PATTERNS + TRIM

DON'T MAKE A HOME. MAKE A STATEMENT.

GREAT LOOKS MADE TO LAST

ENDURAWOOD™ has the ability to firmly grip onto paint and stains, giving you great looking siding, trim, and fascia that lasts and is easy to maintain.

➤ This home represents some of the applications of ENDURAWOOD™. It was not actually produced with this product.

—>> PRODUCT INTRODUCTION

DURABLE AND AFFORDABLE. Affordable building material should never translate into sub-standard quality or performance. With **ENDURAWOOD™ Premium Patterns + Trim**, you will find an excellent wood product that strikes the right balance of strength, value, and quality appearance without breaking your budget.

ENDURAWOOD™ is easy to work with, whether you are working with the material by hand or with power tools. Thanks to the fine, smooth grain found at the heart of **ENDURAWOOD™**, each piece is able to firmly grip onto most paints, stains, and other surface applications with ease, allowing you to achieve a clean, exceptional look without any grain raising or deformation. This enables your build to maintain a refined, quality appearance over time.

ENDURAWOOD™ offers the versatility you need to take on a wide variety of applications. From window and door trim to siding, fascia to ceilings, and more. Made possible by its strength and versatility, **ENDURAWOOD™** comes in a wide range of patterns and textures. And for those challenging projects, we can make the perfect piece with our custom pattern service.

SIZING + FINISHING OPTIONS
