acid, Dehydroacetic Acid.

How to use

- 1.** Wet hands with lukewarm water.
- 2.** Dispense soap and massage hands thoroughly until a lather forms. Do not forget the fingertips and the spaces between the fingers.
- 3.** Rinse hands thoroughly under running water until all soap has been removed and the skin feels completely clean.
- 4.** Dry hands completely with a paper towel. Avoid textile towels, as these quickly become unhygienic.
- 5.** Turn off the tap using the paper towel to avoid recontamination. If needed, follow with a suitable hand cream to help strengthen the skin's natural barrier.
