

WEBSITE ACCESSIBILITY REPORT.

LLOYD TICHIO PROD.

Staging link: <https://lloyd-tichio.webflow.io/>

This accessibility report has been created by accessiBe, a trusted and independent web accessibility checker, to thoroughly assess and verify that our websites meet and exceed all current accessibility regulations.

We are committed to ensuring that our sites are fully accessible to all users, including those with disabilities, in compliance with relevant legislation and best practices.

Accessibility Score: **96.6%**

Total Points: 1063/1100

PASS.

An independent website accessibility checker, accessiBe, has determined this website as Accessible, and fully compliant with all the web accessibility legislation.

Category	Score
Clickables	91/100
Titles	100/100
Orientation	75/100
Menus	100/100
Graphics	100/100
Forms	100/100
Document	100/100
Readability	97/100
Carousels	100/100
Tables	100/100
General	100/100

1. Clickables.

91/100

-  1.1 Elements with button functionality should be tagged for assistive technology.
-  1.2 Buttons cannot be empty.
-  1.3 Links cannot be empty.
-  1.4 Links that open in new tabs/windows should be tagged for assistive technology.

2. Titles.

100/100

-  2.1 Every page should include a single H1 title.
-  2.2 Titles cannot be empty.
-  2.3 Titles built as text tags should be labelled as headings for assistive technology.
-  2.4 Titles should have a consistent hierarchy.

3. Orientation.

75/100

-  3.1 Interactive elements should be navigable using the keyboard.
-  3.2 Keyboard focus should have a noticeable outline.
-  3.3 Active pop-ups should be tagged for assistive technology.
-  3.4 Every page should include hidden links that allow skipping blocks.
-  3.5 Manipulatively hidden interactive elements should be excluded from assistive technology.
-  3.6 Manipulatively hidden interactive elements should be excluded from tabindex.

4. Menus.

100/100

-  4.1 Menus should be tagged for assistive technology.
-  4.2 Menu drop-downs should be tagged for assistive technology.
-  4.3 Drop-down expanded/collapsed state should be represented in the code.

5. Graphics

100/100

- ☐ 5.1 Objects and embedded text of images should be described for assistive technology.
- ☐ 5.2 Background images behaving as standard images should be tagged and described.
- ☒ 5.3 Non-functional icons/spacers should be excluded from assistive technology.
- ☐ 5.4 Figure elements should have text or be excluded from assistive technology.
- ☐ 5.5 Image map areas should be described for assistive technology.
- ☐ 5.6 Tracker images (pixels) should be excluded from assistive technology.

6. Forms.

100/100

- ☒ 6.1 Form fields should be properly labelled.
- ☐ 6.2 Form fields should not have duplicate ID selectors.
- ☐ 6.3 Required form fields should be tagged for assistive technology.
- ☐ 6.4 No incorrect use of aria-describedby/labelledby.
- ☐ 6.5 Search forms should be tagged for assistive technology.
- ☒ 6.6 All forms have associated submission buttons.
- ☐ 6.7 Validation status of form fields should be represented in the code.

7. Document.

100/100

- ☒ 7.1 The HEAD element should include a title element with the name of the page.
- ☒ 7.2 The HTML element should include a proper "lang" attribute.
- ☒ 7.3 Meta viewport allows display scaling of at least 200%.
- ☐ 7.4 Page landmarks should be tagged and described for assistive technology.

8. Readability.

97/100

- ☒ 8.1 Font sizes should be large enough to be readable.
- ☒ 8.2 Letter spacing should be wide enough to be readable.
- ☐ 8.3 Foreground and background colours have sufficient contrast.

9. Carousels.

100/100

- ☐ 9.1 Carousels should be labelled accordingly and be presented as landmarks.
- ☐ 9.2 Next and previous buttons should be labelled accordingly.
- ☐ 9.3 Carousels should not be tagged as live regions for assistive technology.
- ☐ 9.3 Carousel pagination buttons should be labelled accordingly.

10. Tables.

100/100

- ☐ 10.1 Tables used for building layouts should be tagged as presentation.
- ☐ 10.2 Avoid nesting tables or exclude their role from assistive technology.
- ☐ 10.3 Headless tables should have fallback rows for assistive technology.

11. General.

100/100

- ☐ 11.1 Deleted text should include an additional description.
- ☐ 11.2 Breadcrumbs should be labelled accordingly and tagged as navigation.
- ☐ 11.3 Reviews and ratings should be labelled and described accordingly.
- ☐ 11.2 Include a web accessibility interface.
- ☐ 11.3 Iframe elements should be labelled or titled.
