EXPERIENCE

UX Designer

June 2025 – July 2025

Burns Dumpster Rentals ~ Contract

- Led the redesign and implementation of a new website architecture, strategically improving the site's SEO score to increase traffic.
- Drove a 58% increase in website traffic by optimizing key pages and content, which directly led to an 83% increase in qualified sales calls.
- Improved the online booking process and streamlined the user experience, leading to an 83% increase in bookings.

PROJECTS

Zaiko Inventory

January 2025 – April 2025

Inventory Management System ~ Senior Project

- Designed high-fidelity mockups and interactive prototypes in Figma to facilitate a seamless design-to-development handoff.
- Executed user research within a Goal-Directed Design framework to identify core user needs and pain points, providing foundational data that drove strategic design decisions.
- Collaborated with a cross-functional development team to design and launch a full-stack application from initial concept to deployment, ensuring UX principles were maintained across the product lifecycle.
- Managed and maintained all project documentation, meeting summaries, and design workflows, optimizing team communication and ensuring 100% on-time submission of key project deliverables.

Hirescape

August 2024 – November 2024

Job Search Database ~ Class Project

- Established and maintained a scalable design system in Figma to ensure brand consistency across the entire product suite.
- Contributed to visual design and high-fidelity prototyping efforts within a fast-paced Agile/Scrum environment, supporting continuous iteration and deployment.
- Led and executed usability testing and user interviews, analyzing qualitative and quantitative data to generate actionable insights that directly informed design iterations and guaranteed alignment with core user needs.
- Designed an Applicant Tracking System user interface, to provide real-time resume feedback and personalized job recommendations.
